## ARRESTED IN NEW LONDON, CHARGED WITH AUTO THEFT IN WORCESTER

(Special to The Bulletin.)

New London, Feb. 3.—Bartley Tretault, 23, former resident of Worcester, Mass., was arrested here tonight by Detective Sergeant Otis H. Prince of Worcester and Sergeant Nelson Smith on a charge of stealing an automobile. After a severe grilling at police headquarters, Tretault was locked up for the night. He will be arraigned in police court in the morning when it is expected he will waive extradition proceedings. He is represented by Attorney Clayton R. Smith.

August 25, 1919, a Hudson super six touring car was stolen at Lake Quinsigamond, Worcester. After months of search a young man was picked up for another case of theft and he, it is stated, implicated Tretault in the theft of the car. With the assistance of Chief Geo. O. Vincent of the Groton police, the stolen car was located at Eastern Point this afternoon and the arrest of Tretault followed tonight.

Peter Maher, about 20 years ago a prominent contender in the prize ring for the title of heavyweight champion, pulled the list of the dead, and out at the Lawrence Memorial hospital tonight. While making his rounds as watchman

at the state pier this noon Peter fell from a gangplank and lay sprawling on the pier. An examination by physicians at the hospital revealed that Peter incurred a sprained wrist, a sprain of the right ankle and injuries to his back. At 7 o'clock tonight it was stated at the hospital that Peter was resting comfortably and his chances for discharge in the morning appeared bright.

According to the will of Mrs. Emily Miner filed in the probate court of Groton, the First Ecclesiastical Society of Groton will benefit to the extent of \$1,000. Mrs. Miner, for many years a resident of Groton, but of recent years a resident of New London, left an estate estimated to be worth about \$20,000. Aside from the \$1,000 above mentioned there were no public bequests. The remainder of the money was left to relatives of the deceased.

Prohibition Enforcement Officers Machol and Brown, assisted by Captain Edward Roach and Special Agent John Lewis of the New Haven road police, engineered a successful raid for liquor at Midway, Groton, late this afternoon. At the farm house of Guy Wheaton the officers found three stills in operation, secreting five gallons of home made whiskey and 150 gallons of mash which was ready for distilling. A still, liquor and mash were taken to the custom house in New London and Mr. Wheaton was informed by the New London company, the attention of U. S. Commissioner Frank L. McGuire.

To the officers Mr. Wheaton said he made the liquor for his own consumption and he thought he had the right to do so. The officers say he has been selling the liquor to railroad men and this led to many complaints turned over to the railroad police. The quality of the liquor seized was described by the officer

### NEVER WANTS ANYTHING ELSE

"I tried many different kinds of cough medicine," writes Mrs. E. K. Olson, 1917 Ohio Ave., Superior, Wis., "but I never want anything else than Foley's Kidney and Urinary Tract Pills. It is the only way down fine work." Foley's is a pure, safe, and absolutely safe remedy for the relief of colds, coughs, croup and whooping cough. Children like it and it sneezing and snuffling. Lee & Osgood Co.

## SCIENCE SCORES SUCCESS!

AFFLICTIONS REMOVED BY NATURE'S METHODS

**IF you are intelligent and—  
IF you don't believe only hearsay, and—  
IF you believe what your eyes see—  
You should consult a Natureopath of the Blumer College type for your health.**

PRIVATE OFFICES IN THAYER BUILDING, ROOM 315, ARE FOUND TO BE CROWDED DAILY!

Demonstration by the founder of this health at Elks' Hall, and wonderful victory over disease was sufficient proof of what can be done by the new health science which proved results in the most stubborn cases.

Natureopathy demonstrates results, there is no getting away from it. We are more than proud of having the opportunity to learn from the lips of Dr. Louis Blumer, the founder of this science, what Natureopathy is, how it accomplishes the results, and that the triplicity of sciences—mental, mechanical and natural, are so classified as to be able to adapt them to the case in question.

Life, energy and perfect health is what every human heart desires, and when Natureopathy conspicuously demonstrates such results, we certainly should throw our confidence in this direction.

