The Loveliest Silks Ever Woven  
Are Here For Spring

Rainbow upon rainbow of color, fold upon fold of lustrous beauty are the new Silks for Spring and Summer. Crepes Canton, de Chine and Satin, in all the novelty and staple colorings, trail their gleaming lengths into view. There is the velvety "Molly O," the richest silk crepe we have ever seen, a product of the Mallinson looms. There are the Sport Satins, and Ratives, the Canton Crepe and the Pussywillow Satins and Taffetas. There are the clever printed silks of various weaves which have taken the fashion world by storm. They make a wonderfully beautiful show, which will prove alluring to all women.

CAMBRIDGE CREPE, \$4.50 A YARD CASTLE CREPE, \$2.98 A YARD

One of the novel offerings of the new season—a heavy silk and wool crepe weave, with stunning printed border of Paisley design, or in rich Oriental effects. Cambridge Crepe will be one of "the" weaves this season, and will be used for Dresses, for Separate Skirts and for the popular Smocks. We have some photographs on display which demonstrate many charming uses to which Cambridge Crepe has been put. It is 39 inches wide.

It is really a good quality Crepe de Chine, beautifully printed in colors with dainty little floral sprigs. These designs were submitted to Irene Castie, the dancer, who fell in love with the whole idea, and sanctioned the use of her name for the new material. She also had frocks made from a number of the most attractive patterns. Castle Crepe comes in both light and dark ground effects, and is 40 inches wide.

THE COCKCROFT ILLUMINATED BLOUSE

The Artistic Patterns and Colors of the Hand Batiked Garments  
Formerly these beautiful blouse patterns were produced in the Cockcroft Studios in New York, for an exclusive and wealthy class of patrons, who could afford today for this very expensive work blocked by hand—the Batik process. Today it is possible for you to buy the beautiful Rhama Silk and Canton Crepe in the softest and most beautiful colorings, illuminated with the most remarkable designs in exquisite shades.

THESE DESIGNS ARE SO WORKED OUT AND SO CAREFULLY MARKED THAT A BIT OF WORK WITH THE SHEARS, A SEAM OR TWO, AND YOU HAVE A BEAUTIFUL BLOUSE ALL MADE.

AT ONE PRICE \$6.98

K. OF C. AGAINST BIRTH CONTROL AS "ORGANIZED IMMORALITY"  
An attack upon birth control as "organized immorality" is made by Columbus, officials of the Knights of Columbus, in its March issue, just out. "Let native Americans preach and"

GOOD FOR THAT "FLU" COUGH.  
For quick relief from the wearing coughs that "hang on" after the grippe or influenza, take Foley's Honey and Tar. Mrs. E. D. Drake, Childs, Mass., writes: "After an attack of the flu that left me with a severe cough nothing seemed to relieve me till I tried Foley's Honey and Tar, which I can highly recommend." It is also good for croup, whooping cough and colds. It puts a soothing healing coating over the inflamed surfaces, cuts the phlegm, eases hoarseness, clears the air passages. Lee & Osgood Co.

practice birth control for three or four generations," the article says, "and the following three or four generations will find the so-called 'foreigners' in secure possession of the country. In bringing the dangerous birth propaganda to the attention of the country Archbishop Hayes has uttered a patriotic warning which, if unheeded, may be America's epitaph."  
"Knights of Columbus councils everywhere are urged to include the birth control movement in the list of revolutionary, radical and other anti-social and anti-American movements opposed in Knights of Columbus open forums and lecture courses."  
Disease Suits Withdrawn.  
The divorce suit of Eugene F. Grosen of Waukegan against Ida Gadloff Grosen of Norwich, which was brought in superior court in this county last May

has been withdrawn without costs. They were married Nov. 21, 1919. The husband alleged that his wife had been infidelity cruel to him since Oct. 18, 1917, and had deserted him Jan. 19, 1918.  
TWO NEW DOCTORS ON STAFF AT STATE HOSPITAL  
Two new physicians have been added to the staff at the Norwich state hospital since a vacancy on the staff was occasioned by the resignation several months ago of Dr. J. H. Allen of this city.  
Dr. F. S. Shenk, who was formerly at Gowanda state hospital in the western part of New York, has become clinical director, and the other new member of the staff is Dr. W. Girvin, who has been physician in chief on a line of steamers running out of New York.

