

FINANCIAL AND COMMERCIAL

RECAPITULATION OF DEALINGS IN NEW YORK STOCK MARKET

Day's total sales, 702,000 shares. 20 industrial averages \$4.15, net gain 1/8.

High 1922, 103.42; low 78.59. 20 railroads averaged \$2.46; net loss 1/8.

High 1922, 92.99; low 73.42.

MARKET WAS IRREGULAR

New York, Nov. 24.—Prices in today's stock market were again irregularly lower.

Special rallies in individual issues, combined with rather extensive short covering on the theory that the decline had been overdone and technical conditions warranted a rally, gave the market the appearance of strength during the early part of the session but the half-hearted way in which the rally progressed induced further liquidation.

Equipment, food, oil, textile and motor stocks rallied 1 to 3 points above yesterday's closing prices on the rebound.

Standard Oil shares yielded more easily. Standard of New Jersey being down almost 5 points at one time and closing at 19 1/4, or 50 points below the high figure reached just before the declaration of the stock dividend.

Relaxation of pressure against some of the railroad shares resulted in mixed changes at the close. Chicago and Great Western preferred, Gulf States and points and Delaware and Hudson yielded 1 1/2 but Lackawanna improved 1 1/4 and Illinois Central preferred, 1 3/8.

Call money opened and renewed at 4 1/4 and advanced to 5 in the late afternoon, closing at that figure. Time money was much more plentiful today, some 30 day loans being arranged on a 4 3/4 per cent. basis.

Foreign exchange business was quiet, prices fluctuating within narrow limits. Demand sterling was again round \$4.49 1/4 and French francs around 7.13.

Chicago, Nov. 24.—Wheat moved upward in price today largely by way of response to the course of values at Winnipeg and Liverpool.

BOND MARKET

New York, Nov. 24.—French bonds developed unexpected strength in today's late dealings in the bond market in response to a speech at the New bond club by Charles E. Mitchell, president of the National City bank, who expressed the opinion that French and Belgian bonds stood today "at a ridiculously low credit rating."

Marseilles 6 1/2 jumped 2 points above last night's close and gains of 1 to 1-2 were recorded by French 7 1/2's and 8's.

There were a few strong spots in the domestic list, but the main tendency there was again downward.

Speculative railroad mortgages were again thrown on the market in rather large volume, reflecting speculative doubt over the road's earning capacity.

Chicago Great Western 4's enjoyed a sensational jump of 4 1/4 points. St. Louis Southern consolidated 4's proved an attractive short term issue, rising more than a point, the recent resumption of dividends by that road increasing the demand for that issue and the first 4's, which also improved more than a point.

Chief interest in the industrial division centered in the strength of Erie Hill Steel 5 1/2's, Sinclair Pipe Line 6 3/4's, New York Steam 6's and Punta Alegre 7's, all of which were up 1 to 1-2 points.

S. W. Straus and company today announced the purchase of an issue of \$2,000,000 first mortgage serial coupon bonds, maturing from 2 to 17 years, of the Ice Service Inc. of New York, one of the largest ice manufacturing and distribution organizations in the city.

Paris despatches today stated that France's latest bond issue of six per cent. treasury notes, of which, priced \$150,000,000 francs.

TAFTVILLE

With reports on memberships in the Taftville Chapter, American Red Cross far from complete, as the house to house canvass is still in progress, it appears that the campaign will be most successful, and the number enrolled will equal last year's total, thus enabling the chapter to carry out its program for the coming year.

Word was received in the village Friday of the death of Agnes Bellessein, widow of Oliver Trudeau in Pawtucket, R. I. Mrs. Trudeau entered a drug store at 612 Pawtucket avenue, where she collapsed and died before medical aid could be summoned.

Noticeable in the village during the past month is the arrival of numerous French Canadian families from Canada. Years ago, when the Canadian population far outnumbered any other nationality in the town, it was no uncommon incident to have twenty or more large families from over the border, arrive and work in the local mills, and furnish the town with a fine type of citizens.

With the close of the hunting season on some varieties of game the sportsmen who have participated in this sport are comparing records for the season. While some fairly good bags are recorded, it is generally conceded that the game was not plentiful enough to go round.