We are urged to demand of Blumer College graduates, why? This was explained in Elks' hall for two consecutive weeks. There are people who are such in name only, but have not the degree of education, unless graduated under the founder. There are two schools teaching Natureopathy in its entirety—one in New York and one in Hartford. Both of these colleges are conducted by the Blumer College Association, and, therefore, graduates of this institution are guaranteed to have the proper qualification.

People of Norwich and vicinity, who attended these lectures and demonstrations every afternoon the last two weeks, were convinced that this is the greatest health science in existence.

Among those who received treatment in the hall and in their private offices, are the following:—

A young lady whose eyes were badly affected, received about seven minutes' treatment, made such wonderful recovery that she described people in front of her without the glasses.

An old gentleman was relieved of acute rheumatism in less than 8 minutes.

Then came a citizen of Norwich, who had suffered with a sharp pain in the region of the abdomen for the past five years, having been treated both in New York and other hospitals without results. After a brief Natureopathic treatment he was relieved of the excruciating pain and his troubled and contracted features became calm and relaxed. He walked off the stage exclaiming his gratitude for the relief thus obtained.

A little girl four years of age, who had never walked, having been weak and backward from infancy, was treated by the demonstrator, who brought more vital force to the limbs after only a short treatment. The child excited the audience by walking around the stage.

A man whose neck was so rigid that he was unable to move it—he did not sleep for nearly ten days. He was treated by several local doctors, without relief. Two Natureopathic treatments were sufficient to relieve him. After the first treatment he went home and fell asleep for nearly 14 hours. On awaking he found he could use his head in all directions.

A young lady who suffered four years from neuralgia, was relieved of all pain in a moment of time.

The next case was a lady who lives on Van Zant street. She said that she had inflammatory rheumatism and was in considerable pain. After about ten minutes' treatment, considerable improvement was noted. She said, "Doctor, I certainly feel much better."

An elderly lady living on Spring street, was the next case treated. She was suffering from rheumatism and stiffness in her knees. After ten minutes' Natureopathic treatment she said, "Doctor, my pain is gone."

An old man who could not take a single step without his cane, was given a few minutes' treatment, and to the greatest astonishment of the public, he not only abandoned his cane, but walked out of the hall without it.

A young man from Keyser place, East Norwich, who had suffered with a constant pain in the head for a year and a half, as a result of which he was obliged to lie awake many a night, was freed from his afflictions after a brief Natureopathic treatment.

A man about 60 years old had all the stiffness of age, as well as all his rheumatic pains relieved in about 12 minutes' time. He is expected to be completely cured in about 10 days.

A lady who had been suffering from inflammatory rheumatism for some time was helped onto the platform.

The next case treated was an elderly woman who had been partially blind for several years. She was helped so much in a few minutes, that she was able to tell the difference between the men and the women in the audience. She was very much pleased with the treatment.

The next case treated was an elderly man who lives at Norwich Town. He said that he had suffered for over two years, pains in his shoulder and neck, which also stiffened his arm. After only three Natureopathic treatments his neck became flexible—his shoulder and arm as good as ever, and he said that he had his pain as gone.

The lectures have brought out the fact that these gratifying results are obtained not by supernatural powers, but that they are all based on the well established scientific principles of the mechanical, psychological and material procedures which are included in the Triplexity of Sciences that all well trained practitioners, versed in the comprehensive curriculum, as taught at the college, will be able to duplicate the magnificent healing results obtained in these clinics performed before all who are willing to investigate this unique method.

"The Scientific Natureopath," the official magazine representing this great healing science and containing much valuable information regarding the preservation of health, can be obtained for the trifling subscription price of one dollar for two years, either at the local Natureopath, or at the college headquarters.

Cripples and difficult cases of years' standing have availed themselves of this opportunity of receiving relief, without cost, the last three weeks. This however, has been discontinued, and only private treatments are given now, with the consultation until February 15th.

