

# Amateur Basketball League To Start Soon

Basketball in Norwich will start in full swing next week when the Kacey Five take the floor at the outset of their season and the amateur league games will be started. Manager Joe DeLalé has not yet announced his lineup for the Kacey team, but it is understood that he has several good men in view. It is probable that Denny Murphy of Tatfville, former star of the Crescent team will be seen in action together with Jack Murphy, another Crescent man, who made a good showing last season. DeLalé himself will be at the helm and can be depended upon to give a satisfactory account of himself.

The amateur league is creating no little interest in the city and three teams have already signified their intention of entering the league. The teams that have entered the league so far are the Army Five, Duwells, and the Kacey Fives. Other teams may be a West Side team, a team from the Y. M. C. A. and possibly an industrial team. The league will be run under a schedule and two or three games will be played each week. One of the games being a preliminary for the championship. A team has been offered to the winning team and strict rules will be laid down governing the eligibility of players.

With the advent of the Kacey's of Columbus in the basketball field, a new impetus has been given to the sport in Norwich. Several years ago basketball was one of the leading winter sports in Norwich and the games were always well patronized by Norwichers. During the past few years there has been a growing demand for this sport and now that the "Kacey's" of Columbus have come to the front to back the sport in the city, the interest in Norwich to show their appreciation of the efforts of the Kacey's at attendance at the games.

**24-HOUR BICYCLE RACE IN MADISON SQUARE GARDEN**  
New York, Nov. 16.—Harry Moran and Thomas Fitzsimmons were leading thirteen other cycling teams at the end of the first mile in the 24-hour race which started at 11 o'clock tonight around the saucer in Madison Square Garden.

Garden. The team of Smith and Taylor was withdrawn when Taylor became ill.

**TATFVILLE BASKETBALL LEAGUE OPENS TONIGHT**  
Everything is set for the opening of the Tatfville Basketball League tonight. A street parade will start from the post office at 7:30 accompanied by the Tatfville band. The members of the different clubs that make up the league will march.

At 8:15 the league president, Dennis Murphy, will start the opening game of the league, by tossing up the ball, between the K. C. and the Lafayette club teams. The Army-Navy and Pemaunt Wheel club make up the second game on the programme.

Both games will be interesting to watch as there is keen rivalry between the clubs.

The winner of the league will be given a silver loving cup donated by the Tatfville Athletic association.

**TALE HAS FINAL SCRIMMAGE IN BOWL**  
New Haven, Nov. 16.—The Yale football squad finished its 1921 activities in the Bowl with a dummy scrimmage this afternoon. Tomorrow afternoon at 1:30 the entire squad, with coaches and trainers will leave here on the trip to Harvard.

The Blue warriors will leave the train at Newtonville, Massachusetts, where they will be quartered at the Belmont Country Club. Friday morning they will appear at the Crimson Stadium for a final practice. Arrangements have been made for the Yale squad to attend a theatre in Boston Saturday night.

**HOPPE WON HIS SECOND MATCH IN BILLIARDS**  
Chicago, Nov. 16.—Roger Conté, the French billiard champion, today won his second match in the world's championship 18.2 ball tournament when he defeated Jake Schaefer, Jr., 400 to 293. Conté had previously lost to Welker Cochrane of San Francisco, and

Willie Hoppe, holder of the championship title. Conté played out in ten innings and would have finished in his ninth had he not missed an easy masse shot with four to go. Schaefer, the Chicago star, seemed to have trouble keeping the ball together while Conté exhibited his best work of the tournament. Conté's high run was 132.

Willie Hoppe, world's champion, won the second match today when he defeated George Sutton, of Chicago, 400 to 274. Hoppe played out in ten innings with a high run of 186 in the last frame. The match was one of the most hotly contested of the tournament. Sutton leading Hoppe throughout the game except in the second and third innings, until Hoppe's high run in the tenth.

Sutton was defeated yesterday by Schaefer and Hoppe won yesterday's match from Conté.

**RESULTS IN BILLIARD CHAMPIONSHIP TOURNEY**  
Chicago, Nov. 16.—Eduard Foremans, the Belgian Belgian balk line billiard player of Europe, tonight defeated Welker Cochrane of San Francisco, 400 to 341, in the world's championship tournament here.

The outcome of the game tonight was a surprise in view of Cochrane's victory over Roger Conté, the French champion early in the tournament. Cochrane led Foremans until the eleventh inning. When the Belgian registered his high run of 188, overcoming Cochrane's lead.

