

Signal Report for July 16, 1880. Table with columns for time, bar, wind, rain, and other weather metrics.

Weather Probabilities. Wednesday, July 16th. For Pacific: Clear or fair weather.

ADVERTISEMENTS MENTIONED.

Metropolitan Theater—Sunny South. Madame Charlotte in French dressmaking. Indian Lodge, No. 21, A. O. U. W., to-night.

LOCAL INTELLIGENCE.

POLICE COURT.—Fred McKenzie and Thomas Dunn, for battery on the Chinaman on R street last Sunday, fined \$12.50 each, and commitment withheld.

WARRANTS ISSUED.—Warrants were yesterday issued by the State Controller as follows: To Whittier, Fuller & Co., for repairs to roof of State Library, \$517.90; to A. Ehrenfort, for same, \$377.35; to J. G. Davis, for repairs to State Capitol building and furniture, \$692.25.

DOVE SHOOTING.—There are large numbers of doves at present taking in the sports of dove-shooting, but it is a general expression of opinion among those who have been out, that it is one for getting much game. Doves are not as plentiful as usual, or at least are more scattered, as the greater amount of water this season prevents the necessary watering of the plants by fresh selection, or by watering them out in the sunlight a considerable portion of the time.

ARTICLES OF INCORPORATION.—Articles of incorporation have been filed with the Secretary of State of the New Toledo Gold-quartz Mining Company, to carry on a general mining business in the Tuolumne District, California. A capital of \$100,000.00 has been subscribed, and the following Directors elected: W. B. Clements, A. Jenks, A. Wright, R. C. Clements, J. B. Crocker, Jr., A. O. of the Thunder Powder Company of San Francisco. The Directors are Wm. Sherman, E. G. Waite, F. M. Prater, G. W. H. Prescott, W. W. Dodge, W. M. Stewart, Chas. De Lacy; and the capital stock is \$100,000.

COMMERCE REPORT.—The following freight for Sacramento passed Ogden on the 14th: For Huntington, Hopkins & Co., 1 drum iron bolts; H. C. Kirk & Co., 1 bag and 5 boxes of drugs, 1 box machinery; Baker & Hamilton, 1 box machinery, 1 box powder flasks; E. C. Higgins, 4 boxes drugs; Whittier, Fuller & Co., 1 box moldings; M. Kestler, 6 bundles wire springs; L. K. Hammer, 1 box machinery; J. G. Davis, 16 cases chairs; J. F. Hill, 18 iron wagon axles, 1 box axles; P. F. Stoll, 1 box hardware.

FREIGHT MOVEMENTS.—The following car loads of freight were received in this city yesterday: One of nails, 5 of steel rails, 4 of sand, 2 of wood, 2 of shingles, 1 of merchandise, 1 of lumber, 1 of fruit, 1 of granite, 2 of lime, 2 of sheep, 2 of iron, 1 of grain, 1 of coal. Car loads were shipped East as follows: One of canned fruit, 1 of coal, 1 of merchandise, 1 of salmon, 2 of wool, 2 of merchandise, 1 of rice, 2 of quicksilver.

DAMAGES WANTED.—A suit was brought yesterday in Justice Hayes' Court, by W. W. Smith against A. Cool, claiming \$299 damages for injuries received on the 5th of July by the fall of the awning at the corner of Eighth and K streets. If this case establishes liability on the part of defendant, other suits will at once be brought for injuries received on the same occasion.

AGRICULTURAL DISTRICT No. 2.—The Board of Agriculture for District No. 2 has been appointed, as follows: E. C. Sargent, J. A. Shepherd, L. U. Shippey, H. W. Weaver, Fred. Arnold, James A. Lott, J. E. Moore and J. H. O'Brien. This district is composed of San Joaquin, Calaveras, Fresno, Kern, Merced, Mariposa, Stanislaus, Tulare and Tuolumne counties.

THE CLEAR WATER QUESTION.

An Examination of the Talked-of Artesian Wells near the City.