BARRED PLYMOUTH ROCKS IN LEAD AT STORRS  
For some reason or other Barred Rocks in the laying contest at Storrs seem to have the edge on the other breeds, for the last four weeks a pen of this breed owned by H. E. Denton from East Lansing, Mich., has finished at the top. In the eighteenth week of the contest this pen was again at the top with a production of 53 eggs. Twice during the past week this pen made perfect forty tallies and hens No. 155, 157, and 159 all made perfect weekly scores by laying seven eggs each. Two other pens of Barred Rocks entered by W. H. H. Kent of Casnovia, N. Y., and Purdue University at Lafayette, Ind., tied for second place with 52 eggs each. George Phillips pen of White Leghorns from North Haven, Conn., Woodbridge Orchards pen of Wyandottes from Woodbridge, Conn., and P. H. Sampson's pen of Rhode Island Reds from East Lansing, Mich., tied for third place with 50 eggs each. A pen of White Rocks from Dover, Mass., R. I. leads from Grafton, Mass., and White Leghorns from Watford, Conn., tied for fourth place with 48 eggs each.  
The total yield for all pens was 3229 or a yield of nearly 55 per cent. This was 186 eggs more than the expected production computed on records accumulated for a period of years. The birds have started the month of March with a total margin to date more than 2,000 eggs over the average yield for this season of the year. Of course this "velvet" may be needed when the American varieties temporarily forget their fundamental function in the laying contest and have to present to the broody cages that are designed to squelch a hen's maternal instinct.  
The four leading pens in each of the principal breeds are as follows:  
Plymouth Rocks  
Seven Hills Farm (Barred) Katanah, N. Y. 614  
S. Bradford Allyn (White) Belmont, Mass. 608  
Harry G. Oliver (Barred) East Lansing, Mich. 563  
H. E. Denton, East Lansing, Mich. 527  
White Wyandottes  
Frank P. Matteson, Davisville, R. I. 738  
Woodbridge Orchards, Woodbridge, Conn. 720  
Walter Bradbury, Tottington, England 648  
Clemens J. Diemann, New Britain, Conn. 642  
Rhode Island Reds  
The Orchards, So. Hardley, Mass. 626  
Asplecree Farm, Hampton Falls, N. H. 598  
F. S. Chapin, Longmeadow, Mass. 594  
F. H. Sampson, Springfield, Mass. 571  
White Leghorns  
Goshen Poultry Club, Goshen, Conn. 605

CONSERVATION IN SCHOOLS AND INDUSTRIES  
Eye conservation is being carried into schools and industries of Connecticut as a part of the national campaign by the Eyesight Conservation Council of America to protect America's millions of school children and industrial workers. Superintendent E. J. Graham is in the list of school superintendents asked to assist the movement. The movement is largely the outcome of revelations of huge waste through defective vision made by Herbert Hoover's committee on elimination of waste in industry of the American Engineering Council. L. W. Wallace, executive secretary of the Federated American Engineering Societies, will have general control of the eye campaign.  
The aid of State Commissioner A. B. Meredith of Hartford is being enlisted by the council which is also seeking the cooperation of these county supervisors: F. W. Knight, Bridgeport; H. D. Sylvester, Danbury; W. H. Mandrey, Hartford; A. L. Young, Middletown; I. Dunfield, Waterbury; A. W. Greer, Willimantic; C. W. Madocks, Windsor.

CONNECTICUT CONDITIONS WILL BE INVESTIGATED and statistics showing the extent of eyestrain defect in all the classes of the state's population will be assembled to provide a basis for a permanent and constructive policy of conservation.  
NORWICH IS FREE FROM INFLUENZA BY REPORT  
Norwich is free from influenza, according to the weekly mortality report of the state department of health for the week ending March 4th. There are, however, 55 cases of influenza in New London county, 55 in Tolland county and 14 in Windham county. Towns in eastern Connecticut reporting cases of influenza for the week are as follows:  
Colchester, 10; Jewett City, 20; Groton, 11; Lyme, 4; Stonington, 10; Mansfield, 55; Brooklyn 1; Killingly, 1; Pomfret, 10; Putnam, 2.  
Other communicable diseases reported by towns in the eastern part of the state

Cold! Lumbago, Or Stiff Back  
Old St. Jacobs Oil will stop pain and stiffness in a few moments  
Ah! Pain is gone! St. Jacobs Oil acts almost like magic. Quickly?—Yes. Almost instant relief from soreness, stiffness, lameness and pain follows a gentle rubbing with St. Jacobs Oil.  
Rub this soothing, penetrating oil right on your painful back, and relief comes. St. Jacobs Oil is a harmless backache, lumbago and sciatica liniment which never disappoints and doesn't burn the skin.  
Straighten up! Quit complaining! Stop those torturous aches. In a moment you will forget that you ever had a weak back, because it won't hurt or be stiff or lame. Don't suffer! Get a small trial bottle of old, honest St. Jacobs Oil from your druggist now and get this lasting relief.

