

to the north and south wards, which shall contain the staircases, water-closets, and bath-rooms; the whole to be raised one story (ten feet) in addition to the present height of the building. To accomplish this will require an appropriation of \$6,500.

3d. Quarters for sixteen officers and two families should be constructed in the form of a brick building of two stories, with a basement, with two wings, (one for each family.) It is estimated that it will require about \$28,000 to accomplish this object.

4th. Suitable additions may be made to the quarters of the professors by an appropriation, in addition to the amount already appropriated, (\$3,000) of \$5,051.35.

5th. Suitable additions may be erected by an appropriation, in addition to the amount already appropriated, (\$8,000) of \$7,491.

6th. We are of the opinion that the number of the cadets should be increased, so as to correspond with the number of Senators of the United States, by adding two from each State, and that the recommendations of Senators in each State should have great weight in selecting the cadets from their respective States to make up this increased number.

7th. We are of the opinion that great care should be taken in the selection of cadets that are to be made from among those who have the highest qualifications, physical, intellectual, and moral.

8th. That the period of instruction should be extended to five years. This may be accomplished without any additional expense to the nation, and with great advantage to the cadets. They should be qualified to take and hold with honor to themselves the highest positions in civil as well as military life.

9th. We are of the opinion that the decisions of the academic board, as to the capacity and conduct of the cadets, and their qualifications to be admitted and continued in the academy, should be considered as final and conclusive.

10th. We are all of the opinion that the pay of the cadets should be increased, making it at least \$28.20 per month, and a very large majority of the board are of the opinion that it should be increased to \$30 per month.

11th. We concur in the recommendation made by the Board of Visitors last year, that the pay of the Superintendent should not be less than \$3,000; that the pay of the instructors of French and drawing should be made equal to that of the principals in other departments; that the principal instructors of practical engineering and of artillery, &c., should be allowed the same compensation as other principal professors; that the first assistant instructor of drawing and French should be allowed the same pay as the first assistant in all the other departments; that all the secondary instructors and teachers taken from the army should be allowed \$10 per month extra pay; and that the fencing master, who now instructs two classes, should be allowed the pay of \$900 per annum.

12th. If the period of instruction should be extended to five years, we are of the opinion that the study of elocution, writing, English composition, history, and the evidences of Christianity, should make a part of the course to be arranged by the academic board; and that the study of rhetoric should be postponed to the second year. For additional facts and arguments in favor of the measures we recommend, we refer to the reports of the several committees above named.

13th. We concur in the recommendation especially of the committee on instruction, that an appropriation of \$5,000 should be made for the purpose of establishing at this point a museum of artillery, and for the reasons by them stated.

In conclusion, we would express the unmingled pleasure we have derived from the discharge of our duties as a board of visitors. Upon our arrival we were received with distinguished courtesy by the Superintendent and other officers of the institution, and during the entire progress of our labors every possible facility has been afforded us for accomplishing the ends of our appointment. We close our investigations and reluctantly leave this place, celebrated alike for its natural attractions and its historic interest, more profoundly impressed than ever with the importance of this Military Academy to the highest interests of our nation, and in the confident assurance that its future career will be as honorable as its past history has been useful and patriotic.

LATE FROM MADEIRA.—By the schooner Brookville, A. E. Tibbets, master, arrived at this port today, we have advices from the island of Madeira to the 15th of June. The Brookville brought no intelligence however, beyond the following:

Sailed, June 2, brig Mary Ann, of Baltimore, for Demerara, with passengers.

Arrived at Funchal, June 5, from Porto Praya, United States ship John Adams, to wait the arrival of the United States ship Constitution, when she would sail direct for Boston. Her officers are, Commander and Lieutenant, Francis Doyle, and Surgeon, Acting Lieutenant, Higginbotham, Surgeon, Sinclair; Assistant Surgeon, Heustis; Quartermaster, Woolley; Midshipman, Cayton, Babcock, and Campbell; Captain's Clerk, Conway.

The John Adams left for Porto Praya, on May 8, United States brig Bainbridge, Commodore Manning, all well. The United States brig Perry arrived at Porto Praya, May 18, from the coast. She would sail on the 20th of June for Madeira. The United States ship Marion was expected at Porto Praya in June, from the coast.

