

BALTIMORE CORRESPONDENCE.

Dull Times—City Mortality—Sharks—Cleanliness of the City—New Paper—Stock Sales, &c. BALTIMORE, August 2, 1853.

Our city is indescribably dull at present, a large portion of the active business men of our population having absented themselves for rustication and preparation for an energetic and extensive fall business.

The whole number of deaths in Baltimore during the past week was 136; of which cholera infantum claimed 30, consumption 18, dysentery 22, and infantile unknown 12. Of the whole number 83 were under five years of age.

There is quite an abundant supply of sharks in our harbor, disputing the freedom of the water with swimmers. Baltimore is kept cleaner at present than it has been for many years, the old contract system having been abolished and a city scavenger department duly organized.

It is again rumored that Mr. Baylor, of the Cotton Plant, is about to bring out a daily issue of that paper under the title of "The Press."

By TELEGRAPH. Kentucky Election. LOUISVILLE, August 1, p. m.—The following returns of the Congressional election in this State have been received:

In this city, which forms a part of the seventh Congressional district, Mr. Preston, the Whig candidate for Congress, has 1,250 majority, and is undoubtedly chosen. Wolfe, Whig, is elected to the Senate.

In the Ashland district, Mr. Breckenridge, Dem., is re-elected by a handsome majority. In the fifth district the vote is very close between Hill, Whig, and Stone, Dem., and the result is doubtful. Stone was elected in 1851 by 363 majority.

In the tenth district, Hodge, Whig, beats Stanton. Cox, Whig, elected in the ninth district—both Whig gains.

Scientific Convention. CLEVELAND, August 1, p. m.—The Scientific Convention to-day elected Professor Dana, of New Haven, President; Professor Lovring, Permanent Secretary, and Dr. Elwyn, Treasurer.

Markets. NEW YORK, August 2.—Flour is steady. Sales of 5,500 barrels at \$5 a \$5 1/2 for State, \$5 1/2 to \$5 3/4 for Western, and \$5 3/4 to \$5 62 1/2 for Southern. Wheat is dull. Sales of 3,000 bushels Ohio white at 131 cents. Corn meets with a large speculative demand.

HABITUAL DRUNKENNESS.—The first case which occurred in New Jersey under the law relative to habitual drunkards, passed at the last session of the Legislature, took place at Princeton on Friday, the 29th, and is mentioned in the Whig. The Chancellor issued a commission to three gentlemen, who proceeded to try before a jury an inquisition into the habitual drunkenness of Charles Skillman, and his incapacity to take care of his property. The jury gave a verdict that such was the case, and, according to the law, the orphan's court, on application, must appoint a guardian over him. He is divested of all control of his property, which will be restored on his reformation.

A LOCOMOTIVE WITHOUT RAILS is described by the Courrier des Etats Unis as having been invented and exhibited in operation in Paris, by Alexandre Levor. It was attached to two cars, which it drew along the streets, around abrupt corners, advancing and retiring with ease. It has four wheels with broad flanges.

RAILROAD ACCIDENT.—The railroad train from Montreal to Boston on Saturday, with two hundred passengers, was thrown off the track at the junction of the Lake Champlain road, near St. John's, owing to the misplacement of the switch. Some damage was sustained, but none of the passengers were fatally injured.

MARRIED. In this city, on the 28th ultimo, by the Rev. D. X. JENKIN, D. D., Mr. ROBERT CLARKSON to Miss CAROLINE A. SEIFERT, all of Washington.

DIED. On the 1st instant, CHARLES RICHARD, aged three years and six months, only son of CHARLES H. and MARIA TAYNEN.

A "Str."—A travelling lecturer picked up a candidate for a wife a few days ago in Lynn, whom he selected through his knowledge of "bumps," as he had never known her until an hour and a half before. He procured a marriage certificate and they proceeded to the residence of the girl, who had been nothing loth to accept the offer, found the house of her intended, who had buried his wife four days before, well stocked with children, but having little else in it. She was immediately seized with home sickness, and borrowed money enough to return in the cars.

LOCAL MATTERS.

