

THE DAILY RECORD-UNION.

WEDNESDAY, APRIL 21, 1886.

THE SAN FRANCISCO OFFICE OF THE DAILY RECORD-UNION AND WEEKLY UNION IS AT 208 MONTGOMERY STREET.

NEWS OF THE MORNING.

YESTERDAY'S storm prostrated the wires on the mountains, and we are therefore without our usual Eastern and foreign dispatches this morning. The storm was yesterday was the heaviest of the season, and unprecedented as late a date as this.

At Downsville the storm raged with terrific fury, and at Forest City ten feet of snow fell. In the vicinity of Napa the lowlands are covered with water, doing great damage to the crops.

A large section of country around Davisville is inundated, two inches of rain falling there in twenty-four hours. At Winters the railroad bridge was washed away, and Putah and Cache creeks are over their banks.

In San Francisco gold dollars are quoted at par; Mexican dollars, 27 buying, 27 1/2 selling. The assessment of 52 cents per share has been received by the Independence Mining Company.

THE STOCK MARKET in San Francisco for the week ending yesterday has presented no features requiring extended comment. There has been the same monotone condition which has prevailed for so long a time and which will be hard to prevail without some good cause.

THE SAN FRANCISCO CHAMBER OF COMMERCE yesterday adopted three memorials to Congress in reference to matters of interest to that city. FRANK WELLS, assistant light-keeper at Point Loma, W. T., is missing, and has probably been drowned.

THE STORM AND THE LEVEES.

The storm which has been raging since Monday morning has already made it certain that there will be very high water in the rivers, and it is therefore necessary that the security of the levees should be put beyond a doubt. It is even possible that we may be about to have a great inundation.

THE STORM.

Most Protracted and Severest of the Season. UNEASINESS AMONG FARMERS. Fears that Great Injury Will Result to Crops.

STREAMS BOILING IN ALL DIRECTIONS. Unprecedented Rainfall—Heavy Fall of Snow in the Mountains. (SPECIAL BY TELEGRAPH TO THE RECORD-UNION.)

San Francisco, April 20th.—The storm continues with unabated fury. The rainfall for April amounts to 5.50 inches, or 14 inches for the season. Fears exist that the grain on the adobe lands will be drowned out, and also that the summer-fallow will fall down and not be able to rise again.

PACIFIC SLOPE NEWS.

Condition of Trade—Railroad Work—Fire Run Over by a Train—Delegates Arrive. PORTLAND, April 20th.—The continuation of wet weather seems to have a depressing effect on general trade matters, and the markets today exhibit very little subject-matter for comment.

Portland, April 20th.—The continuation of wet weather seems to have a depressing effect on general trade matters, and the markets today exhibit very little subject-matter for comment. The wool trade drags, and the aggregate value of the movement is yet light, and will remain so for some time.