The clear water question is the chief local topic just now. Thursday a reporter of the RECORD-UNION went out to examine the Sanborn wells, concerning which all sorts of rumors and street talk prevailed. They are on the lands of C. Sanborn, one mile beyond Thirty-first street, and just below the old beaver-works. The wells are sunk in the bed of Bonita slough. The head of that slough on Sanborn's place. One can walk around the head of it in a few strides, within 10 rods of the wells. The levels run show the wells to be several feet above the level of Eleventh street—two or six at the least. All the wells are within a strip of land 20 feet wide and 250 feet long. No. 1 is 70 feet deep and 4 1/2 inches wide. The water flows from it a cool gushing stream three feet above its mouth. No. 2 is 90 feet deep, 6 1/2 inches diameter for 60 feet, and 4 1/2 for the lower 30 feet. The water spouts out four feet above the mouth of the well. No. 3 is 60 feet deep and 4 1/2 inches in diameter, but the well is closed now, as the flow was so great it kept the waters of Bonita slough too high. No. 4 is 60 feet deep and 4 1/2 inches in diameter, and the water is now conducted into a hydraulic ram, which by its pressure forces the water twenty feet above the level of the slough. Two of the wells were sunk ten months ago, and two eleven months ago. They have at no time shown, says Mr. Sanborn, any diminution, nor has the slough dried up at any time during their flow. Hence, he reasons, that the supply is independent of the river, and that he has struck a lower water vein. The water is sweet to the taste, clear as crystal, as soft as river water, and from the surface of the well gas bubbles constantly rise. The wells were bored with a common well augur, and are no more than a casing, but as simple holes in the sand. They were not sunk to receive, therefore, some supply of water or sewage water, but if tubed they would be shut out. Nevertheless, not the slightest brackish taste is apparent. The lucid streams that gush from these wells seem to plunge into the pure flood. The water varies in temperature from 60 to 70 degrees, but is cooler than the river water, apparently. Nearly, if not all, the water now running down Bonita slough comes from these wells, and at Sanborn's place the slough water is four feet deep and fifteen feet wide on the average. These wells are the only flowing wells of which information is given. Inquiry developed the fact that Sanborn pumps up for irrigation 20,000 gallons per day from a pool in the slough supplied by the water from these wells. Sanborn thinks that if the closed well was open and artificial power applied to draw from the wells they would supply double the quantity, as they now flow under about four feet of pressure. It is probable that the wells could be made to greatly increase their supply by the application of pumps. Sanborn thinks he has got a good thing in these wells. Others evidently think so, too, for capitalists have visited the place and propose to sink more wells to a greater depth and tube it as an experiment. But artesian wells are found elsewhere. Mr. Rose is the authority for the statement that he has no difficulty in sinking them to a greater depth and getting plentiful supplies of good water. The RECORD-UNION representative also visited Scheel's brewery, Twenty-eighth and M streets, and saw an artesian well 200 feet deep, 6 inches in diameter, in which the water rises to within 15 feet of the surface. It has been in use many years. The water is sweet and pure, and as pleasant to the taste as any could desire. It is used and has been for years in the manufacture of beer there. The man at the works declares it to be the best drinking water in the State. Two heavy steam pumps lift from the well. One is a powerful boiler pump. They have never been able to lower the water materially. In one hour they fill three casks estimated to hold 20,000 gallons. This gives 200,000 gallons for every ten hours of work, but it was not possible to exactly test for ten hours as ever been made. The workmen at the brewery believe that twenty-four hours steady pumping would not lower the well an inch, if two or three 20,000 gallon casks per twenty-four hours with its present pumps. But these are mere estimates, for no accurate measurements have been made. At Wells' farm a very constantly-supplying well of good water exists, and shows no diminution, though in use several years. The well at the Natividad, between Tenth and Eleventh, is about 115 feet deep. The water is pure and sweet, and many families now use it. It rises within fifteen feet of the surface. This seems to be an inexhaustible and ardent admirer of the well say it will supply from 250,000 to 500,000 gallons per day with ease, and think it would do even better with machinery of proper capacity.

Section 1. The use of all water now appropriated, or that may hereafter be appropriated, for sale, rental, or otherwise, is hereby declared to be public use, and subject to the regulation and control of the State, in the manner to be prescribed by law, and otherwise than as established, shall force be levied by any person, company or corporation in this State for the use of water supplied to any city and county, or town, or the inhabitants thereof, shall be fixed, annually, by the Board of Supervisors, or city and county, or city and town Council, or other body of such city and county, or city or town, by ordinance or otherwise, in the manner to be prescribed by law, and such ordinance or resolution as passed by such body, and shall continue in force for one year and no longer. Such ordinance or resolution shall be passed in the month of February of each year, and take effect on the first day of July thereafter. Any Board or body failing to pass the necessary ordinance or resolution fixing water rates, where necessary, within the time specified, shall be deemed to have assented to the rate of one cent per gallon for every party interested, and shall be liable to such further proceedings as may be taken by any city and county, or city or town in this State, otherwise than as established, shall force be levied by any person, company or corporation collecting water rates in any city and county, or city or town in this State, otherwise than as established, shall force be levied by any person, company or corporation collecting water rates in any city and county, or city or town where the same are collected, for the public use.