It is reported by the local Natureopath that Dr. Blumer will personally supervise all of the cases during his stay here in Norwich. The Natureopathic Doctors' private office are available by large numbers. Their office rooms 315-316 Thayer Building, 16 Franklin Street, Norwich, will be open from 9:30 a. m. to 8 p. m.—Sunday 9:30 to 2:30.

as nauseating in taste and its effect on the consumer, it was stated, might be as deadly as wood alcohol.

Some heated comment was current in local political circles this afternoon when the information was received from Hartford that James R. Maxson would succeed William H. Farrell in the internal revenue service. Later it was announced by W. Ellery Allen of Waterford, the chief deputy for this district, that Mr. Farrell had been transferred to the Hartford district, a position of less importance. Mr. Maxson, the new appointee, is a native of Mystic, a young man active in republican party circles in the borough of Groton. Mr. Farrell, who receives promotion by an old line democrat and for many years aligned with the supporters of Hon. B. F. Mahan.

Following the reduction in the price of a pound loaf of bread to five cents, the new-war price, a store here today announced a reduction in the price of the price of a quart of milk. The manager announced that selling upon orders received from the New York office the price of grade A milk would be 12 cents instead of 15 cents per quart. He stated that a further reduction in the price might be expected before many days and in all probability, the company would put the milk before the public at 10 cents per quart.

Interviewed by a representative of the Bulletin this afternoon, the milk producers of East Lyme and Waterford said they might be able to meet the cut in price if it was general, but President M. J. Channing said the milk producer was just getting by by wholesaling milk at 10 cents per quart and with the prevailing retail price of 13 cents delivered at the home he contended the customer did not have a legitimate protest. The report sent by the New London company will be discussed at a special meeting of the milk producers of New London and nearby towns, it was stated, within ten days. To formulate plans for this meeting, it was stated, representatives of the local farmers would be sent to make a canvass of the producers in Norwich and Preston. Most of the local producers, it was stated, depend upon local trade and very little shipping is reported from the local railroad station.

Three men from the internal revenue department accompanied by two men from the prohibition enforcement squad in the New York district were led a merry chase through the fog off the Millstone coast after 1:30 o'clock Thursday morning. In an effort to catch up with a fishing schooner supplied with auxiliary power the government agents at 8:30 o'clock this morning admitted they were outwitted and outdistanced in a race for the goal. The agents report, however, that if the vessel intended to land any liquor on the coast the suspected rum runners were not able to deliver the goods.

The revenue men say they received the tip early in the week that a trim looking fishing vessel put out from St. Johns, N. B., with a cargo of Scotch whiskey and gin which was destined for the coast at some point of the New London coast. Late Thursday afternoon the fishing boat was reported off Bartlett's reef and early in the evening she headed in shore. At 7:15 o'clock a white painted motor boat containing three men put out from Niantic and this boat was soon anchored off Millstone Point. The revenue officers were stationed in the cove and just as the fishing vessel appeared to be ready to leave to in the bay where the motor boat was anchored a blue flame rocket illuminated the sky. It was then the revenue men started to get busy and they say engine trouble prevented them from going within shooting distance of the schooner which quickly put about and was soon out of reach. The boat was followed through the Race from which point all trace of her was lost.

Talking with a representative of the Bulletin, Revenue Agent W. H. McCausland of New York said his information was to the effect there was liquor on board the schooner which at present wholesale prices of the stuff was estimated at \$24,000. There were said to be two brands of whiskey aboard, one grade being valued at \$90 per case and the other grade placed at \$198 per case. The gin was said to be valued at \$80 per case and the entire cargo was to have been delivered at some convenient point between Niantic and Waterford, there transferred to motor boat, re-transferred to motor truck and then overland to Providence and Fall River. The revenue agents say no local men, so far as they knew, were involved in the transaction.

For more than two and one-half years, County Detective William E. Jackson and Capt. Edward Roach of the New Haven railroad police have followed Pietro Facendo, 12 who was wanted for the theft of tobacco, cigarettes and candy

from a freight car on the New Haven road. In the local police court Facendo was held in default of \$2,500 bail for a hearing in New London next Monday morning. He said he wanted time to consult an attorney and in default of bail he was committed to the county jail in New London.