THE CONVENTION which met at this place on Wednesday last, to appoint delegates to the Whig Congressional Convention, to meet at Bladensburg, on the 3d day of August, Messrs. Elisha J. Hall, of Cracklin, James N. Allnut, of Medley's, and Benjamin Fawcett, of Berry's district, were appointed.

The Democratic Convention, which met at Rockville on last Saturday, appointed W. Thompson of R., Dr. W. P. Palmer, and Captain Wm. O. Sellman, delegates to the gubernatorial Convention. The first choice for Governor is Dr. Washington Duvall; and though there was no expression of sentiment in regard to second choice, it is said that they will go for Walter Mitchell, esq., of Charles county. The friends of Southern Keane made a gallant fight, but the old boys were too much and too many for them.

[Rockville (Md.) Journal, July 23.]

CHARLES B. CALVERT, Esq.—Among those frequently spoken of as the Whig candidate for Governor is Charles B. Calvert, esq., of Prince George's county. We have had a personal acquaintance with this gentleman for several years, and we are proud to say, a more high-minded and honorable gentleman does not live within the borders of Maryland, nor one who would more faithfully discharge the duties of the office. He is a liberal, open-hearted gentleman, a man of ability, energy, and discreet judgment, and perfectly familiar with the financial affairs of our State.

[Annapolis Republican.]

FROM BERAMUDA.—We have received Bermuda papers to the 12th of July, inclusive.

In the House of Assembly on the 7th instant a report and resolution were adopted, approving of the new postal arrangements proposed by the Home Government, and a bill was introduced accordingly.

A resolution was proposed, releasing whale-ships visiting the islands for supplies from light-house dues, but was lost on the vote.

THE LATE RAINS have gladdened the hearts of the farmers throughout the country.

BY TELEGRAPH.

Arrival of the Arctic—Three Days Later from Europe.

NEW YORK, July 24.—The Arctic arrived here at six o'clock last evening. Her news is full of interest. Count Nesselrode has issued a new circular more impudent than the last, claiming that Russia occupies the principalities because the French and English fleets occupy the Turkish waters; and he hints most clearly that the Russians will refuse conciliation until the fleets are withdrawn, expressing however a willingness on the part of Russia to evacuate the principalities when her demands are fully granted. This note particularly opened the eyes of the European public, who see the necessity of bringing matters to a settlement. The object of the Russians being believed to be merely to gain time and render their position impregnable, while they scarcely admit the possibility of war, public opinion begins to press for something decisive. The French and English people are continually amused by despatches of a pacific tendency, the latest implying that France and England had just forwarded to St. Petersburg a moderate note, and that concessions on both sides were to end the matter. An answer was expected in about a week from the 11th of July. The Bourses all keep pretty firm.

The plot against Napoleon's life at the Opera Comique was more serious than at first supposed. The conspiracy was unravelled by the prisoners on their trial.

Highly important, if authentic, advices state that M. Brunel, the Austrian envoy, instead of having a conciliatory mission to Constantinople, has made an imperative demand on Turkey for the concessions previously refused to Leiningen's mission.

The Arctic brings Señor Herrera, late minister from Peru to Rome, Mrs. T. F. Meagher, and Thos. Meagher.

The London Times of the 13th instant states that the French Minister of War, asserted to have addressed the President of the Chamber of Commerce of Nantes in the following strain:

"We are not bent on war, but if the Emperor, to whom the honor of the government is dearer than every thing, should think that the national honor exacts war, he will certainly not recoil."

The Paris Bourse was dull and most of the funds had declined.

A despatch from Vienna states that the troops are about to be concentrated near Peterwarden, for the protection of the frontier.

It is said that the Porte will publish a reply to the Emperor of Russia, setting forth all the injustice suffered from Russia.

Advices from Smyrna, to the 29th June, state that in a riot at Smyrna, resulting from the arrest of M. Costa, an emissary of Kessuth, the captain of the United States frigate St. Louis behaved gallantly. He demanded that he be the prisoner delivered up to the protection of the United States, and would have taken possession of Costa by force had he established any claim to the protection of the United States. In consequence of the row, Austria had demanded and received from Turkey satisfaction for the insult, and the governor of Smyrna was discharged. The American commander had excited admiration. The United States frigate was still at Piron, and neither accounts of the difficulty had been received.