Section 2. The right to collect rates or compensation for the use of water supplied to any city and county, or town, or the inhabitants thereof, shall be fixed, annually, by the Board of Supervisors, or city and county, or city and town Council, or other body of such city and county, or city or town, by ordinance or otherwise, in the manner to be prescribed by law, and otherwise than as established, shall force be levied by any person, company or corporation collecting water rates in any city and county, or city or town in this State, otherwise than as established, shall force be levied by any person, company or corporation collecting water rates in any city and county, or city or town where the same are collected, for the public use.

Section 3. The right to collect rates or compensation for the use of water supplied to any city and county, or town, or the inhabitants thereof, shall be fixed, annually, by the Board of Supervisors, or city and county, or city and town Council, or other body of such city and county, or city or town, by ordinance or otherwise, in the manner to be prescribed by law, and otherwise than as established, shall force be levied by any person, company or corporation collecting water rates in any city and county, or city or town in this State, otherwise than as established, shall force be levied by any person, company or corporation collecting water rates in any city and county, or city or town where the same are collected, for the public use.

Section 4. The right to collect rates or compensation for the use of water supplied to any city and county, or town, or the inhabitants thereof, shall be fixed, annually, by the Board of Supervisors, or city and county, or city and town Council, or other body of such city and county, or city or town, by ordinance or otherwise, in the manner to be prescribed by law, and otherwise than as established, shall force be levied by any person, company or corporation collecting water rates in any city and county, or city or town in this State, otherwise than as established, shall force be levied by any person, company or corporation collecting water rates in any city and county, or city or town where the same are collected, for the public use.

Section 5. The right to collect rates or compensation for the use of water supplied to any city and county, or town, or the inhabitants thereof, shall be fixed, annually, by the Board of Supervisors, or city and county, or city and town Council, or other body of such city and county, or city or town, by ordinance or otherwise, in the manner to be prescribed by law, and otherwise than as established, shall force be levied by any person, company or corporation collecting water rates in any city and county, or city or town in this State, otherwise than as established, shall force be levied by any person, company or corporation collecting water rates in any city and county, or city or town where the same are collected, for the public use.

Section 6. The right to collect rates or compensation for the use of water supplied to any city and county, or town, or the inhabitants thereof, shall be fixed, annually, by the Board of Supervisors, or city and county, or city and town Council, or other body of such city and county, or city or town, by ordinance or otherwise, in the manner to be prescribed by law, and otherwise than as established, shall force be levied by any person, company or corporation collecting water rates in any city and county, or city or town in this State, otherwise than as established, shall force be levied by any person, company or corporation collecting water rates in any city and county, or city or town where the same are collected, for the public use.

NEW STEAMER ARRIVED.

The new steamer Modoc, making its first trip from San Francisco to this city, arrived last evening at about half-past 8 o'clock. It was expected much earlier in the day, but did not leave San Francisco at the time anticipated, and also met with an accident on the way by breaking a cut-off dam-frame. This was not caused by any defect in the machinery, but through gum collected from use of bad oil, by which a valve caught in the steam chest. It occurred just as the boat was leaving Laleton, and she was thereby detained four hours, when, after making the best of the situation by using one engine with full strain, against the other with cut-off, it made the balance of the trip at a low rate of speed. Although the steamer arrived after dark, and the range-way was at once occupied by unloading of her cargo, there was a large number of people went down to see the new arrival. But little, however, could be seen of her last evening. The engine was warm in his praise of the manner the machinery worked with the exception of the slight accident mentioned. A full description of the new boat has heretofore been given. The Modoc, well having special facilities for shipment of freight, having capacity to carry 400 tons, will be popular for passenger service. It will be like to take in the river country, or take an easy ride by water in place of railway travel. It has twenty-one large state-rooms, including the officers', which are very neatly furnished. The ladies' cabin is neatly carpeted with body Brussels and furnished with upholstered sofas and easy-chairs, and all the appointments for the convenience and pleasure of passengers are complete. The boat may be considered a long and beautiful affair, in fact, in case of any accident whatever that may befall her, as she has five water-tight compartments, which together cover the entire length and breadth of the hull; and if three or even four of these should be pierced, still one remaining would prevent her sinking.

