Wednesday evening the financial town meeting was held on the town hall for the ordering of a tax to be levied and assessed on the taxable property of the town and inhabitants for the payment of the town debts and interest. There was much discussion of the matters brought up.

Rev. Thomas J. Larkin, pastor of the Church of the Immaculate Conception, is spending this week in Boston, where he is making his annual retreat at the home of the Most Holy Fathers.

TALK OF INCOME FROM ST. LAWRENCE WATERWAY
New York, Feb. 7.—Figures to show that the entire cost of the proposed international St. Lawrence waterway and power development could be defrayed by sale of electric current at prices cheaper than those which current now can be obtained at Niagara Falls, were presented by Henry I. Harriman, president of the New England Power company, in an address today before the Water Power League of America.

Pointing out that the estimated cost of the project was \$250,000,000 for a system which would include 1,500,000 horsepower of current, he said that the money for 44 per cent. of that should be added one-half of one per cent. for a sinking fund, making the fixed charges \$13,500,000 a year. Adding \$2,500,000 for operation, the total annual cost would be \$16,000,000.

"If the entire cost of the project is charged against power, it is thus evident that the power will cost at the switchboard \$10 per horsepower, or a little over \$12 per kilowatt. It is interesting to note that the lowest cost at which continuous power now can be purchased at Niagara Falls is between \$15 and \$20 per horsepower.

"Making proper allowances for transmission charges, this power can be delivered on the fifty per cent. load factor at huge substitute stations in central New England and New York at from 6 to 7 mills per kilowatt hour. This is less than half the price at which power can be generated in New England by steam and even less than it can be generated at the mouth of the mine in Pennsylvania.

Mr. Harriman, while admitting there were certain local objections to the plan, particularly as to its waterway development phase, urged that local objections would be "more than made up by benefits which cannot now be foreseen.

"No local consideration," he declared, "should stand in the way of a great economic development which will benefit much of the country, and Montreal, Portland, Buffalo and New York cannot expect permanently to receive toll for their individual benefit which increases the cost of moving the imports of the world to and from the west.

WEST KINGSTON

GAUMENT WORKERS BRING \$1,000,000 DAMAGE SUIT

New York, Feb. 7.—Benjamin Schlesinger, president of the International Ladies' Garment Workers' Union announced today that a damage suit for more than \$1,000,000 would be started immediately against the Philadelphia Dress and Waist Manufacturers' association and its members to recover losses to union workers resulting from the strike that has existed in the garment industry of Philadelphia for twenty-four weeks.

Officials of the association, Mr. Schlesinger said would be charged with conspiracy to restrain individual members from reaching agreements with the union, and an injunction would be sought to prevent intimidation threats against those undertaking to renew relations.

In a statement, the union head asserted that after the strike had been called several individual garment manufacturers in Philadelphia made settlement with the union, but the workers had hardly returned to the shops when they were informed that they could no longer be employed unless they submitted to open shop conditions. This alleged repudiation of agreement, Mr. Schlesinger attributed to pressure brought against the individual employers by their association.

Morris Hillquit will be in charge of counsel for the union.

SCHOOLMATE TELLS OF YOUTH OF POPE PIV XI

New York, Feb. 7.—Pope Pius XI was audacious even at the age of five.

This was the statement of Louis Tagliabue, a butcher, of Bogota, N. J., who three score years ago sat across the aisle from the future prince of the church in kindergarten in Desio, a little town in the province of Milan.

"Archibie was the best boy in school and I was the worst," said Tagliabue. "I was just like the other boys, full of the devil."

"He was not like that. He never played with us. He was very quiet all the time and always studied. He lived near the school and as soon as we were let out he went straight home to study. He

ORDERS FOR OUTFITTING OF LIVIATHAN WITHDRAWN

Washington, Feb. 7.—Orders issued by the shipping board directing that the plan liner Leviathan be taken to Newport News to be repaired and outfitting by a private ship yard there have been withdrawn, temporarily Senator Lodge of Massachusetts, informed a delegation from Boston and New York, who had decided to the Massachusetts senators today to support an amendment to the independent office appropriation bill to permit navy yards to bid for the work.

Senator Lodge assumed the delegation which also called on other New England senators that an amendment to the appropriation bill would be offered in the senate under which the shipping board would be required to make an inquiry among navy yards as to facilities and cost of making the repairs necessary to put the Leviathan in shape to re-enter trans-Atlantic service. Such an amendment was offered to the bill in the house but was rejected.

POPE NEGLECTS AMERICA WAS NOT REPRESENTED

Rome, Feb. 7.—(By the A. P.)—Pope Pius XI today let it be known that he was profoundly displeased and disappointed that America was not represented at the conclave which elected him on Monday. Putting his arms around Cardinal O'Connell of Boston, the new pontiff said: "It was a great personal sorrow that you were not present."

MEASURE TO SAVE AUSTRIA FROM ECONOMIC COLLAPSE

Washington, Feb. 7.—A resolution designed "to save Austria from economic collapse" by extension for twenty-five years the payment of Austria's debts to the United States grain corporation was introduced in the senate today by Chairman Lodge of the senate foreign relations committee. The resolution carried the provision, however, that the extension may not be granted unless other nations, to which Austria is similarly indebted grants like extensions.

The resolution also provides that assets pledged by Austria to the grain corporation, when the debts were incurred, September 4, 1920, shall be re-evaluated so they may be used "as a basis for a new national loan." It is set forth that such a new credit is necessary in restoring Austria's financial and economic life to "a secure basis."

Mr. Lodge declared through his resolution that the whole economic structure in Austria was approaching collapse and it was the desire of the United States government to offer such aid as was possible to avert complete destruction. Thousands of people were in "imminent danger" of starvation, the senator said, and should conditions continue, widespread disease would result from the extreme privations and suffering.

REVOLVERS AND FISTS FIGURED IN LIQUOR RAID

Bridgewater, Feb. 7.—Revolvers were drawn and shot flew in a battle royal in a room at the Elmsfield hotel on the occasion of the recent arrests by federal prohibition agents of members of an alleged alcohol ring, concerned in the shipment to this city of 100 barrels of alcohol, consigned from the Fleischmann Alcohol company in New York state to Eyal, Jr., 317, St. Danbury. The mysterious Captain Charley mentioned in yesterday's testimony was the man who drew a gun as he was backed against the wall in the hotel room by Agents Joseph Hines, Earl Grill and Switzer, according to testimony given before United States Commissioner Hugh J. Lavery today by Enforcement Agent L. T. Evans of Washington.

Michael Delohery, Jr., of Danbury, of the defendants in the government case was charged today by a federal witness with having attempted to bribe Enforcement Agent Harry Sands of Washington with \$20,000 about two months ago.

General Prohibition Enforcement Agent L. T. Evans of Washington was the first witness examined today. He