At Liverpool cotton was firm, and the sales of three days had been twenty-six thousand bales. Flour had declined from six pence to a shilling. Wheat from one to two pence. Corn steady. Consols ninety-seven-eighths to ninety-eight.

Later from Santa Fe.

LOUISVILLE, July 22.—The Santa Fé mail arrived at Independence, Missouri, on the 20th instant.

Major Gordon, United States Army, and J. S. Webb, of Santa Fe, came passengers by the mail. Everything remained quiet in New Mexico. They passed Colonel Sumner at Cottonwood on his way to St. Louis, and General Gariano and Governor Merrivether on the Arkansas. They also passed large parties of traders, all of whom were getting along finely.

The mail brings no news of interest.

General Trias had withdrawn his troops from the Mesilla valley, in pursuance of an order from his government.

A meeting of the citizens of Santa Fe had been held for the purpose of memorializing Congress for the removal of the Indians from New Mexico.

House Robbery—Arrest of Pickpockets—Railroad Accident.

NEW HAVEN, July 22.—The house of Rev. Henry Townsend, of this city, was broken into this morning, and the family were temporarily absent, and robbed of a large amount of silver plate and some gold coin.

Several pickpockets have been arrested and committed to jail.

An intoxicated Irishman was run over by the cars this morning at Guilford, and had both legs cut off. He is supposed to be dead.

The Hon. Solon Borland.

NEW ORLEANS, July 22.—The Hon. Solon Borland sailed for Pensacola yesterday.

Death of J. Price Wetherill.

PHILADELPHIA, July 24.—J. Price Wetherill, a distinguished citizen of this place, died this morning.

On the 30th of July, by the same, MOSES R. SWAIM to LYDIA KNIGHTS, all of this city.

LOCAL MATTERS.

DEGREES CONFERRED.—Rev. John C. Smith, of this city, and Rev. Andrew H. H. Boyd, of Winchester, Virginia, received the honorary degree of D. D. at the Commencement of Delaware College on the 20th instant, and Judge Chambers, of Maryland, that of LL. D.

The honorary degree of A. M. was conferred on Hugh W. McNeil, esq., of Washington.

The same degree was also conferred upon Rev. Joseph R. Ash, of Kentucky; Rev. Thomas Hempstead, of New York; Rev. D. G. Mallory and J. M. Brickhouse, esq., of Virginia; Rev. S. R. Stewart, J. S. Leach, M. D., and M. Darnall, of Pennsylvania; Rev. G. W. Kennedy, W. Lane, A. M. Wiggins, of Delaware.

J. A. Creswell, esq., of Maryland, addressed the societies of the College, and S. Platt, esq., of Delaware, the Alumni.

CLERICAL.—We learn that the Rev. Ellis J. Newlin, of Hanover, Virginia, has received a unanimous call to the Second Presbyterian Church in Alexandria, of which Rev. J. N. Danforth was formerly pastor; and that on Sabbath next Mr. Newlin will enter upon his duties.

The Rev. George F. Davis, a missionary supported by societies in the Fourth Presbyterian Church of this city, was installed as pastor of the Presbyterian church in Newton, Illinois, on the 8th ultimo.

THE TEACHERS' ANNUAL CONVENTION will meet this year in Cleveland. Next month is the time for its assembling. According to a resolution of the Washington Association they will be invited to hold their next meeting in this city. The citizens of Washington will be happy to extend to them a cordial welcome.

DISTRIBUTION OF PREMIUMS.—The examination of the various public schools having been concluded, the distribution of premiums will take place during the present week: at the Smithsonian Institution on Tuesday, Wednesday, and Friday afternoons, and at the Ebenezer Church, Navy Yard, on Thursday afternoon, on which occasions appropriate addresses will be delivered by friends of public education.

There are three different patterns of silver medals—one hundred and eight in number. The colors of the ribbons attached designate the four school divisions, one from another. The schools of the first district, blue; second, scarlet; third, white; fourth, green. Besides the medals, from one hundred and fifty to two hundred diplomas are to be distributed. The medals were manufactured by Mr. Samuel Lewis, and the chasing and engraving executed by Mr. Wm. Plimpp.