The Modoc brought 200 tons of freight upon its first trip, and will no doubt frequently carry nearly double that amount, and make regular time trips. Owing to the accident mentioned in the last issue, the Modoc will resume its trip to-day, and the new steamer will probably lay at the wharf here two or three days for repairs. An opportunity will thus be afforded for the inspection of her by any who may wish to do so. The other new steamer will be ready for running, it is stated, in about two weeks.

METROPOLITAN THEATER.—The Johnson & Cooper troupe produced at the theater last night the drama "Sunny South." The troupe is a very fair one. Some of the actors, as Mr. Allen, Mr. Paul, Miss Allen, Le Claire and Miss Woodhouse are from good stock companies, and do what they have to well. Johnson and Cooper do the eccentric business, disguised as negroes of the old plantation stripe, in the first act are excellent, being minstrel artists of superior merit. They were aided by a troupe of colored men, who gave some of the jokes in a very acceptable and humorous manner. But of the play a divided opinion must be given. It is too long. The prologue might well be entirely omitted, and all its facts told in the first act in a few words. This pruned the play would be much improved, for the audience would not be wearied. The text and the situations are highly melodramatic; indeed, the play is of the Old Bowery stripe, with injured virtue, defenseless orphans, an unconscionable villain, a revengeful witch, especially, representing an angel in the person of a warm-hearted Irishman, a "laughing chambermaid," an unwilling bride and her financially crippled father, a dependent lover, and a woman who winds up with virtue vindicated, vice punished, villainy unmasked, orphans righted, the racial of the pieces killed, the betrayed man dead, and her lover, the hero, restored to the arms of her lover, and all things going happy as a marriage bell. Those who like this old style of the drama will be delighted with this piece, and wonder why on earth Mrs. Emma D. E. N. Southworth is not credited with its authorship. But despite its romantic interest, it is a good play. The sensational situations would be improved if a little more fire was risked in the railroad scene, a little more certainty secured in the movements of the characters. The last night was certainly pleased, and in its delight was altogether too demonstrative. The judicious winking of a club in official hands would have been entirely justifiable in the gallery last night, and the management ought to furnish the official and the club to-night. The "Sunny South" at the matinee performance this afternoon, and as to-night.

CAMP-MEETING AT EAST PARK.—A State meeting of the Christian Church is to be held at East Park, this city, commencing on the 10th of next September and to continue for ten days or more. It is to be a camping-meeting, with all the facilities for eating and sleeping under the grounds. The dancing platform in the Park grove is to be canopied and seated, and will be available for an audience of 2,000. Tents sufficient to accommodate 300 people will be erected by the side of it, and arranged with awnings and screens. It will be a city of tents. A large attendance from all parts of the State is expected, and it is estimated by those having charge of the camp that probably reach as high as 4,000 from abroad. President L. B. Wilkes, of Missouri, and Elder J. H. McCullough, of Indiana, will be present and take part in the services. The possibilities for privileges on the camping grounds are advertised for, and most ample arrangements for accommodation to all who may attend is being provided.

JUSTLY INDIGNANT.—A dead dry horse was hauled and dumped just outside the city limits, near Y and Front streets, by some persons whose ideas of health were limited, and who cared less for injury to others than inconvenience to themselves. After becoming unendurable by a few days in the hot sun, some of the people of that vicinity yesterday showed the indignation by their actions, and are justly indignant at the outrage imposed upon them. Before making the donation to Sutcliffe, a person of this vicinity was taken to a butcher to feed his hogs, which offer was declined. It was then deposited near by in an exposed place, and the indignation of the parties who committed the outrage were well known and have full credit for it.

PERSONAL.—Fred Lutz of San Francisco went east to Battle Mountain yesterday. Mrs. W. W. Shaw and son were in the city during the day, and returned to San Francisco last evening. W. E. Jackson has returned from his trip to the Nevada county. Colonel L. Hartman of Polson has been in the city for the past two days, and celebrated his eightieth birthday with the Pioneers. Professor Robert von Schlagintweit, a gentleman devoted to literary pursuits and travel, and correspondent for German journals, arrived here yesterday on a visit to California with a view to writing up his impressions of the country.

