CANTERBURY FARMER KILLS NEIGHBOR AND SELLS IN YEAR OLD FEUD

(Special to The Bulletin) - A murder and suicide shocked the people of peaceful Canterbury Monday morning. William H. Hallikainen, 32, evidently nursing a hatred of Lauri W. Larson, 29, another farmer living in the neighborhood, shot and killed Larson and then committed suicide.

The men are Finns and live in what is known as the North Society neighborhood of Canterbury. Information given by Coroner Arthur G. Bill, who with Medical Examiner Dr. W. W. Adams of Moosup, visited the location of the tragedy, indicated that Monday morning's happening was the sequel to trouble that the men had about a year ago over a horse. Since that disagreement they have had nothing to do with each other, and so far as is known have not spoken since.

At about 10 o'clock Monday morning Larson was on his way to a woodlot and was driving a low platform wagon. As he was passing Hallikainen's home Hallikainen fired a shot from a .38 Smith & Wesson revolver, hitting Larson in the chest. The discharge of the shot gun frightened the horse, which bolted and raced wildly up the highway. The driver, who was possibly a quarter of a mile, the maddened horse finally crashing the

team against an apple tree and causing Larson's body to roll off the vehicle and to the ground, the horse continuing along the road.

Having disposed of Larson, Hallikainen returned to his own home and inquired of his young wife as to whether she wished to die. She was very positive in her negative reply and quickly obeyed her husband's order. Thereupon given, that she got out. As she stepped out on to the doorstep at the kitchen entrance, Hallikainen re-loaded his gun, this time putting in shell that carried a lead ball ammunition such as is used in hunting deer—and killed himself, he too dying instantly.

Mrs. Hallikainen is positive that her husband would have killed her had she not instantly replied that she did not want to die.

The Hallikainens have no children and Larson was an unmarried man making his home with his step-mother. Hallikainen and Larson were of the group of industrious Finnish farmers who have been coming into Windham county during the past few years and taking up farms. Numbers of them have located in Brooklyn and in Canterbury.

After completing their investigation of the case Coroner Bill and Dr. Adams returned to the office of the coroner, taking with them to Canterbury and took charge of the bodies.

Woman Makes Surprisingly Prompt Recovery From Serious Break-Down - GREW WEAKER AND WEAKER UNDER CONSTANT CARE OF PHYSICIAN - Tells How She Was Completely Restored to Health

Unable to eat or to sleep, sickened by the mere sight of food, sicken, grew weaker and weaker under the constant care of her physician, Mrs. I. E. Brown, of Hartford, Conn., was quickly recovered from a severe breakdown. Her aversion to food having given way to a normal appetite and her tormenting sleeplessness having changed to restful slumber, she is now as well as ever and is telling her friends of her rescue from just such misery as is being experienced by thousands of men and women who are not yet familiar with the merits of Wincinnich, the famous general tonic and restorative.

Here is Mrs. Brown's letter: "I had a severe break-down, I could neither eat nor sleep and I can truthfully say that I did not touch any solid food in four weeks. I had no appetite and the sight of food sickened me. I was constantly under the doctor's care and there was not the slightest change in my condition. I grew weaker and weaker. I saw your advertisement in the paper one day and purchased a bottle. I felt the first

effects in getting a good night's sleep and then gradually my appetite returned, and after taking three bottles I again felt as well as ever. I always recommend Wincinnich to my friends."

Wincinnich has been in world-wide use for almost half a century. More than ten thousand physicians have prescribed it as a general invigorant and strengthener. Countless men and women have freely testified to its great value in improvement of the blood, nervous exhaustion, general debility, if your blood is impoverished, if your nerves are "unstrung," if you lack energy, tire quickly and arise in the morning unrefreshed and sluggish, try Wincinnich.

Wincinnich is put up in two sizes—\$1.10 and \$1.95. It is sold in Norwich by National Drug Store, Main and Shepley Streets, and all first-class druggists. Write for free instructive booklet "Hundred-per-cent Health, How to Obtain It" to Edward Lassar, Inc., Dept. K, 400 West 23d St., New York, U. S. Agents for Wincinnich.

Another experiment in the adaptation of the airplane to peace-time activities was recently made near Dayton O., says Popular Mechanics Magazine. A six-acre grove of young catalpa trees had been attacked by insects, which was in danger of being destroyed. An airplane soared directly over the grove and gifted powdered arsenate of lead into the trees. Only a few minutes were required to accomplish this work, which would otherwise have demanded the services of a large number of men and sprays for several days and moreover, it was done more effectively by the plane.