Police Sergeant Nelson Smith and several members of his day squad were in plain clothes, making a thorough search of the city for all suspicious characters. The cause for this extra vigilance, it was stated, is the robbery at the home of W. H. Guest in Cleveland street earlier in the week. The value of the property stolen at the Guest home is placed at \$150 and the job is attributed to some clever key and second story operator.

Earl C. Hentley, manager of the L. D. Brown farm in the town of Waterford and overlooking Niantic bay, reports that his loss of pigs and hogs through the use of garbage which has been treated with a disinfecting acid has been in excess of \$2,000 this year. Mr. Hentley collects garbage at the submarine base, paying for the privilege, and he says he has noticed many of his pigs were taken sick after eating the garbage. He called the services of the state and local veterinarians and the first diagnosis was to the effect that it was an outbreak of hog distemper or cholera. Later the veterinarians admitted they were puzzled and after further investigation they arrived at the conclusion that the death of the animals was caused by the use of a strong disinfectant in the garbage. Mr. Hentley said he could not obtain any redress at the submarine base.

### MONTVILLE

Forty-nine pupils were perfect in attendance during January at the Palmer Memorial school, as follows:

Grade 1, Miss Lois A. Gale, teacher: Steven LaVallie, Richard Schaffer, Pauline Stanwick, Nina Shulenko. Sub-Primary, Miss Bertha E. Lyon: Mike Coloda, Victoria Pachado, Rosie Senkevich.

Grades 2 and 3, Miss Cecelia Lyons: Alfred Allen, Theodor Allen, Warren Bogne, Robert Chagnon, William Daniels, Paul Seretta, Leon Stamm, Laquina Mastrodoli, Annie Molboski.

Grades 3 and 4, Mrs. Edmund Rogers: Helena Avezon, Dora Donoville, Annie Fontanelli, Ruth Richardson, Annie Seretta, Dorothy Stamm, Edward Curtin, Joseph LaVallie, Clinton Sharpe, Mike Stanwick, William Wylie.

Grades 5 and 6, Miss Rose: Leona Gera, Fannie Kosteka, Mary Malchiodo, Ethel Rice, Ruth Schaffer, Mabel Solkin, Sophie Sokin, Violet West, Einar Johnson, Reidar Johnson, William Linda, Wilfred Louisa, Louis Manville, John Mastrodoli.

Grades 7 and 8, Mrs. Annie S. Gavitt: Jennie Daniels, Doris Davis, Mildred Davis, Evelyn Florman, Mary Gero, Rosalia Louisa, Bjorne Johnson, Louis Gera.

The meeting of the Whist club which was to have been held last Tuesday evening at the home of Mrs. Charles L. Chapel was postponed until next week on account of sickness.

The Sunshine society met with Mrs. C. E. Chapman Thursday afternoon, there being 16 present. Refreshments were served and a pleasant social afternoon was enjoyed.

John Vernon of Billerica, Mass., visited relatives in town on Monday.

Mrs. John Vopstian was taken Monday to the Backus hospital, where she is seriously ill.

Miss May Galle and Miss Luella Galle of Norwich were visiting friends in town on Tuesday.

Dudley Snow, little son of Daniel Snow, is ill with pneumonia.

Miss Dorothy Church is spending a few days in Hanover, the guest of Miss Ruth Lee.

Mrs. Ianthe Turner was a business caller in Norwich on Friday.

There will be a ministers' meeting of the New London and Stonington Ministers' association at the Montville Union Baptist church Monday. The church will serve dinner at noon.

At the Union Baptist church Sunday morning Rev. L. W. Richardson's text will be Rest. In the evening the topic will be What is a Christian?

Westport—Mr. and Mrs. George Mitchell of 18 Gramercy Park, New York, and Westport, have announced the engagement of their daughter, Miss Ursula Ann Mitchell, to John J. Hanlon, a son of Mrs. Theresa L. Hanlon of 29 West 8th street, and Norwalk. Mr. Hanlon is a graduate of Lehigh university and attended Harvard during the war, where he served in the Harvard naval club and is a member of the Norwalk Yacht club and the Norwalk Country club.