PRESENTATION.—There was presented yesterday by President Miller, accompanied by the Board of Directors of the Sacramento Society of California Pioneers, to Mrs. E. B. Crocker, as a slight acknowledgment of the obligation the Society is under to her, a large group picture of 169 members of the Society. It is handsomely framed. Mr. Miller made the presentation in a very happy and eloquent manner, which was responded to with feeling by the recipient. Mrs. Crocker returned from the mountain lakes yesterday, and the committee members who had been invited to her, immediately called at her residence and made the presentation.

CAMPING PARTY.—Thomas Smith and family, Mrs. E. J. Meyers and daughter and L. Givens, returned yesterday from a trip to Silver creek. They report that plenty of deer and fish abound in that region. They were unable to get near Silver Lake, than twelve miles, owing to about three feet of snow on the ground, but the road will be open to the lake in about two weeks.

AUCTION SALES.—M. Phug will sell at auction this morning at 10:30 at his saleroom, 1016 Fourth street, a lot of second-hand furniture, consisting of a parlor set, rep. furniture, bedroom set, fancy wardrobe, Mason & Hamlin organ, oak stove, bedsteads, chairs, etc. Also horses, bugles, phaeton and harness.

PRICES WILL TELL.—Dray-loads of goods to be opened to-day at the Red House. Look out for bargains in every department, and no mistake.

A NICE KID SLIPPER for ladies, only \$1, at the Red House.

BRIEF NOTES.

Captain J. B. Eads is expected to arrive to-morrow, to take the place of consulting engineer upon the matter of debris and river improvements, and with two or three days will proceed with the Excelsior Hall and the Drainage Commission to personally inspect the rivers affected by debris and plans proposed to remove it.

A farewell banquet was given John J. Clark, architect, right before last at the French Hotel, on the occasion of his being about to leave the city. About twenty-five guests made up the party, and the evening was spent in giving toasts and responses and happy cheer until a late hour.

The Bohemian Club will send forth to the denizens in vicinity of Poverty Hill by holding another shoot on Saturday at 3 p. m., at which time all members of the club will come to present, as business of importance will come before it, but the safest place will be behind it.

Calvary Baptist Church is being greatly improved in its appearance by repainting upon the outside, and it has also received general improvement within.

A Republican rally will be held this evening by the Second Ward Republican Club, at the armory on Fourth street.

Senator Booth will arrive from the East tomorrow morning.

The river mark seventeen feet and one inch last evening.

WILLIS M. CLAYTON'S DEATH.—In a letter received by Mrs. Dr. F. M. Clayton of this city, from a shipmate of her son, Willis M. Clayton, who recently died in London, the particulars of his death are given. The letter states that while engaged in cleaning the side of the vessel, preparatory to painting, it being the duty of the crew to clean the hull, to which Mr. Clayton was holding a gun, precipitating him to a stone pavement, falling a distance of 32 feet, by which he was seriously injured. He only lived an hour and a half, during which time he was entirely unconscious.

POLICE ARRESTS.—Frank Martin was yesterday arrested for disturbing the peace, by officers Ferral and Rider; Wm. Broderick, peit Jarency, by Deputy Constable Knox; James Mackay, by Officers Ferral and Rider; and Delia Gallagher, same offense, by Ferral and Rider.

NATURALIZED.—Yesterday the Superior Court made citizens as follows: George Neale, a native of England, on the testimony of C. Ruff, B. Murphy and J. J. Ankner; M. H. Parker of San Francisco, on the testimony of F. F. Francon and C. G. Clambacker.

BOND FILED.—Yesterday Clinton L. White filed with the County Recorder his official bond as a Notary Public, in the sum of \$5,000, with George O. Bates, William Beckman, E. R. Beckman, and J. C. Clinie as sureties, in the sum of \$2,500 each.

IMPORTERS.

NEW TEA!

We have received TO-DAY, ex "City of Peking," 700 CHESTS NEW TEAS. These TEAS are just from the finest gardens about Yokohama, fresh and sweet, and of our own brands. They are under the following celebrated brands: A. McN. & Co., Extra Choice.

CHOICE FAMILY TEA! COMMERCIAL BRAND. Adams, McNeill & Co., WHOLESALE GROCERS. 91, 93 and 95 Front Street, Sacramento.