In the November 21st issue of Fibre & Fabric, a cotton manufacturing journal published in Boston, Mass., is an article on the organization of the Eastern Connecticut Mill Men's Association at Danielson recently.

A homing pigeon that was captured on Thursday in an attic in a local house, and which had a band on its leg with the letters J. E. M. Boston, was found dead in its cage Friday morning.

John L. S. Anderson of South street has left town to make his home with his daughter in Springfield, Mass. Mr. Anderson was known as one of the old settlers of the village and his many friends regret to learn that he is to make his home elsewhere.

Ponemah Council, No. 34, K. of C., held an enthusiastic meeting at their rooms on Providence street Thursday evening, to appoint committees in charge of a carnival which they plan to conduct in January and February.

Spanish War Veterans, have been notified to attend an inspection by Comrade Shovlin at Buckingham Memorial.

Dr. David Sussler of North A street, has been a recent visitor in Norwich. The Weavers union met Friday evening in their rooms in Parish hall.

Mrs. Genevieve Straub of South B street, who was taken to Backus hospital, Thursday, suffering from appendicitis, underwent an operation Friday morning.

Miss Louise White of South A street has been a recent guest of Mrs. Sarah Arthur of Mechanicville, Conn.

Least garage owners and automobile accessory stores report a brisk demand this week for denatured alcohol for use in radiators, the cold snap impressing on the minds of motorists that they needed attention.

Mrs. F. D. Mabrey in Sanatorium. Norwich friends of Mr. and Mrs. Fred D. Mabrey of Englewood, N. J., learn that their little daughter, Elizabeth Mabrey, remains at Danbury hospital, where she was born early in the spring.

Joseph Pepin has been ill at his home on South C street.

A group of Camp Fire girls was organized Friday evening at the Taftville Congregational church. Mrs. Edwin C. Crowl is guardian, and Mrs. John Volkman assistant guardian.

Part of the fabulous salaries some actors get is real money.

CANNOT LIVE WITHOUT THEM

Science Discovers That Vitamins Are Absolutely Essential to Health

Fruit Juices a Source of Vitamines

"FRUIT-A-TIVES" the Wonderful Fruit Medicine is Rich in Health-Giving Vitamines

Thousands of men and women are falling off in health and vigor because the food they eat is lacking in one element, without which they cannot keep fit. This element is Vitamine.

Ordinary meats and fish do not contain it. Milk is rich in it. Manufactured foods have the Vitamines destroyed in the process of manufacture.

Some fruit juices are rich in Vitamines. A careful examination of experiments conducted by both British and American authorities shows that Oranges contain an abundance of both "B" and "C" Vitamines and Apples contain a relatively large amount of these vital substances.

Why is it that "Fruit-a-tives" gives such marvelous results in overcoming Constipation, Impure Blood, Starved Nerves and a rundown system?

Because "Fruit-a-tives" is a true fruit medicine—the only medicine in the world made from intensified fruit juices. "Fruit-a-tives" is rich in the "B" and "C" Vitamines, derived from the juices of oranges and apples.

To take "Fruit-a-tives" regularly, is to supply the system with the Vitamines which are needed and which are absolutely necessary to health.

"Sillex" a Substitute for Glass

A transparent substance which, while not indestructible, is hard to break by force or heat has been discovered by Dr. Vaclav Horak, a Czech engineer. He calls it "Sillex." It costs about three times as much as ordinary glass, so it is not proposed to use it for the manufacture of such articles as have hitherto been made of glass, but rather to employ it as a substitute for earthenware, porcelain, enamel and aluminum.

For the kitchen its use is obvious. It is cheaper than enamel or aluminum, is more easily cleaned and by its transparency, enables the cook to see how the cooking is proceeding without lifting the lids, etc.

At a recent demonstration at Prague the inventor drove nails into wood with a hollow stick made of this glass. Thin tumbler dropped on the floor from a height of a couple of yards failed to break. A "Sillex" vessel was placed on an open fire, filled with water and the water boiled without injuring the glass.
