

## RAIN MADE FREE DAY AT STAFFORD

An early morning rain at the Stafford fair ground on the opening day on Wednesday turned the race track into a veritable gamine and forced the postponement of the racing programme and the fair for the first day. Wednesday's racing card will be run off on Saturday.

Not only did the rain affect the racing programme but it also kept down the first day attendance to a small crowd, during the morning but as the weather cleared the attendance took on considerable proportions. The fair, this year is better than in years previous and practically all the concessions of the big midway are taken.

As the fair is held just at the close of the harvest season this is productive of excellent exhibits of farm produce, some of which surpass many of the exhibits of the larger state fairs. The exhibits of agricultural products is held in the large exhibition hall in the center of the grounds. The exhibits included a large number of the finest specimens of staple products and not a few excellent varieties of novelties in the vegetable line. The exhibit of E. Dimock of Stafford is the largest in the building and includes mammoth squashes, prize-winning cabbages, corn, melons and other products. Worthy of mention are the exhibits of W. A. Foster of Stafford and John Dank of West Stafford. Both include large varieties of farm produce, together with many farm specialties in the vegetable line.

Also found in the large exhibition hall is a pleasing exhibit of fancy work.

entered by the women of Tolland and Windham counties. This exhibit includes patchwork quilts, braided rags, embroidered table linen and other pieces of beautiful fancy work.

The midway this year is the largest in years and like all midways has everything that could be desired in the way of novel attractions. A large part of the midway is devoted to side shows which include all the novelties, freaks and other forms of entertainment that are found under canvas. One of the feature attractions on the ground was the athletic tent in which Al Landstrom, Norwich wrestler, challenged all heavyweight comers. Working with Landstrom is Mike James who has appeared in Norwich many times.

The vaudeville attractions for the free performance opposite the grandstand, are of a very high type of outdoor attractions. The feature of this programme is the bounding net and trapeze artists. Other numbers on this program are equally as good in their line. The vaudeville was postponed.

As Wednesday was entry day the livestock was meagre but it is expected that with the fair holding over until Saturday there will be many added entries. Owing to the rain there was no admission charged at the gate out the midway concessions did a very large business as there were no other attractions to attract the crowds.

Today the second day racing card will be run off and several good races are promised on this card. This will be the big day of the three and with good weather a record-breaking crowd is expected. The grounds on Wednesday were crowded with hundreds of automobiles.

### Gained 20 Pounds In Four Weeks Time

Declares It's Simply Astonishing to See the Wonderful Benefits She Has Derived From Tanlac — Says Terrible Headaches Have Disappeared.

"It sounds unreasonable, but I have actually gained 20 pounds in less than a month's time by taking Tanlac, and the wonderful benefit I have derived from the use of this medicine is simply astonishing," said Mrs. Rose M. Brown, 111 Third Street, Manchester, N. H.

"Why, I am so happy to be relieved of my troubles I can really never praise this medicine enough. Up to the time I began taking Tanlac, I suffered for something over two years with a very bad form of stomach trouble.

"My appetite was so poor I could scarcely eat a thing. My stomach would be so badly bloated with gas sometimes I was almost afraid to go to bed for fear I would actually smother. I felt tired and worn out most of the time and became terribly discouraged over my condition. I often had such violent headaches I was unable to be out of bed for two or three days at a stretch.

"Four bottles of Tanlac completely restored my health and anyone can see at a glance the wonderful change that has taken place in my condition. I have a splendid appetite now and the stomach trouble has entirely disappeared. I can eat just anything I want without ever feeling a sign of indigestion. The best of all, I am never bothered any more with headaches and this was the greatest relief

MRS. ROSE M. BROWN

of all. I want to tell everybody what this medicine has done for me.

Tanlac is sold in Norway by Valentin Paul Steen, Alton, and T. L. Thorsen, and in Plainfield by E. L. Mercer, Charles B. Carey, Jewett City, Conn.
