WE ARE COMPELLED

TO MAKE

An Announcement!

The like of which has never been made before on the Pacific Coast, and under conditions which

HAVE NEVER BEFORE OCCURRED IN SACRAMENTO!

WE started in business here in April last, unheard of and unknown, although our reputation was already established in four counties in California. We found, after careful investigation, that here we could benefit the people and satisfy our own reasonable wishes as merchants, those against whom we would have to compete being

Merchants who have not kept prices down as they should or could, but who have relied upon

sensations to attract purchasers

for their goods.

As soon as we decided to stay, WE PAID CASH FOR THE BUILDING WE HAVE OCCUPIED since our arrival, not expecting that our name and prices would quite so soon be recognized by the public. Our trade, however, has grown so rapidly and strong that we find

OUR BUSINESS NOW DEMANDS

A Building Much Larger

Than the present one. We have to-day in our store a stock that would only find proper space in a building AT LEAST TWICE AS LARGE as we occupy, and our customers are already observing how we are pressed for room. Besides this, our Store is daily crowded with purchasers who require our entire attention from early forenoon until evening. The number of these customers is growing constantly larger, and THE DEMAND FOR OUR GOODS MORE EMPHATIC AND GENERAL.

Our business has really reached that point at which we find ourselves compelled TO ASK A FAVOR OF OUR FRIENDS IN THE COUNTRY, which in itself sounds strange, but becomes necessary for their interests as well as our own. We aim to attend promptly to all who visit us, either for purchases or to examine prices, and in our present premises

We have not the Room or Conveniences

For handling our quickly increasing trade, at the same time giving attention to orders received through the Mail or Express from our country friends. Therefore, as we are daily receiving more numerous orders in this way from the country,

WE HAVE TO ANNOUNCE

That for the present our friends in the interior will do us a favor by abstaining from sending orders to be filled by us in their absence.

The trade as it comes into our store here demands our entire attention, and we do not wish to disappoint Country Customers by receiving their orders, and at times unavoidably delaying them.

WE BELIEVE IN FAITHFULLY SERVING THE PUBLIC

As if their interests were identical with our own, knowing that they will not be slow to appreciate our action.

This announcement is for a short interval only, as we are now making arrangements for the CASH PURCHASE of a piece of property suitable for a business on a much larger scale than we have now.

THE PUBLIC WILL RECEIVE DUE NOTICE when the time comes, and we will then be prepared to fill Country Orders in the most satisfactory manner.

Thanking the people for their readiness to examine our methods and prices, and for their eager sanction of our efforts so far in the reduction of prices in this city,

We remain,

HALE BROS. & CO.,

Visitors from the interior will receive special attention.

The Great Republican Parade in New York.

AN IMPOSING DEMONSTRATION.

General Grant Reviews a Procession of Over 50,000 Voters.

Republicans Stunned and Fired Upon and a Negro Shot Dead.

(SPECIAL BY TELEGRAPH TO THE RECORD-UNION.)

NEW YORK, October 11th.—The parade of Boys in Blue and kindred Republican Associations to-night in honor of General Grant was a brilliant and imposing spectacle.

A feature of the demonstration was the number of business men and employes in the line. The associations in this city parading were many in number and strong in membership. They were well reinforced by visiting members from a distance of fifty miles in every direction. Brooklyn sent very large representations of political clubs, and New Jersey, Staten Island and Long Island. The Hudson river towns and those on the line of the Hudson Railroad were scarcely behind. Every man carried a torch or lantern. Those who had direction of the procession made provision for the great numbers who participated, and all easily found their designated place to form preparatory to the march. Special trains were run from points 100 miles or more away to meet the thousands of people coming to view the spectacle. Brooklyn, Jersey City and adjacent cities and towns crowded with thousands of sight-seers, who, supplementing the population of New York, gave to the city a crowd and commotion in the reviewing stand, which was representative of the population of New York. Stop and vantage ground from which could be had a view of the parade was filled with people. General Grant, leaning upon the arm of General Chester A. Arthur, at 10:55 stepped in the reviewing stand, which was representative of the population of New York. Both gentlemen were enthusiastically received. At half-past 11 the end of the procession reached the reviewing point. It is estimated that there were between 40,000 and 50,000 men in line.

