The Real Thing.

Jack was stout and his face was round and rosy. He was sitting on the steps in front of his home when a group of boys passed, and they immediately began to tease him about having the mumps. He took it for a while and then replied: "Mumps nothing, them's just cheeks."

Ants Sterilizing Their Stores.

As a mark of what in human being would be termed great intelligence, it has been noticed that when storing seeds or grains for winter use, ants cut out the life-germ. Since their storehouses are under ground, this is necessary to prevent the grain from sprouting and growing.

SULPHUR SOOTHES UGLY, ITCHING SKIN

The First Application Makes Skin Cool and Comfortable.

If you are suffering from eczema or some other torturing, embarrassing skin trouble you may quickly be rid of it by using Mentho-Sulphur, declares a noted skin specialist.

This sulphur preparation, because of its germ destroying properties, seldom fails to quickly subside itching, even of fiery eczema. The first application makes the skin cool and comfortable. Rash and blotches are healed right up. Mentho-Sulphur is applied like any pleasant cold cream and is perfectly harmless. You can obtain a small jar from any good druggist.

WEDDING

Cassidy—Theve. John Hughes Cassidy of Waterbury and Miss Charlotte Theve of this city were married at 8 o'clock Monday morning at St. Mary's church by Rev. W. A. Keefe, rector of the church, who also officiated at the nuptial mass that followed. Rev. M. H. Mar, rector of St. Patrick's church, and Rev. U. O. Bellefleur, rector of Sacred Heart church of Tataville, were seated in the sanctuary. There was a very large attendance of relatives of both families from Norwich, Waterbury, Hartford and other places. Attorney Charles W. Cassidy, a brother of the groom, was best man and Miss Estelle Theve, a sister of the bride, was bridesmaid.

The bride was becomingly gowned in hand embroidered white satin de chine and she wore a coronet hair veil caught with orange blossoms and a crown of a shower bouquet of white roses and lilies of the valley. Her maid wore a gown of Foch blue crepe meteor with lace trimmings and pink and blue sash and carried with rusebuds. She wore a blue embroidered hat with pink and blue streamers to match her dress. Her bouquet was of LaFrance roses.

The groom's best man was at the organ during the ceremony and for a procession played the bridal chorus from Lohegren and for a recessional played Mendelssohn's wedding march. At the offertory Mrs. Margaret Cronin sang a solo, and with Mr. Fontaine sang other solos.

Following the ceremony at the church, there was a reception at the home of the bride at 9 Elijah street. There were many handsome wedding gifts, including china, silver, and other useful articles.

The bride's gift to her maid was a diamond dinner ring and the groom gave to his best man an oval sapphire.

In the afternoon Mr. and Mrs. Cassidy left for a tour that will include the British West Indies and the Panama canal. They will be at home in Waterbury after March 19. The bride wore a traveling suit of navy blue with hat to correspond.

The groom is the son of Dr. Patrick Cassidy and the daughter of Mr. and Mrs. Cassidy and is one of the leading lawyers in Waterbury.

The bride was born in Lyons, France. Her father, Mr. Theve, is a well known physician there. She is a trained nurse.

FOX HUNTER INSTANTLY KILLED BY SHOT FROM COMPANION'S GUN

John Pouch of 100 West Town street, Norwich, was instantly killed about 12:30 Monday noon, while on a hunting trip with his companions on the A. T. Gardner farm at Plain Hill. The fatal accident occurred about one-quarter of a mile from the farm of Herbert J. Larkham.

The others in the party were John Nagle and Grover Burdick, also of Norwich town. With them were three hunting dogs which were running a fox. The three men with Mr. Pouch in the lead, started a past through an open bar-way. At this location was a patch of ice covered with snow. Mr. Nagle's foot slipped, the butt of his gun struck the ice and discharged both barrels, killing Mr. Pouch instantly.

Word was immediately sent to his brother, Michael Pouch of Norwich, who, not being told outright of his brother's death, sent the Backus hospital ambulance to the scene, so as not to lose any time in case of serious injury. Mr. Pouch also visited the location and just prior to his arrival about 1 o'clock, met the ambulance on its return trip. It was then ascertained that his brother was dead. Medical Examiner Charles C. Gildersleeve was also notified by a resident of Plain Hill and responded to the call in a very short time. After investigating the circumstances, he gave permission to have the body removed to the undertaking rooms of Hourigan Brothers.