HUNTINGTON, HOPKINS & CO., Nos. 220 to 226 K st., Sacramento. Sole Agents on Pacific Coast for BOSTON BELTING CO'S RUBBER HOSE!

STEAM PACKING, RUBBER BELTING, ETC. Junction Bush and Market sts. SAN FRANCISCO. RELIGIOUS SERVICES TO-MORROW.

Westminster Presbyterian Church, Sixth street, corner of L-Rev. H. H. Rice, pastor. St. Paul's Episcopal Church, Eighth street, between I and J-Rev. E. H. Ward, rector. Services at 11 A. M. and 7 P. M. Sunday school at 12:30 P. M.

St. Paul's Episcopal Church, Eighth street, between I and J-Rev. E. H. Ward, rector. Services at 11 A. M. and 7 P. M. Sunday school at 12:30 P. M.

St. Paul's Episcopal Church, Eighth street, between I and J-Rev. E. H. Ward, rector. Services at 11 A. M. and 7 P. M. Sunday school at 12:30 P. M.

St. Paul's Episcopal Church, Eighth street, between I and J-Rev. E. H. Ward, rector. Services at 11 A. M. and 7 P. M. Sunday school at 12:30 P. M.

St. Paul's Episcopal Church, Eighth street, between I and J-Rev. E. H. Ward, rector. Services at 11 A. M. and 7 P. M. Sunday school at 12:30 P. M.

St. Paul's Episcopal Church, Eighth street, between I and J-Rev. E. H. Ward, rector. Services at 11 A. M. and 7 P. M. Sunday school at 12:30 P. M.

St. Paul's Episcopal Church, Eighth street, between I and J-Rev. E. H. Ward, rector. Services at 11 A. M. and 7 P. M. Sunday school at 12:30 P. M.

JULY, 1880! ORLEANS BUILDING, Nos. 1016 and 1018 Second street, Sacramento.

WE HAVE RECENTLY ADDED TO OUR STOCK SEVERAL FRESH INVOICES OF FINE KENTUCKY WHISKIES! ARRIVED VIA CAPE HORN, FOR SALE LOW, IN LOTS TO SUIT.

THE SWAN, A. V. A. & HONTMAN'S HOLLAND GIN, PURE. MERRITT'S PURE RUSSET CIDER! CHAMPAGNES. LOUIS ROCHER, MUM'S, PIPER & CHAS. REPOSIC, GREEN SEAL, EUGENE CLIQUE, ECLIPSE and IMPERIAL (Pils and Quarts).

JAMES I. FELTER & CO., IMPORTERS AND DEALERS IN WINES, LIQUORS AND CIGARS. ROCK & RYE. GEORGE W. OHESLEY, SOLE AGENT, No. 51 Front Street, between J and K.

H. WACHHORST, Gold and Silver Watches, Diamonds and Jewelry. THE LEADING JEWELER OF SACRAMENTO. LARGEST STOCK! GREATEST VARIETY! FINEST GOODS! LOWEST PRICES.

Sign of the Town Clock. NO. 315 J STREET, BET. THIRD AND FOURTH, SACRAMENTO. GREAT REDUCTION --IN THE PRICES OF-- MEN'S, BOY'S AND CHILDREN'S STRAW HATS! STRAW HATS!

STUDEBAKER WAGON, The Best Wagon in the Market. A Large Assortment of FARM, FREIGHT and SPRING WAGONS constantly on hand.

STUDEBAKER BROS. MANUFACTURING CO. J. G. DAVIS, CARPET AND FURNITURE HOUSE. No. 411 K Street, between Fourth and Fifth.

MUSIC! NEW MUSIC! JUST RECEIVED. "THE GARFIELD MARCH" "HARCOCK MARCH" With all the latest CAMPAIGN SONGS. Also, in constant receipt of all the latest publications.

DALE & CO., No. 185 J STREET. NOTICE TO CONTRACTORS. SEALED PROPOSALS WILL BE RECEIVED at the office of the State Capitol Commissioners on 2 o'clock P. M.

WILCOX, POWERS & CO. IMPORTERS AND WHOLESALE DEALERS IN CHOICE WINES AND LIQUORS, No. 505 K STREET. JUST RECEIVED, Car-load of Franz Falk's Milwaukee Export Beer.
