You are as near Carlin as I am to New York. S. E. BELTZHOVER.

The Tribune publishes a fac simile of the letter, and adds: "Oh! yes, Mr. Beltzhoover; but the trouble is, we have proved you a liar. Mere calling names doesn't hurt anybody, and anonymous Beltzhoover, except the black guard that resorts to it. It is the proof that pinches." The Tribune also publishes the following telegrams:

Gold in the Calistoga Hot Springs.

CALISTOGA, September 10th.—A great deal of excitement has existed in this vicinity for the past two weeks over the report that important veins of silver and gold were to be found in gold solution. A. C. Tichenor, of the firm of Tichenor & Dunley, who recently brought the Hot Springs Hotel property, has been at work for the past two weeks extracting gold from the water by a process known to himself and a few other persons. The clear, yellow, yesterday afternoon showed that he had succeeded in extracting \$1,000 from ten barrels of water. The gold is of the highest grade of fineness, and as the springs in the locality are very numerous and the volume of water exceedingly large, it would be useless to attempt to estimate their value if they continue to yield as rich a return as the experiments have proved. Mr. Tichenor says that the dirt adjacent to the springs in the track known as "the hot water field" will pay \$80 to the barrel. The owners will erect suitable works within the next few weeks for carrying on operations on a more extensive scale.