SUB-POST OFFICES.—The city postmaster, we learn, in the course of a very few days, put the sub-post office system into operation. Handsome japanned boxes, for the reception of mail matter, will be placed in ten or twelve different parts of the city. These will be secured by locks, under the control of the carriers, who will gather up the letters for the mail. With a view to convenience, Colonel Berret has procured a large number of post office despatch labels, neatly printed with blue ink; the American eagle prominent in the design. Persons living at a remote distance from the post office and desiring their letters to be conveyed thither, will be required to attach to each one cent label, to be obtained of the carriers, who are to receive the revenue as a compensation for their services.

ASSAULT ON A BOY.—A gentleman boarding at one of the hotels brought action, recently, against another gentleman for striking his child, a bright and sprightly playing among the inmates of the establishment. The boy having been sportively told that he was a coward, took fire—the lion-hearted swelling big within him—and did not hesitate to apply to his accuser language which never will become the lips which quiveringly uttered it. The gentleman, offended at the gross remark, threatened to chastise the lad if he repeated it. He did repeat it; whereupon the gentleman struck him with a small rattan cane, but not hard enough to break his bones, and then put the juvenile out of the room.

The case was brought before Justice Beck. John L. Smith, esq., appeared for the father of the boy, and P. B. Key, esq., for the defendant. Fifteen witnesses gave testimony; some to prove that the boy was bad, and the others the fact of assault. Finally, the justice, after reviewing all the circumstances, expressed the opinion that he did not think the gentleman intended to injure the boy, but merely tapped him for the offensive language; and then the justice dismissed the case.

PREPARING POSTAGE.—It is an every-day occurrence that when servants or children are sent to the city post office with letters and the change to prepay the postage, some of them drop both into the box and walk away, instead of handing them in at the window. Some times letters are first slipped into the box and the money then offered at the window. The clerks are thus subjected to much extra trouble, and we doubt not are often sorely perplexed as to what letters are entitled to the prepay-stamp.

It would at all times be found convenient for our citizens to have a supply of stamps on hand. These would enable them to prepay their letters with certainty, either before or after the post office is closed.

AN OMISSION SUPPLIED.—In our notice of the "Military" on Saturday, we stated "It is in contemplation to order the entire District in celebration of the anniversary of the battle of North Point." The "entire District" regiment was intended. The people of the District, however, would turn out voluntarily to witness the brilliant spectacle which our well-drilled and handsomely uniformed regiment would present on the occasion.

Fruits.—Peaches, from Norfolk, were sold in the Centre Market on Saturday for one dollar a peck; water melons, twenty-five cents a piece. There were abundant supplies of apples, pears, plums, and various kinds of berries. No scarcity of vegetables, nor of any thing else in the way of good eating. Prices as usual.

THEATRICAL.—"The Hunchback" and "A Day in Paris" are to be played this evening at Forrest Hall, by a company of Theatians, assisted by several professional performers.

SALE OF GROUND.—A piece of ground in square 320, fronting 25 feet on G street north, between 11th and 12th streets west, and running back 128 feet 2 inches, was sold on Saturday by McGuire, auctioneer, at 60 cents a square foot, to Mr. Willett.

THE SUBSCRIBER, in removing to his new place of business, returns his sincere thanks to his friends and the public for the liberal patronage extended to him at his Saloon on the Avenue, during his sojourn in that locality. Having from a press of business, and an increased demand for his famous Ice Cream, been compelled to abandon the retail business, and attend entirely to that of the wholesale, he has closed his well-known Saloon, and removed his depot to the above-mentioned street, and in the store formerly occupied by Hatch & Co. as an Oil and Camphine Establishment, where he respectfully informs the public that he will be prepared to furnish them with Creams of all colors, and of the richest flavors, at the shortest notice. He has attached to his depot an Ice Cream Express wagon, in which the article will be sent to any part of the city to moulds of any size, and in any given quantity. Having just received an excellent assortment of moulds from Paris, Dinner Parties, Tea Parties, Balls, Excursions, Pic-nics, Ice Cream Saloons, &c., &c., served in a superior style and with despatch.