This afternoon Conté defeated Jake Schaefer, Jr., of Chicago, 400 to 293, and Willie Hoppe, world's champion, won from George Sutton of Chicago, 400 to 274. Today's victory was the first for Conté in the tournament, the Frenchman having been defeated by both Hoppe and Cochrane in earlier matches.

Standings of the contestants tonight follows:

Player	Won	Lost
Hoppe	2	0
Morninstar	1	0
Schaefer	1	1
Cochrane	1	1
Foremans	1	1
Conté	1	2
Sutton	0	2

**PLAINFIELD LEADS IN EASTERN CONN. LEAGUE**  
The big match of the Eastern Connecticut Bowling League will be rolled at Plainfield this week, when Danielson comes to try to take first place in the league aggregation.

While Plainfield has a 100 per cent record to date, with Danielson a close second, tonight's match will feature the topnotchers at their best. The standing in the league to date:

Team	Won	Lost	Avg.
Plainfield	11	5	732
Danielson	10	5	667
Tatfville	10	5	667
Mogump	9	6	690
Norwich	9	6	690
Jewett City	2	13	614

Brig-Gen. William D. Connor, Acting Chief of Staff, assigned to the staff of Marshal Foch during the war in both combat and supply branches of the American Expeditionary Force.

## SUGAR BEET INCREASING ITS SHARE OF WORLD SUGAR SUPPLY

The sugar beet is slowly coming back to its proper share in world sugar production. Twenty years ago, according to the Trade Record of the National City Bank of New York, it was producing two-thirds of the sugar of the world. The percentage of world sugar output supplied by beets having ranged from 62 per cent to 68 per cent during the period 1897-1902, thought this was during a period in which Cuba cane sugar production was unusually low. Normally, adds the Bank's statement, the beet supplied just about one-third of the world's production, down to about the beginning of Europe was the world's chief beet sugar producer in pre-war days—the share which the beet supplied of the world's sugar fell from 49 per cent in 1913 to 29 per cent in 1918 and 22 per cent in 1919-20. In that low record year, 1919-20, Europe's output of beet sugar had fallen, according to Willett & Gray, the world's largest sugar statistician, to 2,694,000 tons as against 3,341,000 in the sugar year 1920-21. In the sugar year 1920-21 the United States, which had been producing about 968,000 tons of beet sugar, advanced during the European war to 1,713,000 tons, and its output of the beet product to 2,719,000 tons, bringing the share which beet sugar formed of the world total output in 1920-21 up to 28 per cent, while for the crop year 1921-22 the authorities above named estimate that beet sugar crop at about 31 per cent of the total sugar output of the world.

Cuba of course has played a very important part in supplying the shortage of world sugar which would otherwise have occurred as a result of the fall off in the output of European beet sugar—for practically all of the sugar produced in Europe is from beets. Cuba's output, exclusively cane sugar, advanced during the European war from 2,423,000 tons in the crop year 1912-13 to 3,971,000 in 1919-20, and is estimated by the above quoted sugar authorities at about 3,000,000 tons for the crop year 1921-22. This estimate of the world's total sugar output for the crop year 1921-22 is 15,620,000 tons against 18,778,000 in the sugar year 1913-14, which was the high record year of world sugar production. This estimate, if justified by future developments, would put the output of the current crop year at about 17 per cent below the world's high record, that of the crop year of 1913-14.

Of one especially interesting fact, adds the bank's statement, in this consideration of world sugar production for the current year comes to the surface at this moment in the latest report of the Department of Commerce which shows that the average import price of raw sugar entering the United States in September 1921 was but 2.92 cents a pound against 1.5 cents per pound in the same month of last year, the high record year of world sugar production. This estimate, if justified by future developments, would put the output of the current crop year at about 17 per cent below the world's high record, that of the crop year of 1913-14.

Of one especially interesting fact, adds the bank's statement, in this consideration of world sugar production for the current year comes to the surface at this moment in the latest report of the Department of Commerce which shows that the average import price of raw sugar entering the United States in September 1921 was but 2.92 cents a pound against 1.5 cents per pound in the same month of last year, the high record year of world sugar production. This estimate, if justified by future developments, would put the output of the current crop year at about 17 per cent below the world's high record, that of the crop year of 1913-14.

## A pipe won't burn your tongue if you smoke P. A.

Get that pipe-party-bee buzzing in your smoke-section! Know for a fact what a joy 'us jimmy pipe can and will do for your peace and content! Just check up the men in all walks of life you meet daily who certainly get top sport out of their pipes—all aglow with fragrant, delightful, friendly Prince Albert!

