The Carson Mint Question—Plain Talk from Director Burchard.

WASHINGTON, April 30th.—It having been assigned as a reason for the temporary closing of the Carson Mint last November that sufficient bullion could not be purchased to keep the Mint in operation, Representative Daggett, on the 12th inst., addressed a letter to the Secretary of the Treasury, inquiring sundry interrogatories concerning the cost of transportation of uncoined and coined bullion from San Francisco to New York and Washington, from Carson to New York and San Francisco, and from San Francisco to Virginia City, with a view of ascertaining why bullion could not be purchased at such a price as to make it profitable to transport it to the mint.

Director Burchard first notices a statement of Representative Daggett, that the bullion produced in Nevada is to a large extent consumed in the payment of the cost of production, and that the remainder of uncoined gold and silver from the mines, consigned upon the closure of the Mint at Carson, subjects the producer to charges for transportation of his bullion.

Burchard in reply to this complaint, remarks that the Carson Mint is now, and has been continually, open for the deposit of gold bullion and the purchase of silver bullion, and that the purchase of silver bullion and the deposit of gold bullion have been maintained, by means of which gold depositors and silver sellers have been paid the value of the bullion they deposited, and the silver bullion they sold, and that the bullion could be ascertained, but although it has been continually open for the purchase of silver bullion in lots of less than 10,000 ounces at the same rate as at the San Francisco Mint, and although at the same time the Department has been ready to receive and consider offers for the sale of larger lots, yet it has not been able to purchase the 308,000 ounces of silver bullion which have been delivered at the Mint, being but little more than the supply for one month's coinage if the Mint was run to its full capacity.

"This," continues Burchard, "is a difficulty over which the Department has no control. The owners of bullion cannot be compelled to deposit or sell the same against their inclination. The Carson Mint was closed for coinage for the reason that sufficient silver bullion—the deposits of gold being merely nominal—could not be procured at the market rate to continue the coinage operations. The cost of coinage at Carson is slightly in excess of that at San Francisco, because the cost of obtaining supplies is somewhat greater; but this fact was not taken into consideration in suspending the coinage operations.

In conclusion, Director Burchard says that sufficient bullion has been purchased at the Carson Mint to run it until the commencement of the annual settlement next June, and refers to the order given on the 10th inst. for the resumption of coinage operations, but he makes no promise to continue them during the next fiscal year.

Figuring the Strength of Grant and Blaine.

NEW YORK, April 30th.—The Tribune says: Yesterday was Blaine's day. The California Republican Convention is reported to have been "unanimous" for him, and the delegation was instructed to act as a unit. This means twelve votes to the Grant column, and it is an index of the unanimous Blaine sentiment of the Pacific coast. The Blaine sentiment among South Carolina delegates, which was reported to have been the Convention met, is making itself heard. Dispatches received late Wednesday night gave Grant and Sherman each five delegates and Blaine four, but said all would do as they obey their instructions, which were to vote as a unit for Grant. The Blaine Club in Washington now has advice that the Blaine delegates will support the Maine Senator from the beginning. The wish may be father to the expectation, but, in any event, the moral effect of a solid delegation is destroyed. The results of the Maryland Republican primaries show that the Blaine men control 15 counties out of 24, and will, of course, do what they please with the State Convention. One effect to all this is the election of an instructed Grant delegation from Arkansas. This brings 12 votes to the Grant column, and is headed by ex-Senator David Clayton, who liked the first and second terms well enough to be anxious for a third.

Unprecedented Immigration.

NEW YORK, April 30th.—The arrival of 3,850 immigrants at Castle Garden yesterday makes the total for the month thus far 43,291, which is a greater number than ever before landed here in any one month. There has been a large increase in immigration of Hungarians, owing to the terrible distress which prevails in the northern districts. People have been reduced to the lowest depths of destitution. Hundreds of families are fleeing from the sufferings awaiting those who remain. It is said that the emigration of Hungarians are becoming alarmed at the large emigration of their people, and are beginning to consider means to check this depopulation of their country.

Long-Pending Patent Suit Decided.

NEW YORK, April 30th.—The "rivet man" of Levi Strauss & Co. of San Francisco, against H. W. Kinz & Co. of Chicago, for an infringement of the patent for protecting pocket-openings of garments from tipping by means of rivets, was to-day decided in favor of plaintiffs by Judge Blatchford, in the United States Circuit Court. The action has been pending since 1876, and was vigorously contested. Over 400 witnesses were examined all over the United States. The Court overrules the alleged defense, sustaining the novelty of the invention and the ability of the inventor, and holds the defendants to be infringers, and orders a decree against them for a perpetual injunction and damages.

The Wine Market.

NEW YORK, April 30th.—The Bulletin says of French brandies and wines: Prices are very firm in all the markets. Wines from

the center of France and white wines are very scarce, and new Chateau wines, although poor in color, are quoted at 105 francs per tierce. There is no doubt that wine will command high prices during the year, whatever may be the outlook for the crop. A letter from Comdom, April 11th, says: "Some samples of 1879 and 1878 were presented at the market, but most of them were very inferior in quality. The vine is progressing favorably, but old stocks are backward. The market in general is very firm."

L. Sackett and Richard King, illegally allowed Neill, the County Treasurer, \$14,000, and McKinnis, the Register, \$8,000, for services in conducting the same, and that Warren and McKinnis were immediately arrested and placed under \$8,000 bonds each. The Silver Market.

LONDON, April 30th.—Yesterday's rise in the price of silver was in consequence of the announcement that the amount of India bullion offered Wednesday would be reduced five lakhs, making a reduction of £1,000,000 in the weekly total since the commencement of the India financial year. This caused a decided improvement in the rate of exchange with India and China, and the silver market naturally became very firm, though there was a business done, in consequence of the exhaustion of supplies.

Speculator to Old Miner in Leadville, handing him a bag of samples: "Gold quartz or carbonates?" The honest miner turned it over in his hand indifferently, took out his knife and picked at it awhile, and then asked, "Got much of it?" "Thousands of tons," answered the other eagerly; "how much do you suppose she'll run?" "Can't tell nothing without an assay." "But you can guess, can't you, you can guess?" "Oh, yes, anybody can guess; but a guess is liable to be extravagant. Now, I should say—mind ye, I may go over the mark—I should say-y (turning the specimen over again and holding it up to the light) that you have got lead that if you can save the gold in this and catch the silver, and not waste the lead, that it might run about—well, about \$2 to the country."
