Camp Lawgong, the summer camp of the Boy Scouts of this section, has been opened this week. The season will begin June 24. Assistant Scout Executive Earle C. Beebe and ten scouts from Providence have been cleaning up and getting a piece of ground ready in addition for the camp ground for another small camp.

About 200 scouts can be taken care of here when this season opens.

Mrs. Edward O. Leary and son of Westerly are guests of the former's uncle, Dr. T. P. Maine, at North Stonington.

The laborers held a meeting Thursday morning, but the conference called for the extra pay are still out of work. The contractors who have charge of building the sewer here are still holding out up to this (Friday) morning nothing has been done. The contractors have built several shacks which they house the strikebreakers in as fast as they can be put up. The thoroughfares will be torn up when the traffic is the heaviest. It is hoped by the business people and residents that work will soon be started so as to be well along before the weather arrives here for the summer.

James Robinson is building a garage on his property on West Broad street.

George L. Babcock of Plainfield, N. J., arrived in town Thursday and is at his cottage at Watch Hill.

The Westerly Textile company on Main street is erecting a large board fence around the property where the new addition is to be built, so that the work will not interfere with public traffic.

It is understood that Fred S. Ople has purchased the Stillman property on Corsehall street, instead of Max Lahan.

Mrs. Ethel Hull of Lawrence hospital training school is the guest of her mother, Mrs. Angie Hull, at Loudon Inn.

Judge Herbert Rathbun returned Wednesday evening from a business trip to New York.

Nathaniel Lewis of Alton, R. I., was a business caller here Thursday.

C. W. Williams of Boston was here on Thursday.

The textile business here is good and many of the mills have been and are running on full time. The prediction is that gradually conditions will become normal and that business will be improved here. The present strikes of about 800 men make times rather dull but a steady improvement is looked for. The quarries at Stony Creek are needing help and many of the stone cutters from here are planning to go there for work.

The American Thread company has only a few departments running yet, and only about 100 are being employed there. This mill alone when running on full time employs many hundred.

## Old Age Checked Now By Science Renewed Vigor in One Week

Have you ever wondered why men and women grow old so soon? Why animals live from five to six times their period of full growth, but man usually dies after he has lived twice to three times that period.

Science has found that old age can be postponed for many, many years if we will do as all wild animals do—eat plenty of food containing vitamins. To regain youthful vigor, eat plenty of vitamin-rich food, such as milk products, green vegetables and sour fruits, and add to your daily diet a vitamin concentrate.

Of these vitamin concentrates, the most widely tested is Vegex. One pound of this is made from 12 pounds of yeast, with all the undesirable elements of yeast eliminated. It makes a rich, appetizing, aromatic, spicy food, deliciously palatable in a cup of hot water, or makes a bouillon of meat flavor, though vegetable. Many like it particularly as a spread with butter.

This Vegex is the substance which the British government began to use during the war for strengthening the morale of which it is now still using millions of pounds in the army because this was found to be a life-giving and at the same time economical food.

Vegex comes in jars like beef extract at 30c, 50c and \$1. The jar and 47 you are not delighted with the taste, and if you do not see the results in the feeling of renewed youth, vigor and vitality within a very few days, you are authorized to return the partly used jar to your dealer, and he will give you your money back in full.

### JEWETT CITY

G. H. Prior, secretary of Mt. Vernon lodge has realized an opportunity he long has sought. Mr. Prior is custodian of the past masters' photograph cabinet and is now able to place in the frame the photograph of Worshipful Brother Wallace H. Payne. Special significance is connected with this picture, in that Mr. Payne was master of this lodge during the time he was in the army in France, and his photograph for the lodge cabinet was taken in the full uniform of a United States soldier.

The first cowbirds and thrubart are on sale in the local markets, the former bringing 50c a peck.

The weather man dealt out an all-sorts combination for Griswold Thursday, including rain, sunshine, high winds of gale velocity and at noon a squall with the western sky as black as ink.

Station Agent O. F. Miller has received interesting letter and paper from William Bentley, now in Arizona. Mr. Bentley was telegraph operator here for a long time, and many friends in Jewett City are pleased to learn that his health has been better in the far southwest.

A local farmer with an acre to seed with red clover, is thinking it over since he found that screened red-top seed is quoted at 25c per pound in the local stores.

As evidence of the fine fraternal fellowship existing between the Eastern Star and the Masons some time ago the two orders made the joint purchase of a piano which was placed in the rooms which they occupy in common in the Rioux block. Tuesday evening Norman B. DeBurst, master of Mt. Vernon, acting for the Eastern Star, invested the Masonic order with full ownership of the instrument with a hearty expression of good will.

Dr. J. R. Sweet is fairly established in his new home on Brown avenue. The settlement of affairs at the farm in Griswold where he has lived so many years is nearly completed. His relinquishing of active farm work will be a decided change.

During the high wind Thursday one of the poles at Tadpole, which carry the big 11,000 volt high tension wires for light and power snapped off at the butt. The three wires held at first, not dropping low enough to interfere with traffic on the state road. Superintendent Burdick of Danforth was notified and sent men here at once to perfect necessary repairs. After the first report the wires parted leaving the borough in darkness all the early evening until the line was again in operation.

The last week of the Men's Winter Bowling League furnished plenty of excitement for the local athletes. Two records that have stood for some time were broken when Hopkins of the Red Sox hit 421 for high three and the High Rollers 652 for high team single. Pete Hopkins also pitched high single of the week with 154. The Red Sox picked high team three with 1748.

At a recent meeting of the talent committee of the Community Association, plans were made for a musical revue in May at the Community House for the benefit of the baseball team. The association is planning to make this one of the big events of the year in amateur theatricals and has engaged the services of a professional producer.

The baseball diamond is fast being put in shape for the coming season.

Moffitt-Walsh vs Bailey-Sullivan will be the attraction on the local Valet's Saturday night. The latter players have been given a handicap of 60 pins.