And, you can wager your week's wad that Prince Albert's quality and flavor and coolness—and its freedom from bite and parch (cut out by our exclusive patented process)—will ring up records in your little old smokemeter the likes of which you never before could believe possible!

You don't get tired of a pipe when it's packed with Prince Albert! Paste that in your hat!

And, just between ourselves! Ever dip into the sport of rolling 'em? Get some Prince Albert and the makin's papers—quick—and cash in on a cigarette that will prove a revelation!

the national joy smoke

show but small decreases as compared with those in other lines and in many instances actual increases. However, there is an appreciable decline in the September imports of "luxuries," the principal articles which show a fall off being art works, automobiles, plushes, ribbons, manufactures of gold and silver, perfumes, watches, tobacco and cigars. A combination of the two score articles which can properly be classed as "luxuries" shows a reduction of about 20 per cent in total value in the September imports, while the fall off in the grand total of imports was 51 per cent. Manufacturing material imported shows a decline of 41 per cent when compared with September of last year, foodstuffs a reduction of 71 per cent, and manufactures for further use in manufacturing a fall of 69 per cent, while manufactures ready for use, which are largely composed of luxuries, show a decline of but 27 per cent.

**Stamping Out Hazing.**  
The Beaver County judge who imposed fines, costs, doctor bills and bonds upon high school students arraigned for hazing, denouncing the practice as a "filthy, dangerous, risky and cheap form of sport," that should be stamped out by school authorities, has the support of adult public opinion.—Pittsburgh Dispatch.

**FOREIGN LUXURIES STILL IN DEMAND IN THE UNITED STATES**  
American consumers of luxuries from abroad are apparently among the last to yield to the general demand for a reduction of expenditures. While the total value of imports into the United States shows a reduction of 51 per cent in the nine months ending with September, when compared with the corresponding periods of last year, the importation of many articles usually classed as "luxuries" shows an actual increase in the same period, and in nearly all instances the fall off is far less than that in other lines of merchandise imported.

While it is not practicable, says the Trade Record of the National City Bank of New York, to determine with absolute precision the articles proper to class as "luxuries," a glance at the record of the September imports and that of the nine months ending with September makes it apparent that a very large number of the articles usually so classed

## Sure Relief FOR INDIGESTION

Other examples of an actual increase in imports of articles usually classed as "luxuries" include 5,430,000 pieces of "undressed fur" against 3,321,000 in September 1920; 409,000 pieces of "furs dressed on the skin" imported in September 1921 against only 41,000 in September of last year; 261,000 pounds of artificial silk yarn against 46,000 one year ago; 478,000 pounds of "mush rooms and truffles" against 158,000 in the same month of last year; 2,951,900 pounds of Italian and Swiss cheese against 60,000 last year; 650,000 gallons of edible olive oil against 531,000 gallons in September of last year.

## Dr. Lorenz Coming Again To Aid Cripples

Just a drop in the bucket of Austrian appreciation of American charity, is the way Dr. Adolf Lorenz, famous Viennese surgeon, puts his coming here to aid little cripples. Professor Lorenz is known for his orthopedic surgery which cures even incurables. He also is using many new methods which he will show to American surgeons. His treatment will be mainly of poor Americans who are unable to afford an expensive operation.

## PACKARD

They Haul More for Less  
Packard trucks are brutes for power and rugged in structure. They are bought and used by thousands of companies for the hauls they make, the years they serve, the miles they cover and the dollars they save.

## FINANCIAL AND COMMERCIAL

**MARKET WAS BROAD.**  
New York, Nov. 16.—Continued ease of money, signs of pronounced improvement in industrial conditions and the strength of British exchange were prominent features in today's active, broad and generally higher stock market, sales approximating 1,000,000 shares.

Events at Washington were followed with abiding interest, but the speculative element, which was driven to cover, appeared to have reached the conclusion that, in the final analysis, the disarmament process would prove a bullish argument.

Call loans opened at 4-1/2 per cent for the first time in almost a month and that quotation again was reduced to 4 per cent in private negotiations, slight concessions also being made for accommodations extending into the coming year.

Trade reviews reported a broader demand for railroad equipment and structural steel and the proposed wage cut by the transportation systems of the country seemed to be less acute.

One of the domestic topics, especially the Stan and OGI groups, captured the trading at extreme points of 3 to over 10 points. Royal Dutch was the one striking exception, showing heaviness on reports that dividend is to be paid in stock instead of cash.

Equipment, steel, copper, aluminum and an unusual number of specialties participated in the advance at subnormal gains and the market was inclined to strengthen. Total sales (par value) aggregated \$17,759,000.
