

RAILROAD TIME-TABLE.

Table with columns for destination (Evansville and Crawfordsville), direction (GOING NORTH, GOING SOUTH), and departure/arrival times.

Table for Terre Haute and Indianapolis, showing departure and arrival times for various routes.

Table for Ohio and Mississippi Railroad, listing departure and arrival times from Vincennes.

Table for City News, listing various news items and their dates.

CITY NEWS.

I. O. O. F. CELEBRATION.—The Odd Fellows of New Albany are to have a celebration on the 26th inst.

RECORDER'S COURT.—Messrs Cabal & Taylor paid a fine of \$5 and costs yesterday, for permitting sloop to be thrown in the rear of the Crescent City Hotel.

HORSE FAIR.—A Horse Fair is to be held at New Albany on the 22d of May. The arrangements have already been completed, and the premium list made up.

The editor of the Courier, in yesterday morning's paper, talks about "pukes" and "monkeys." He is given to speaking ill of his superiors.

The Courier calls on the Mayor again for an exhibit of the financial condition of the city. We wonder if it is done at the suggestion of "three" heavy tax payers?

OIL.—Our friend Mr. Norton informs us that he visited the "oil regions" in the vicinity of Newburgh, a few days since, a notice of which we published some days ago.

AN OLD CITIZEN DEAD.—In this morning's paper will be found a notice of the death of an old citizen of this county. We allude to Mr. Riggs, who was 69 years of age at the time of his death.

TELEGRAPH LINE FROM NEW ALBANY TO HENDERSON.—The New Albany Ledger learns that at Henderson, Rockport, Owensboro and Cannelton, their quota of stock for the building of a new telegraph line from New Albany to Henderson, has been subscribed, and that it only remains for that city and Evansville to take the balance, when the work will at once be commenced.

WATER WORKS.—The plan for water works, proposed by Mr. Chandler, at the meeting on Tuesday evening, is based upon the theory that underneath the sand bars of the Ohio river are beds of gravel, growing larger in size as you descend.

The plan contemplates the sinking of a tunnel in a bed of the sand bar opposite the city, say six feet in diameter, ten feet below the low water line of the river, running under the sand bar such a distance as may be necessary to secure a sufficient supply of water, the brick to be laid without cement at the ends.

From this tank, which is high enough for that purpose, the water will flow by its own gravity into the third stories of the houses in the city, or higher if it should be thought advisable, and into a reservoir if one should be found necessary.

For the information of our readers, we subjoin the following estimated cost of construction of water-works for Covington, Ky., as calculated by Mr. Jeffrey.

Table listing construction costs: 41,800 lineal feet of distributing pipes, 3,300 lineal feet of main conduit, 11,550 00 Pipes leading from Reservoir, 14,000 00 Fire-proof Engine House, with Tunnel foundation, &c., 20,000 00 Real Estate, Grading and Fencing, 20,000 00 Reservoir to contain 2,000,000 gallons, Valves, Pipes, &c., together with all other articles necessary, 20,000 00 Total, \$157,350 00.

In making the above estimate, Mr. J. states that they are for the most substantial and permanent work; and, as before said, he backs up his professional opinion by offering to contract for the construction of such work at the above-named figures.

DEAD.—The New Albany Lecture Association. It leaves assets amounting to \$67 1/2, which it proposes to bequeath to some charitable purpose.

WATER WORKS MEETING.—An adjourned meeting of citizens of Evansville was held at the Court House, last night, for the purpose of effecting an organization of the Evansville Water Works Company.

The meeting was called to order by Mr. J. J. Chandler, who moved that Mr. Charles Viele take the chair, which motion prevailed.

On motion A. T. Whittlesey and S. F. Horall were chosen Secretaries. The chair then stated that a committee had been appointed to draft articles of Association. It was now in order to hear the report of that committee.

Mr. Baker, on behalf of the committee, reported the Articles of Association as prepared, with names blank, which were accepted.

Mr. Chandler proposed that the Articles of Association be completed by selecting nine Directors. Accordingly the following named gentlemen were selected, and, on motion of Mr. Hornbrook, were chosen such directors: Wm. Heilman, John A. Kietz, J. S. Hopkins, Wm. Baker, J. J. Chandler, W. H. Walker, Fred. W. Cook, Levi Iglehart and Charles Viele.

After which six other gentlemen signed the Articles of Association, by which means the company was organized.

Mr. R. A. Hill then took the acknowledgements of the directors and members. Mr. Chandler then proceeded to state a plan for building water-works.

He submitted that of Mr. John Jeffrey, of Cincinnati, making some remarks on the importance of the enterprise. He said, however, that no man signing the Articles of Association, or subscribing stock, committed himself by so doing to any particular plan.

Mr. McNeely said it would be well to have a Committee appointed, with full instructions as to the plans and costs, and that the estimates, as read by Mr. Chandler, be published in the papers for the information of the people.

Mr. J. S. Hopkins moved that the subscription papers be left at the Mayor's office, and that those wishing to take stock be requested to call there and subscribe at once. The amount of \$7,000 was subscribed on the spot, of which Wm. Heilman took \$5,000.

On motion, the meeting adjourned.

Circuit Court.—The case of Philip Steinbrook vs. Elizabeth Steinbrook, suit for divorce, on the ground of abandonment, was heard and determined yesterday. The case was tried by jury. After hearing part of the evidence, the case was dismissed. Messrs. Denby and Stinson for the plaintiff, and R. A. Hill for the defendant.

Octavia Lewis vs. Hugh D. Rothrock, action for ejectment. Case dismissed. State vs. Henry E. Morton and others, suit on forfeiture of recognizance. Dismissed at the defendant's cost.

John Reinhart vs. Joseph Schulte, action for damages from an assault and battery committed by defendant, in February last, on the plaintiff. In this case the defendant filed a general denial. The case was being tried by jury, and was continued over till this morning at 9 o'clock.

OIL.—We have noticed of late much said by the press in regard to disastrous fires at St. Louis, Missouri, and other points, by which steamboat property to the amount of millions was destroyed, and that the cause has been traced to the explosion of a carbon or coal oil lamp.

LARGE SALE OF REAL ESTATE.—We regret to see that another of our old citizens, who has been fortunate in business in our city, and made a good deal of money, is going to leave us.

WATER WORKS.—We are requested to say that the subscription papers of the Evansville Water Work Company are at the Mayor's office, and all interested are requested to call there and subscribe at once.

SAD ACCIDENT.—A lad named Frank Anderson, 15 years old, was killed on Monday, in Lafayette, by falling from his wagon tongue between his horses, one of which kicked him twice on the head, after which the wagon was run over him, killing him instantly. His mother is a widow and he was a good boy.

Amusements. NEW METROPOLITAN.—A select and fashionable audience greeted the Webb Sisters at the theatre last night. In every character that Miss Ada undertakes, she proves her thorough knowledge of it.

To-night will be presented the "Wandering Boys" and "Po-ca-hon-tas." In "Po-ca-hon-tas" Miss Ada will appear as "Po-ca-hon-tas," and Miss Emma as "Capt. John Smith." This piece, alone, would make a big bill.

ICE CREAM. Adank & Christ, will commence to-day to SERVE UP ICE CREAM, the first of the Season, AND will be constantly prepared to furnish individuals and families with the most delicious Cream, in small or large quantities, throughout the season, on short notice.
