

# WESTERLY

Election of a committee of finance and the construction of a new water works for the town of Westerly was the order of business at the town council meeting held Wednesday evening. There was the usual routine business and the committee on the water works reported the late Everett E. Watson's report of the water works committee. The town council was shown that \$14,173 had been collected in taxes by the tax collector, Charles J. Smith. Chief Morrison reported as a member of the sidewalk committee that walks had been constructed on Morgan street and to the corner of Liberty street, and on West Broad street in accordance with the vote of the disinterested committee. The committee on the water works reported that the collector's salary was \$100; treasurer, \$25; engineer, \$100; \$25 to each of the three assistants. Care of the truck \$100; the police \$25 for the ensuing year.

James Shaw and Harry Ballew were appointed assessors and officers for the year were chosen as follows: Moderator, Albert G. Manning; clerk, William A. Hill; collector, Claude L. Spencer; engineer, Charles J. Smith; treasurer, William S. Manning; assessors, William A. Hill, Frank L. Robinson, Byron J. Peckham, and William A. Hill; auditor, Albert S. Hillman; Byron J. Peckham, as the largest vote to take the place of Everett J. Watson, deceased. The collector's bond was fixed at \$2500 and the treasurer's at \$500. The engineer's bond was fixed at \$500. The treasurer was instructed to see that such money was required for the needs of the district. The motor of levying a tax for the year 1922 was fixed at 1.5%.

The petition of William Robinson, Charles J. Johnson and William Wilcox that the lines of the district be extended to include the property on the Old Mystic road was received and referred to the board of assessors to investigate. It will be taken up at the next meeting Monday evening, June 12, at 8 o'clock. At that time the assessor's committee will report on the building projects and the tax rate will be voted. It is expected that the assessment for the year will be fixed according to the expenditures of the district. Most of the indebtedness has been due to the construction of cement sidewalks.

The marriage of Miss Leola Evelyn Dray, daughter of the late Josephine and Mrs. Charles Dray, of 33 Chester avenue, and Edwin Barber, Jr., of Westerly took place Monday afternoon at 5 o'clock at the parsonage of the Presbyterian Seventh Day Baptist church. Rev. Clayton A. Burdick, officiating. Mr. Barber is in business at Walsh Hill. He and his bride will live in local circles. The bride received handsome and valuable gifts. Upon their return from a wedding trip, they will reside in Westerly.

Westerly did her part in the Black Aid week which featured benefits of the Rhode Island hospital. The amount raised was \$470.77.

Lewis Barber of School street and Charles Hightbottom of the West Side

M. R. Holdridge of Westport, Me., is spending the week here, prior to opening his cottage at the beach.

### PUTNAM

(Continued from Page Six)

the railroad company and city officials were in conference concerning the matter, and at that time it was understood that the railroad company would construct drains that would conduct the water away from the highway.

Another request to the council of a similar nature was made by Armand Lisota who has a building on the corner of Nichols street and this was done with the understanding that the city should keep the street in good condition. The request was referred to the highway committee.

A building permit was issued to Albany Delisle for the erection of a garage on Woodstock avenue.

Permits for the following were received from the following: Olan Amiot, for a house at the corner of Church and Church streets; Joseph Vande, Harrison street, to change back into a garage; G. Lawrence Perkins, for six-room house at corner of Center and South Main street; and P. R. Whitman, Mechanic street, for store and office building. These permits were referred to the highway committee.

The aldermen spent some time discussing the matter of a silent policeman for Bugbee square. Under the last administration a flashing dummy was ordered, and has been received in Putnam. The present council has expressed itself as unwilling to accept this, declaring that the apparatus is unsightly and that the dummy has not been maintained. It was finally agreed that the police and highway committees, jointly, investigate the matter, and then act as they see fit.

Tax Collector Archibald Macdonald, Jr., appeared before the council, asking that certain taxes levied against individuals whose addresses are now unknown be abated. This was done.

Health Officer Peter A. Gardner asked for the passage of an ordinance that would make it compulsory for owners of tenements to provide suitable refuse cans into which tenants could place garbage. It was suggested that he himself draw a satisfactory ordinance and present it at the July meeting. He agreed.