The sad news spread rapidly, causing expressions of profound sympathy. The family is afflicted with the loss of the second daughter of Mr. and Mrs. Pouch, Miss Marguerite Cronin, under a very serious surgical operation last week in a private hospital in Providence, R. I., and the other left about six o'clock and the mother was at her daughter's bedside on Monday. Miss Pouch's condition has been reported as comfortable as her brother expected, although the crisis has not as yet passed.

John Pouch was born July 25, 1884.

In the town of Bozrah, near Fitzville, was a son of Michael and Margaret Day Pouch, in Bozrahville about thirty years ago. Mr. Pouch was united in marriage with Miss Della Sullivan who survives him with the following children: Mrs. Morgan Cronin (May Pouch), Marguerite Ann, Della, Winifred, Alice, Bernadette, Frank, John Jr., and Lawrence Pouch. There is one grandchild, little Natalie Cronin. Other surviving relatives are two brothers, James Pouch, of Lebanon; Michael Pouch, of Norwich; and two sisters, Miss Margaret Pouch and Catherine Pouch of Norwich.

Mr. Pouch, who was a painter and paper hanger by trade, was considered a fine workman. He was well known to the residents of Norwich town where the family has resided for many years. He greatly enjoyed out of door sports. The shock of Mr. Pouch's death completely unnered Mr. Nagle.

Medical Examiner C. C. Gildersleeve was notified of the death of Mr. Pouch and conducted an investigation. Dr. Gildersleeve in his investigation found that the cause of death was the same as that which occurred to the Gardner farm for the purpose of trying to discover the whereabouts of the dogs which were on the trail of a big fox. The dogs were so far away their barking could not be heard.

Mr. Nagle following him about six feet behind and Mr. Burdick bringing up the rear about 15 feet back of Mr. Pouch. Mr. Nagle slipped and both shot went out from under him. He fell and the butt of his shotgun struck the ice surface of the ground. Both barrels were discharged and the shot entered Mr. Pouch's back just under the left shoulder blade, instantly killing him. Mr. Pouch dropped in his tracks without uttering a word.

This is the second death in the family through similar accident. The mother of Mr. Pouch was killed a number of years ago by the discharge of a gun in the hands of a hunter.

FIRE STARTS IN MYSTIC MAN'S ROOM AT COLLEGE

Leslie H. Cook, of Mystic, a student at Colby college, Waterville, Maine, was one of four occupants of a room in which fire broke out at noon, Friday, and he escaped with a severe burn on his right hand. The fire started in the kitchen, classes broke up, and a few minutes after men were rushing furniture, books, clothes and athletic equipment out of the house.

It is thought that the fire originated from a defective chimney. No blame is attached to the men in whose room it started. Some hundred men are withdrawn from the college for the hospitality of the other fraternities.

President Arthur J. Roberts had a conference with representatives of the fraternities, the faculty and the trustees of the college, and they agreed to have the college building repaired the building Monday. The shell is as strong as ever and the floors still hold.

HALLVILLE MAN BOUND OVER TO U. S. COURT

Joseph Bolzen, alias Biggs, of Hallville, arrested by local police officers and Federal Prohibition Agents Congdon and Briggs, on Saturday evening on a charge of transporting liquor, was presented to the U. S. Commissioner Earl Mathewson on Monday morning. Bolzen was bound over to the U. S. district court under bonds of \$500.

When arrested Bolzen was in his possession two bottles of whisky and a moonshine, which he said he received from John Nowatowski of Fox Hill. The officers raided the place of Nowatowski and found some mash and some whisky and a bottle of brandy and a still hidden behind a fence far from the house. It is said that Nowatowski was on the car when Bolzen was arrested and had gone home and hidden the whisky and brandy. Nowatowski has not been located as yet.