NEW YORK, October 12th.—At 11 o'clock the great procession is not yet over. There was never a demonstration in the city or country that rivaled it. There were 50,000 men in line, and it is well known that thousands deserted and went home after standing in position without moving for more than five hours. An observer who left the scene at 12:30 found 15,000 stretched away for miles who had no opportunity to move and who did not have for hours to come. The procession contained no triumphal cars, drawn by six horses, and no military devices, to take up room and time. But it was simply a solid crowd of Garfield veterans and nothing else. Portraits of Garfield, Grant, Arthur and Comstock were loudly cheered. Indeed it was a feature of the occasion that the enthusiasm and applause on the part of those who viewed the procession were quite equal to those expressed by the men in line. Hancock men were evidently scarce, and were certainly mist and subdued, only making themselves heard in sneers and jeers as the negroes passed. The representatives of the different wards and precincts in line were most enthusiastically cheered, and seemed to show in that respect the drift of popular sentiment. Altogether, it was a decided encouragement to the Republicans, and a corresponding damper on their opponents. So far as known there was no accident or anything approaching a riot, though the riotous element near the river front, were subjected to a good deal of a good-natured character.

NEWSPAPER OPINIONS.

The Herald says: "It was the finest spectacle of the kind ever witnessed in New York, so brilliant as a scene of display as it was a magnificent compliment to the hero of the war."

The Herald says the parade numbered 52,000.

The Sun says half of those engaged in the parade were Democrats, and received \$3 per man.

The World ridicules the procession in a short news article but has not a word of editorial comment.

The Times says: "With over 60,000 men in line, parading before more than 900,000 spectators, and with a display of enthusiasm that seemed almost immeasurable, the demonstration of last night was one of the most important of the year."

The Tribune says: "The parade was a most remarkable and noteworthy of the kind which the city ever witnessed. The procession was not only remarkable for the number of persons—and all men at that—but for the high quality of the men who took part in it. The parade was a most important of the year."

CHICAGO, October 12th.—The Times-Mirror, Ind., says: "At 11 o'clock last night a courier rode in, stating that while Dr. Dorch, formerly a prominent Democrat, and a recent convert to Garfield, was speaking in a school-house in the northern part of the township, a storm of stones came dashing through the windows, injuring numerous persons. Several pistols were fired. On emerging from the school-house the Republicans received another shower of stones. The Inter-oceanic Canal—Objections Set at Rest.

NEW YORK, October 12th.—The World has the following: "The following communication is specially interesting, in that it meets some of the objections to the Panama inter-oceanic canal set forth by Chief Nimms, of the Bureau of Statistics, in his recent treatise on the subject, and will effectually set at rest all future objections of that kind."

UNITED STATES HYDROGRAPHIC OFFICE.

WASHINGTON, September 23, 1880. Rear Admiral Daniel Ammen, U. S. N.—Sir: In accordance with your verbal request, I have caused to be compiled from the records of this office the information which you desire in reference to the percentage of calm and variable winds which prevail in the vicinity of Panama and on the coast of Nicaragua in the bay of Panama, and of 1,758 observations on the coast of Nicaragua, in the vicinity of Brito, and in each case covering roughly about the same extent of ocean, it appears that calm and variable winds at the former locality amount to eleven per cent. of the whole number of observations, while at the latter they amount to five per cent. In order to reach the region of trade winds sailing vessels from Panama to the Isthmus of Panama, California or the northwest coast, in coming out of the bay and afterwards, will be obliged to make 400 miles from Panama to the Isthmus of Panama, before refining themselves in as good a position to make their way to the coast of Nicaragua. Very respectfully, J. B. F. DEKRAFFER, Captain U. S. N., Hydrographer.
