

DANIELSON AND PUTNAM NEWS

DANIELSON Tomorrow will be Thanksgiving Sunday in the churches of Danielson. A Thanksgiving service will be held at the Methodist church at 10:30 and Thanksgiving topics will be discussed at the 12:30 church meeting at the evening service.

PUTNAM Tenants in the St. Onge block on Main street which was recently purchased by the Putnam Savings Bank are notified that the building will be sold at auction in December. Whoever makes the purchase will have to remove or tear down the building at once.

Next Thursday, Thanksgiving day, will be generally observed as a holiday throughout this territory, with practically a complete suspension of business. In many homes there will be family reunions, many returning to old friends for the festival occasion.

Mr. Andrews was a native of Putnam, a son of Nathaniel and Hannah (Wilson) Andrews, but has lived in the greater part of his life in the town of Killingly and for many years was employed as a teamster. For some time past Mr. Andrews had been employed by the Goodyear Mills company. He leaves a daughter, Mrs. Jessie Childs, of Goodyear. The body was taken in charge by Undertaker Louis E. Kennedy and brought to his rooms here.

Members of persons already are convinced that there will be plenty of ice the coming winter; in fact, some are impressed that there will be too much and that it need not have been in such haste to appear in the market. The weather of the past three days has resulted in such damage as is herein mentioned for numbers of car owners and they have some rather impressive repair bills to meet.

A dance—the first public affair arranged by the Danielson Radio club—will be held at the state armory Friday evening. Music will be by a Norwich orchestra. The dance attracted many from various surrounding towns and with heavy patronage from Danielson and its immediate vicinity. Radio concerts were added as a special feature of the evening.

Members of Guild chapters in Norwich, Willimantic, Jewett, and Votaw town and South Willington have been invited, together with young women from Putnam and East Killingly, to be present this (Saturday) afternoon at a meeting of a World Wide Guild to be held in the Baptist church here. A supper is to be served.

Automobile dealers continue to get an amazing amount of new business in this territory for such a late period of the year. Only a few years ago sales of new automobiles practically ceased between November 1 and March 1, but that no longer is true. Automobile sales now continue throughout the year, a fact attributed to various reasons, but chiefly to there being more and better state highways than in the case a decade ago and because these roads are promptly cleared of snow throughout the winter by the state highway departments of this and neighboring states.

"It is to be hoped that every person who can do so will exchange war savings stamps, soon to fall due, for treasury savings certificates," said Postmaster Manning Thursday. The large amount of money invested and the great number of persons who have exchanged war savings stamps showed that the people of this country could have money when the necessity arose.

Now if they will take the money they can do so will exchange war savings stamps for treasury savings certificates. Interest accumulates at the rate of 4 per cent. each year, compounded semi-annually.

These savings certificates are exempt from the normal federal income tax from all state and local taxation, except estate and inheritance taxes, and may be held to the amount of \$5,000, maturity value for each issue, by every member of a family. They are bought with the credit of the United States government and afford an easy and sure method of saving.