Declaring that a building which he termed "a wart on the landscape" was being erected on Mechanics street and in what he believed was in violation of the city charter and ordinances, Alderman Charles Macdonald introduced to the meeting the question of the regulation of building within the city limits. The matter was first brought up when Alderman Dean called attention to a section of the building ordinance which states that permits must be obtained from the superintendent of streets in cases where building material is stored on city sidewalk, and that loads of sand have been dumped into the gutter. This was done by Superintendent of Streets Dumas, Mr. Dean asked, "Has Mrs. Lavine been to you for a permit to obstruct the sidewalk in front of her home?" The superintendent replied that she had not, and was then recalled that at the May meeting of the council a building permit was refused Mrs. Rose Lavine. According to the alderman and superintendent of streets the building is going on, nevertheless.

"Here is a good chance for you to test the charter and your power in this matter," said Mayor Macdonald.

Alderman Dean moved that the entire matter be referred to the highway committee and that they bring action, if necessary, against all violators of the sections of the building ordinance which had formed the basis of the evening's discussion. This was unanimously voted.

The work of oiling Putnam streets was begun Wednesday under the direction of Supt. Frederick Dumas and State Supervisor H. H. Davenport.

the home of the Misses McGrath on North Water street.

George Pendleton of New London has entered the employ of the American Velvee company.

The Toland county Sunday school institute was held at the Congregational church Wednesday afternoon and evening. Supper was served by the women's society of the church.

## He Will Say

"Fight those film-coats on your teeth"

Leading dentists, nearly all the world over, now urge a new method of teeth cleaning. Millions of people already employ it. You see the results everywhere today, in whiter, cleaner teeth.

This is for those who don't know it as yet. We offer a ten-day test. You will then see the unique results and decide what they mean to you.

**The war on film**

One great object is to fight the film on teeth. You can feel it now—a viscous film. It clings to teeth, gets between the teeth and stays. And it forms the basis for dingy, dangerous coats.

Ordinary tooth pastes do not effectively combat it. So millions of teeth brushed daily still discolor and decay.

Film constantly breeds germs. They, with tartar, are the chief cause of pyorrhea. Thus most tooth troubles are now traced to film.

**How to fight it daily**

Dental science has now found two effective film combatants. Able authorities have proved them by many careful tests.

A new tooth paste has been perfected, to comply with five modern requirements. The name is Pepsodent. These two great film combatants are embodied in it.

Careful people of some forty races now employ it daily, largely by dental advice. You will also do so when you know how much it does.

**Brings other effects**

Pepsodent brings two other effects which authorities now desire.

It multiplies the starch digestant in the saliva. That is there to digest starch.

Film absorbs stains, making white teeth cloudy. Film is the basis of tartar. It holds food substance which ferments and forms acids. It holds the acids in contact with the teeth to cause decay.

Now advised by leading dentists nearly all the world over. All druggists supply the large tubes.

A 10-Day Tube of Pepsodent. Present the coupon today. Watch the delightful effects for ten days, then decide if you always want them.

deposits. They gum the teeth, get between the teeth, and often ferment and form acids.

It multiplies the alkalinity of the saliva. That is Nature's neutralizer for acids which cause decay.

Thus every use gives multiplied power to these two great tooth-protecting agents in the mouth.

For beauty's sake

Film removal means prettier teeth. Film-coats make teeth dingy. So every lover of glistening teeth should combat that film daily.

The results will delight you and convince you. Present the coupon for the 10-Day Tube. Start its use tonight.

Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth whiten as the film-coats disappear. The normal alkaline mouth, following every use, is most refreshing.

See and feel these results for ten days. Then look at your teeth in your mirror. Then you will know what this new method means to you and yours. Cut out the coupon so you won't forget.

Present this coupon, with your name and address filled in, to the store named. It is good for a 10-Day Tube of Pepsodent.

Your Name \_\_\_\_\_

Address \_\_\_\_\_

Out of town residents should mail this coupon to The Pepsodent Company, 1104 South Wabash Ave., Chicago, and the tube will be sent by mail.

Only one tube to a family. Bulletin, Norwich, Conn.