A FIGHTING CHARACTER.—We heard yesterday of a young man, only nineteen years of age, whose chief delight seems to consist in fighting. Anywhere, at all times, he is ready for a rencontre. On Saturday he assaulted a man near the toll-gate, and, not satisfied with this, he returned on Sunday for a second onslaught. While on this business he beat another individual, and a short time after going back to the premises he tried the strength of his arm and the hardness of his fist on a third person. His mother, even, has been beaten by him more than once. Like the character spoken of in the scriptures, his hand is against everybody. But his sport is suspended for a while, unless he shall select one of the jailors as an object for his vengeance. He is in prison, awaiting trial in three cases of assaults and batteries, and a police officer yesterday showed us an unserved warrant for his arrest on the charge of beating one of his own household.

EXTRAORDINARY ESCAPE.—Shmuel, aged ten years, son of Mr. Henry Polkhorst, unintentionally accomplished a feat, on Monday, which none would voluntarily attempt to imitate. While looking out at a window of his father's printing office, on the corner of Seventh and D streets, the scuttle was raised for the purpose of making use of the hoisting tackle. Something in the street having attracted his attention, he suddenly started to go down stairs, but, being either unconscious or forgetful of the opening in the floor, he stepped into it, and fell through the second and first stories, landing in Linton and Tweedy's grocery store—a descent of about thirty feet! For a few moments it was supposed he had killed himself; but the awful suspense of his parent and friends was agreeably relieved when they ascertained that he had only slightly bruised one of his legs.

JUVENILE PASTIME.—We noticed two little fellows yesterday seated on the garret window-sill of a three-story house on Pennsylvania avenue, not far west of the Centre Market, engaged in card-playing. It was pleasant and cool up there, and besides there was no fear of being interrupted, the "old folks" being down below. The lads spent the entire afternoon in that amusement, and ceased only when the day refused longer to afford them light. They were so absorbed with the interest of the game as to be unconscious that they were observed from the street. Whether they played "old sledge" or "whist" was no concern of ours, but we could not suppress the thought that they might have been more profitably exercised, and that an early knowledge of cards is not calculated to enhance their usefulness in society.

CRIMINAL COURT.—In the case of Wm. Wheat, for an assault upon Francis Smith, commenced yesterday, the jury rendered a verdict of guilty, and the court directed Mr. Wheat to pay a fine of \$5 and costs.

George W. Payne was tried for assaulting Geo. B. Harleston. The case was pretty generally considered an excusable one, and the jury said the accused was not guilty.

Dennis Desman was tried and acquitted of an assault. Henry Williams, a German, was tried for malicious mischief, in cutting and sawing and otherwise injuring a stable, the property of A. E. L. Keese. The difficulty arose out of a dispute as to the building line and the falling of the water from the stable. The jury acquitted the prisoner.

EXCURSION.—The Walker Sharpshooters intend giving an excursion down and up the Potomac on Friday—the steamer Powhatan having been chartered for the occasion. A military and civilian band will be on board, thus affording the passengers an opportunity to engage in the pleasures of the dance. The company pledge themselves to leave no means untried to make this the excursion of the season.

PATENT OFFICE.—The model-room has recently been relieved of much of the trash with which it was encumbered, and the walls have been whitened and the woodwork painted, a renovation long since required. Hundreds of stoves and other heavy ware have been removed to a basement room, and there arranged to better advantage than heretofore. Many weeks will not elapse, we presume, before the models will be transferred to the capacious hall in the east wing of the Patent Office.

BATHING.—On Sunday last officers Wise and Simonds arrested two boys for bathing in the Tiber, in view of the passers-by, and brought them before Justice Thompson, who fined them each two dollars, that being the penalty prescribed by the statute. Juveniles occasionally immerse themselves in the canal, but not in dresses manufactured for bathing purposes. Such model artist exhibitions as they furnish are strictly prohibited by the municipal authorities; but the law, in this as in other cases, is frequently violated or evaded.

BREAKAGE.—Last week a considerable portion of the wooden wall of the Tiber, near the railroad station, and on a line with First street, gave way to the pressure of earth emptied against it, during the process of grading, and since then another part of the wall has been forced into the creek, leaving but one-third of the original defence standing, which is in a fair way to "go by the board."