WESTERLY

The death of Edgar H. Cottrell in New York Tuesday came as a great shock to his many friends in the community. He was the son of Calvert Byron and Lydia W. Perkins Cottrell and was born in Phoenix, R. I., Feb. 17, 1859. Mr. Cottrell was the senior member of the C. B. Cottrell & Sons Company, the factory being located here.  
The annual meeting of the P. S. Barber Hose company was held Tuesday evening, followed by a banquet. The following board of officers were elected: Foreman, Thomas L. Donohue; first assistant foreman, James Ryan; second assistant foreman, John J. Donohue; secretary, Martin Devins; treasurer, William Grandall; property clerk and steward, Robert Roach; pool committee, Frank Brucker, Thomas Lord, Joseph Sullivan, Daniel Ryan; standing committee, Thomas L. Donohue, James Ryan, John J. Donohue; auditors, John A. Shea, Otto Tindeler. Chief Morri-cordial manner and the banquet proved a great success.  
There are 35 cases on the docket for Westerly superior court which are to come before the court here. The trial of Eugene F. Brusco vs. Thomas Phillips and William McGraha has begun Attorney J. O. Waits is counsel for the plaintiff and Judge Herbert Rache-

If Ruptured Try This Free

Apply it to Any Rupture, Old or Recent, Large or Small and You are on the Road That Has Convinced Thousands.

Sent Free to Prove This  
Anyone ruptured, man, woman or child, should write at once to W. R. Rice, 131-A Main St., Adams, N. Y., for a free trial of his wonderful stimulating application. Just put it on the rupture and the muscles begin to tighten; they begin to bind together and the opening closes naturally and the need of a support or truss or appliance is then done away with. Don't neglect to send for this free trial. Even if your rupture doesn't bother you what is the use of wearing supports all your life? Why suffer this nuisance? Why run the risk of gangrene and such dangers from a small and innocent little rupture, the kind that has thrown thousands on the operating table? A host of men and women are daily running such risk because their ruptures do not hurt nor prevent them from getting around. Write at once for this free trial, as it is certainly a wonderful thing and has aided in the cure of ruptures that were as big as a man's two fists. Try and write at once, using the coupon below.

FREE FOR RUPTURE  
W. R. Rice, Inc.  
131-A Main St., Adams, N. Y.  
You may send me entirely free a Sample Treatment of my stimulating application for Rupture.

STONINGTON

Work is well slack at the Alwood Machine company plant and every week employees are laid off. This plant when running full time, employs about 600 hands. The work at the American Velvet company's mill here is good and the mill is running on full time.  
Word has been received of the death of Alexander C. H. Davis, of Duluth, Minnesota. Mr. Davis was the owner of Maple Point and spent his summers here.  
Mr. and Mrs. Karl Koebel celebrated the 25th anniversary of their marriage Wednesday afternoon at their home on Elm street. The house was effectively decorated. The members of the World Wide Guild of the First Baptist church attended and friends called during the day. Mr. and Mrs. Koebel received many handsome gifts. Refreshments were served.  
Mrs. Harry P. Lee of Auburn, R. I.

CHESTERFIELD

Mrs. James Metcalf was a recent business caller in New London.  
Mr. and Mrs. Leon Kolosovsky and daughter were business callers in New London Saturday.  
Miss Helen Kaplan, who has been visiting relatives in New York, has returned home.  
John Dayton and helper are going carpenter work on Mrs. Mary Yarusky's store and are building a garage for William Yarusky, who has purchased a truck.  
Benjamin Goldstein, who has been spending his vacation here, returned Sat-

urday night to his home in New York. A Miller spent the week end in New York visiting relatives who have arrived here from Europe.  
People are glad to hear that Mrs. William Forsberg, who has been very ill, is improving in the hospital in New London.  
The less a woman has to say about keeping a secret the better.