MUSIC ENTERTAINED PATIENTS AT THE BACKS HOSPITAL

Under the auspices of Rainbow circle of the King's Daughters, with Mrs. John C. Atterbury in charge, a company of young people comprising several members of the Decio club, gave a very pleasant program at Backs hospital Sunday afternoon. TROUBLE WITH SEEDS

Will-it seeds when made into heads and imported into the United States, bid fair to cause the writing of briefs and much legal argument, because the Treasury and the importers cannot agree about the proper amount of duty, says the Nation's Business. These seeds are early on the market and the customs men encounter but ordinary people do not meet in their every-day humdrum. Not long ago three dignitaries listened to arguments from lawyers about canned lettuce seed and, undoubtedly to the horror of the shades of long-departed lotus eaters, pronounced the article before the court as prepared vegetables.

Sliced deer horn is apparently not eating but for mixing into a medicine with roots such as "Wai Sam, Fong On, and Cock K'ai." The tastes of the residents of the forty-eight States are so diverse and so unaccountable that a customs man expects a surprise every day. At least, that is the conclusion reached at considerable expense to the United States Treasury.

FATE OF PINS

By a series of experiments conducted in his garden a scientist has discovered that pins go the way of all things and are resolved into dust. Hairpins which he watched for 154 days disappeared at the end of that time, having been resolved into a ferrous oxide, a brownish rust, which was blown away by the wind.

Bright pins took nearly eighteen months to disappear. Polished steel needles nearly two years and a half; brass pins had little endurance; steel pens at the end of fifteen months had nearly gone, while their wooden holders were still intact.

Pencils, with which the scientist also experimented, suffered little by exposure; the lead was unharmed and the cedar almost as good as new; but then, nobody had ever asked the question about pencils, and he has spared his pencils—Kansas City Star.

Story of a Cow and a Watch

A correspondent furnishes the following story: "Seven years ago a farmer hung the year on a fence in the barnyard a calf chewed up a pocket in the garment in which was a standard gold watch. Last week the animal a staid old milk cow, was butchered for food and the piece was found in such a position between the straps of the cow that the respiration—the closing in and the filling of the lungs—kept the stem wound up and the watch had lost but four minutes in seven years."—Medina (O.) Sentinel.

Compulsory Church Attendance

The air is full of legislative projects that are good to avoid. . . . Laws like one now sought by an estimable politician to compel universal church attendance, all such measures and propositions, even when technically within the letter of constitutionality, are so contrary to the spirit of Americanism that only an emergency, or some special and overpowering reason, state should gain them a welcome hearing.—Boston Transcript.

Woes of a Western Editor

A Western newspaper editor ventured to eat a meal on one of the railroad diners the other day, and after he had finished paying his check wires Postmaster General Hays hit him smaring guards would find more robbery on the train than in the mail cars. That do we witness triumph of truth.—W. J. Bryan's Commonwealth.

Dividing England's Estates

As a result of the war, Britain is becoming a land of small holders. During the four years since the armistice more than 350,000 acres of land in England have been sold, and an appreciable acreage has been taken into the hands of the previous cultivators.—Boston Transcript.

Cheap Light

Science and invention describes a recent achievement of a French scientist, who has successfully tried out in his own house a scheme for operating electric lights without cost. Upon his water supply pipe he has fitted a high speed water turbine, which drives a dynamo charging a storage battery. Every time a faucet is turned on in the house the stream of water is put to work at loading the battery which furnishes current for the lights. "It is simply utilizing energy that is ordinarily wasted," says the inventor.

BAD BREATH

Dr. Edwards' Olive Tablets Get at the Cause and Remove It

Dr. Edwards' Olive Tablets, the substitute for calomel, act gently on the bowels and positively do the work. People afflicted with bad breath find quick relief through Dr. Edwards' Olive Tablets. The pleasant, sugar-coated tablets are taken for bad breath by all who know them.

Dr. Edwards' Olive Tablets act gently but firmly on the bowels and liver, stimulating them to natural action, clearing the blood and gently purifying the entire system. They do that which dangerous calomel does without any of the bad after effects.

All the benefits of nasty, sickening, griping cathartics are derived from Dr. Edwards' Olive Tablets without gripping pain or any disagreeable effects. Dr. F. M. Edwards discovered the formula after seventeen years of practice among patients afflicted with bowel and liver complaint, with the attendant bad breath.

Olive Tablets are purely a vegetable compound mixed with olive oil; you will know them by their olive color. Take one or two every night for a week and note the effect. 15c and 30c.
