MECHANICS' STORE.

WASHINGTON.

## AS UNKNOWN STRANGERS

We entered Sacramento Eight Months Ago,

## WITHOUT ANY TRUMPET BLASTS

To announce our arrival, we started into business at No. 312 K street.

We desire to impress upon the mind of the public that we are offering for sale DRY GOODS at prices that will prove beneficial and of interest to our customers.

COMPARE OUR PRICES WITH THE PRICES OF OTHERS!

## HALE BROS. & CO.

There were many OWLISH PROPHETS, and some whose judgment generally deserves respect, who declared emphatically that a freak of insanity must have prompted us to open business in so desolated a portion of the city, and so far up town. We firmly believed, however, that our location was convenient for the general public, and that any reasonable point could be made a business center. PROVIDED THE HOUSE ATTEMPTING THE TASK FITTED ITS PRICES AND CONDUCTED ITS AFFAIRS IN A MANNER TO MERIT STRONG PUBLIC APPROVAL.

In this we were not mistaken, for our success in Sacramento has been remarkable, so that to-day the movements of

Polite customers are in attendance to wait upon those who may wish to price and compare our goods. Samples are cheerfully cut and given to who desire them, so as to enable all to

COMPARE!  
CRITICISE!  
and JUDGE!

We Invite Comparisons and Criticisms, for the Price Marked on Each Article Shall Speak

## VERY PLAINLY!

In fact, so plainly, that a little reflection will convince the INTELLIGENT and ECONOMICAL HOUSEWIFE that it is greatly to her interest to purchase at our house—not alone large bills of goods, but even such trifles as a Paper of Pins, needles or a Thimble. No matter what distance you may have to walk or ride before reaching our Store, we shall see that IT WILL PAY WELL TO DO SO.

Not merely among rival merchants, who are of course very deeply affected by our success—at the public may notice—but AMONG THE INTELLIGENT CLASS OF CONSUMERS, who know what good value in DRY GOODS means.

## THE TOPIC OF TOWN TALK,

Not merely among rival merchants, who are of course very deeply affected by our success—at the public may notice—but AMONG THE INTELLIGENT CLASS OF CONSUMERS, who know what good value in DRY GOODS means.

It is therefore with reasonable pride that we point to the very large and continued increase in the bulk of our business—the increase really demanding larger and more suitable premises to enable us to respond to the wants of purchasers and visitors.

## We Have Accordingly Moved

Until that time is necessary for us to REMAIN CLOSED, in order to prepare for promptly serving our friends who may visit us when we open.

To those who know us, we say:

You will find that as our business advances, we will not imitate those who have enriched themselves by deceiving the public.

You will find us true to our promises, and aiming to deal justly, honorably and plainly with the community, while we continue to be

for Garfield. It is said that Garfield's son was named after him. Sherman's friendship for Ord dates back many years, they having served in the same company together in early life.

In the matter of the retirement of General Sherman, the General has lately repeatedly stated to intimate friends that he should celebrate his sixty-second birthday, which occurs in April next, by voluntarily retiring from the army. He can retire on three-fourths pay, which is about \$10,000 a year. This will give Sherman the chance to command the army, although the President and General of the Army expires with Sherman's retirement or death. If he should retire, as contemplated, it is possible that Congress will revive the office again and give it to Grant, unless provision is made for him before that time, which is more than probable. Indeed, among members of Congress there is considerable unanimity on the subject.

**Appointment—Weather—Escape of a Convict—Trains Delayed—Wheat Market.**  
PORTLAND, December 8th.—W. D. Hare, Collector of Customs at the port of Astoria, has appointed Albert Blair keeper of the new lighthouse on Tillamook Rock. The weather here is warm and pleasant. One of the convicts at the State Penitentiary made his escape from the keeper's quarters today, and has not been recaptured. The recent snow-storms and the rapid thaw following have caused several heavy landslides along the West Side division of the Oregonian Railway. Considerable delay to trains has resulted. A large force of men is engaged clearing the track. The wheat market remains dull. The lack of tonnage and the probability of higher charter rates than have already been paid renders shippers cautious, while holders show no anxiety to sell. The market is a shade weaker to-day, and \$1 45 per cental may be called the basis of the market, though a good lot on the wharf might bring an advance of 25 cents.
