DOCTORS DECLARE ROSWELL INSANE; COMMITTED TO NORWICH HOSPITAL

(Special to The Bulletin)

William, July 10.—Judge George E. Hinman, this afternoon, at 2 o'clock, in the superior court room in this city heard an application for the appointment of a commission of physicians to examine George Leslie Roswell, of Mansfield, as to his sanity. The circumstances were explained by Sheriff Charles A. Gates after which Judge Hinman appointed as the commission, Doctors Frederick E. Wilcox, Fred M. Smith and William P. S. Keating, who examined Roswell and found that he was insane. Judge Hinman made out an order committing Roswell to the Norwich state hospital for the insane, where he was taken to be held until the date of his trial, which is set for the next term of the Windham county court, Roswell, who is thirty years old, Saturday evening, June 2, placed railroad ties on the west-bound track of the Middle division of the New Haven railroad, two miles southwest of the North Windham station, with the intention of derailing the locomotive. He was arrested two days later and given a hearing in the local police court and bound over to the county jail where he has since been held.

EXPENSES OF STATE ARE OVER TWENTY MILLIONS

According to figures given out Saturday from the state comptroller's office the expenses of the state for the fiscal year ending June 30, 1922, amounted to \$22,048,997.94. For the previous year the expenses amounted to \$19,454,319.96. The increase this year was \$2,594,677.98. The increase in the expenses for 1922 is due to a number of causes. Perhaps one of the principal contributing reasons for the increase is the effect of the change in the system of state accounting by which all bills due by the state are paid by the comptroller. In the past it was the practice to allow many institutions to pay their own bills out of their appropriations and the comptroller's list of expenditures did not include these payments. As a partial offset, however, it should be stated that the money received by the management of the institutions are turned over to the state treasurer instead of being paid to the credit of the institutions in banks. The purchase of buildings for office purposes and their remodeling, for which the legislature made an appropriation of \$170,000, added materially to the expenditures for the year. There were also the increase due to the expansion of departments and offices which added the names of many new employees to the payroll of the state.

A statement of the expenditures of the state a decade since will, when compared with the figures for the fiscal year which has just closed, show that there has been more than trebled in the decennial period.

IN SHOWING A GAIN OF 33.3 PER CENT OVER THE RECEIPTS FOR THE CORRESPONDING PERIOD OF LAST YEAR

The schedule of increased fees for motor vehicle registrations is responsible for the greater part of the gain, as indicated by the fact that the receipts from this source alone aggregated \$2,717,229 in the fiscal year just closed as compared to \$1,660,125.84 in the year closed June 30, 1921. There was, therefore, a gain of nearly 70 per cent in this respect. The additional charge of one dollar for operators' licenses accounts for \$1,650,000 more of the increase, while 15,725 additional operators makes up the remainder of the difference.

The increased rates applied only to 24,175 more than the same half of the fiscal year in the case of motor vehicle registrations and only to the last six months in the case of operators' licenses. That is because the law changing the rates did not go into effect until the first of this year, so car registrations and because the year for operators' licenses begins on March 1. However, such registrations and licenses are issued for some time in advance of the dates when effective.

Motor vehicles of all kinds increased by 14,175 during the fiscal year, bringing the total up to 113,424 as compared to 142,248 in the previous year. The past three months saw a gain of 17,353 in motor vehicles registered easily taking up a decrease of registrations which occurred last fall. There was a gain of about 8,900 operators in the same period.

An indication of the revival of business is seen in the fact that while there was a decrease of 1,230 in the number of commercial motor vehicles registered during the past fiscal year, registrations of this kind increased sharply in the past quarter from 3,315 in the month of May, to 4,315 in the next quarter. It will see the decrease entirely wiped out and replaced by a gain. At the end of the fiscal year, 25,220 commercial motor vehicles had been registered as against 25,450 in the previous year.

Headlight and Bumper Broken

George MacIsaac of Norwich reported to the New London police Monday a collision with a car bearing the number 33082, which broke the bumper and a headlight on MacIsaac's machine.

REAL ESTATE SALES AND MORTGAGE LOANS

In Norwich during the past week there were 18 sales of real estate as compared to 18 for the corresponding week in 1921. The mortgage loans for the respective weeks were \$38,310 and \$24,150.

In New London there were six sales of real estate or exactly the same number as for the same week a year ago. The mortgage loans for the corresponding weeks were \$46,661 and \$13,900.

THE STATE SITUATION

According to the Commercial Record one hundred and ninety-three permits for new building projects were granted in the larger cities of the state, in the week just ended, for structures costing \$488,719, three figures comparing with 190 in the last week of June, 1921, for buildings costing \$416,125, and 144 in 1920, the buildings costing \$301,591.

How You Can Remove Every Trace of Hair

(Civilized Talk)

A stiff paste made with some powdered delonide and water and spread on a hairy surface about 2 minutes will, when removed, take every trace of hair with it. The skin should then be washed to free it from the remaining delonide. No harm can result from this treatment, but be sure it is delonide you get and you will not be disappointed. Mix fresh as wanted.
