# PENROD

A REAL  
WORTH-WHILE

# 10c CIGAR

DON'T LET  
THE PRICE  
FOOL YOU

**SMOKERS—What You Have Longed for in a Cigar You'll Find Aplenty in Penrod**

The most unusual and delightful smoking value you have ever experienced for 10 cents — that is what you will find.

You probably have a keen desire for flavor, for tobacco fragrance and for a smooth, mellow, satisfying smoke. You will find all of that in the Penrod, a cigar with quality that will astound you, for—

The Penrod is made by hand, scientifically blended from a selection of imported Havana and the choicest old mellow domestic tobacco obtainable, long filler, wrapped with imported Sumatra.

We believe that the blend of tobacco, as exemplified in the Penrod, will prove a revelation to even the experienced judge of what is what in good cigars.

There is no question in our minds but what after you have once smoked the Penrod you will prefer the clever blend to either a straight Havana or an all-domestic cigar.

The Penrod will win you in many ways. You will like the firm feel of this nifty-rolled cigar, the pleasing proportions of its perfecto shape, the "smell" of its aromatic leaf, the epicurean taste as you roll it around on your lips, the even burn as your moments of cigar satisfaction speed by; and last, but not least, the profound realization when you have finished the last possible puff that you have had the privilege of a real smoke at last.

For your own satisfaction compare the Penrod with any of the 10 cent or higher priced cigars on the market today. Smoke a Penrod, then smoke some other cigar.— If you have learned to judge a cigar we will rest our claim on the results of the comparison. The Penrod will never tire your taste regardless how many of them you smoke, for we have built the Penrod to gratify your taste, not tire it.
