

DAUGHERTY IMPEACHMENT FALLS FLAT

Washington, Dec. 20.—Proceedings before the house judiciary committee, in connection with the impeachment charges brought against Attorney General Daugherty, by Representative Kellar, republican, Minnesota, appeared today to be nearing an end.

In fact it was indicated that the scope of future hearings would depend to a large measure upon the nature of information to be laid before the committee by Representative Woodruff, republican, Michigan, after his examination of documents at the department of justice.

After a brief public session today, at which no additional evidence was received the committee decided, in executive session, to hear Mr. Woodruff tomorrow.

Mr. Kellar having withdrawn, the committee, proceeding on its own initiative, invited Mr. Woodruff and Representative Johnson, republican, South Dakota, to testify. Both emphasized that they had had no part in the drafting of the Kellar charges.

Declaring he had been "dragged" in to the hearing, Representative Johnson said the charges he had made in the house relating to alleged war frauds, had been directed solely at the war department. If the committee wanted to go into these charges he was prepared to give the names of witnesses to support them, he continued, adding that there were officers in the department who "should be court-martialed, instead of promoted."

As to the department of justice action in regard to war fraud cases, Mr. Johnson said that in his judgment, Attorney General Daugherty had proceeded with reasonable promptness in bringing the suits considering that he had had to reorganize the department after he came into office and had to deal with great masses of information relating to the alleged frauds examined before any move could be made.

Representative Woodruff also told the committee that since he made his charges in the house last April of a failure

by Mr. Daugherty to prosecute war fraud cases, suits had been brought in six of the eight or nine instances he had cited and that necessarily this had changed the situation materially. He added that it was not his purpose to embarrass the attorney general in the conduct of the court proceedings and that his opinion was that those cases should not be inquired into at this time.

Asking that he and his counsel, H. L. Scaife, a former attorney employed in the justice department, be permitted to examine the documents in the "Wright-Martin case," Mr. Woodruff said that whether he could present charges that would form the basis for impeachment proceedings within the scope of the Kellar specifications would depend upon what those documents disclosed.

The Assistant Attorney General Seymour immediately announced that the documents would be made available to Mr. Woodruff and his attorney.

SEVEN MEMBERS OF IRISH REBEL ARMY EXECUTED

Dublin, Dec. 19.—(By the A. P.)—Four railway men and three laborers were executed here this morning for interfering with trains in county Kildare. The men were captured Nov. 13 by Free State troops in a house, the location of which is known. With them a quantity of stolen goods, rifles and ammunition was found. The men were tried by a military committee and sentenced to death on the charge of train wrecking. They are reported to have been members of the republican army.

Only two men of the gang of ten are still alive, as another was shot dead by a sentry in trying to escape from Curragh camp during his detention.
