HURT IN SAWMILL, SUES FOR \$3,000

Suit has been brought in the superior court, returnable on the first Tuesday in October, in which damages of \$3,000 are sought on behalf of Tyler W. Ladd, of Franklin, 27 years old, from Charles S. Brown of Franklin for whom Ladd was working as a sawyer at a sawmill on June 6, 1921. It is alleged that for several weeks prior to that time Ladd had been doing miscellaneous work around the sawmill, but that he knew nothing about the work and the danger of the job of sawyer, nor was he adequately warned or instructed by Brown. When Ladd had been at work about two hours on the morning of the 6th of June, a piece of lumber became jammed against the saw, throwing Ladd against the saw which cut and almost severed his hand from the base of the thumb. The plaintiff has been permanently injured. It is claimed, and the injury was caused by the defendant's negligence in keeping Ladd at work on a dangerous machine, without sufficient warning, instructions, supervision or practice, knowing or being in a position to know that the plaintiff did not appreciate the dangers and risks.

Average Reduction in all Hudson Cars

Never was Hudson's price advantage over cars of comparable quality so striking as now. It is in all respects as great a car, and in many refinements even greater than last year's Super-Six. And think, that then, at \$2600 it outsold all fine cars, as it had done for five years previously.

Now with Hudson at the medium price of \$1895 does any higher-priced car offer qualities to warrant their vastly increased price differential? And of the cars in its new price range is there one that you ever even distantly associated with Hudson in any wanted quality?

AUTOMOBILE HITS GIRL ON NORTH MAIN STREET

While driving his automobile on the way to the superior court here Friday morning, County Investigator W. E. Jackson of Willimantic struck a twelve year old girl, Julia Ferle, on North Main street. He picked up the girl at once and took her to the Backus hospital where it was found her collar bone was broken. He swung the car sharply to the right in an attempt not to hit her, but the left forward fender knocked her down.

NORWICH MAN'S WAR RECORD CLEARED OF DESERTER CHARGE

Frank J. Gokowski of this city who was listed as a draft deserter by Local Board for Division No. 2, Bridgeport, has been removed from the deserter's list by

Major General C. R. Edwards, commanding general of the first corps area.

The draft records show that this registrant was directed to report to the Adjutant General of Connecticut for military service not later than August 5, 1918; his failure to do so resulted in his being certified as a deserter. Records of those who served in the World war show he entered the U. S. Marine Corps on October 3, 1917, and was discharged August 11, 1919. His being listed as a deserter occurred through his negligence in not notifying his local draft board of his entrance into service by enlistment, and further his draft record shows 148 Bough Avenue, Bridgeport, as his home address while his marine corps record gave Norwich, Conn., as his home address.

POETRY

THE WRENS AND KING PHILIP'S SKULL
Back to Plymouth came the soldiers
When King Philip's war was o'er,
With the bones that dark sachem
Which upon a pile they bore.

And exposed where frowned their fort
And their bones repose today—
Not in the soil of their own land,
But in their forefathers' way.

There for twenty years they lay,
As Dame Patience Kempton said,
When Salton sold his story,
With a wren upon her head.

Plainly, as if still in Plymouth,
Seeing him and rock and sea,
And the head above the fortress,
As in many an early day.

In it, when its eyeball sockets
More and more like caverns grew,
Lived a pair of wrens with nestlings,
Many a budding season through.

And it many a passing year
It should be at so grim a thing,
For they could not bear the twitter
Falling from it in the spring.

Philip—faithless Pomaratankim,
Mocking and malevolent,
Far and wide through town and village,
In his ruthless warfare went.

Dull to sunlight, dull to moonlight,
In the heart of darkest grain,
Never thought that was not savage
Found lodgment in his brain.

Strange, that in his skull, in that skull—
Better skull of wolf or bear—
Ever should be wrens with nestlings,
As the wren through that skull flew!

Strange, that in his skull so loving
To the wren Philip's sight,
Ever should be thoughts so tender
As to wrens thought, day and night!

Still, they were such thoughts as age
In the humanizing process,
By which godlike lives are wrought,
Ralph H. Shaw in Boston Transcript.

"EN VOYAGE"
Whichever way the wind doth blow,
Some heart is glad to have it so;
Then blow it east or blow it west,
The wind that blows that wind is best!
My little craft sails not alone;
A thousand hearts from every zone
Are out upon a thousand seas;
And what for me were favoring breezes
Might dash another's craft to wreck
Of doom, upon some hidden rock.

And so I do not care to pray
For winds to wait me on my way,
For leave it to a higher will
To stay or sweep or blow or still.
That all is well, and sure that he
Who nudged my bark will sail with me
Through storm and calm, and all will net
fall.

Whatever breeze may prevail,
To land me every port I sail,
Within His sheltering haven at last.

Then whatsoever wind doth blow,
My heart is glad to have it so;
And blow it east or blow it west,
The wind that blows that wind is best.
—Caroline Atwater Mason in Indianapolis News.

IN THE DAY'S NEWS
She (to young poet)—How much do you get for your poems, Charley?
Charley (with pride)—I have had half a guinea.
She—Well, isn't that very little? I was reading that Sir Walter Scott got 500 pounds for his.
Charley—Yes, but writing poetry isn't the business it was before the war. There's too much competition.—Exchange.

Widow—Do you know that my daughter has set her cap upon you?
Gentleman (flattened)—Has she, really?
Widow—Certainly. Only today she was saying that the sort of a gentleman I should like for my son-in-law.

"I'm sorry, young man," said the doctor, as he eyed the man who lay over the counter, "but I can only give you half as much castor oil for a dime as I used to."
The boy blithely handed him the coin.
"I'm not kidding," he remarked. "The stuff for me—Witchman's Examination."
"Why did you quit smoking?"
"It has got so it looks effeminate."

"Pa, what's an incongruity?"

"Yes'm, I'm going to be a dialect writer."

Fishermen on the north of Blous Island sound above the Montank Point have found a novel use for old and discarded nets. They make roads of them. They lay them down over the marshes in the boats are placed and the sand blown into the meshes and is soon compacted into a firm roadway, solid enough for wagons or even light automobiles. The principle is the same that used by lumbermen in making corduroy roads over swamps.—New York Evening Post.