Free At your dealer's this week A 10-Day Tube of Pepsodent. Present the coupon to the store named below. Make this delightful test this week. Watch the quick effects. The benefits will be a revelation to you.

Teeth People Show  
and teeth they don't—the difference lies in a new way to combat film

A new method of cleaning has brought prettier teeth to millions. Also cleaner, safer teeth.  
You see the results wherever you look. Teeth now glisten which before were dim. They show in smiles now where folks once concealed them.  
This is to tell you the reason, then to urge that you make a free test.  
They remove the film  
These millions have gained whiter teeth by simply combating film in this new way. Film is that viscous coat you feel. It clings to teeth, gets between the teeth and stays. The ordinary tooth paste does not effectively combat it. The tooth brush, therefore, has left much of it intact.  
Film absorbs stains, making the teeth look dingy. Film is the basis of tartar. That is why teeth become cloudy and discolored. And some teeth—like smokers' teeth—become badly stained.  
Film holds food substance which ferments and forms acids. It holds the acids in contact with the teeth to cause decay.  
Germs breed by millions in it. They, with tartar, are the chief cause of pyorrhea.  
Thus most tooth troubles are now traced to film. Those troubles have been constantly increasing for lack of a proper film combater.  
Now you can fight it  
Dental science, after long research, has found two ways to fight film. Many careful tests have proved their efficiency. Authorities now advise them, and leading dentists half the world over are urging their adoption.  
A scientific tooth paste has been perfected to comply with modern requirements. These two film combatants are embodied in it. So one may now attack that film twice a day at home.  
The name of that tooth paste is Pepsodent.  
Other new effects  
The saliva contains two great tooth-protecting agents. One is a starch digestant. That is to digest starch deposits on teeth before they ferment and form acids. The other is alkali, to neutralize the acids which cause tooth decay.  
Certain food elements will multiply those tooth-protecting factors. But modern diet often fails to supply those elements regularly. Authority, therefore, desires the tooth paste to apply that stimulation twice a day.  
Pepsodent does that. It multiplies both the starch digestant and the alkalis in the saliva. Every application gives these natural tooth-protecting agents many-fold effects.  
Means a new dental era  
Old-time tooth pastes, based on soap and chalk, depress these factors in saliva. They reduce this tooth-protecting power on which so much depends. And they do not end the film.  
So Pepsodent brings a new dental era to people who employ it. It brings five desired effects which old ways do not bring. So millions of people have come to adopt it, largely by dental advice.  
One week will bring delightful changes  
Pepsodent will quickly prove itself. The changes which you see and feel will very soon convince you.  
Present the coupon this week for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth whiten as the film-coats disappear. Watch how every use leaves the mouth in fresh, alkaline condition.  
One week will show you what this method means to you and yours. Go start the test today.

Present the coupon this week to  
The Lee & Osgood Co.  
133 MAIN ST.  
Present this coupon, with your name and address filled in, to the store named. It is good for a 10-Day Tube of Pepsodent.  
Your Name.....  
Address.....  
Out-of-town residents should mail this coupon to The Pepsodent Company, 1104 So. Wabash Ave., Chicago, and the tube will be sent by mail.  
Only one tube to a family.  
NORWICH BULLETIN

Analyze This Statement and Think!

It costs a merchant just as much to sell you a poor suit of clothes as a good one.  
The Transportation Cost is just as high from the mill to the maker, and from the maker to the merchant's store. The mill overhead and labor cost of weaving poor material may very well be as great as with better goods.  
When it comes to cutting and making a cheap suit of clothes the price of the work is out of all proportion to the material.  
You may pay less for a poor suit—but you do not get anything like the same value for what you pay.  
These are some of the things that create the notoriously high cost of cheap clothing.  
If the motto that "The Best is the Cheapest" holds good in ordinary times, it is doubly true today. Poor clothing is relatively so much higher in price than good clothing that it pays an economical man to buy the best and less of it.  
That is why a timid clothing dealer, afraid to meet his customer with the facts, is rendering a poor service. Knowing that costs everywhere are high he turns to a lower standard of merchandise; he eases over the moment of sale, but fails to consider the day of reckoning with his customer.  
A man forgets the price he paid, but the clothes are in evidence; clear testimony to quality—or the lack of it.  
The Joseph Fine Co. sells only good clothes at consistently low prices—  
Backed by "Your Money Back If You Want It."
