

OUR BOOK TABLE

THE BAUSH-PLATON ROGERS THE SUN-BEATING GIRLS

Garfield's Words—Litha—Scandinavia—Legends—Arne—Schiller—Magnin—Etc.

MARTIN LUTHER AND HIS WORK By John H. Trout, New York: G. P. Putnam's Sons, 1881.

This is an excellent volume—one of the New Plutarch Series. Mr. Trout believes that English literature is unparagonably meager of detail concerning Martin Luther.

Mrs. Spofford has in this small volume given a very interesting and detailed monograph on the nature of service, the causes of complaint concerning servant girls, the false standard of morality by which relative to the word "servant," as applied to cook or chambermaid, the pity, prose and poet of the kitchen, and the conclusion is a radical one.

From the Leonard Scott Publishing Company, New York, we have the "British Quarterly Review" for October, with three able articles on the "Services of the British Empire," "The British Empire," and "The British Empire."

From the same publisher, we have the "British Quarterly Review" for October, with three able articles on the "Services of the British Empire," "The British Empire," and "The British Empire."

From the same publisher, we have the "British Quarterly Review" for October, with three able articles on the "Services of the British Empire," "The British Empire," and "The British Empire."

THE LETTERS OF CHARLES DICKENS

This is the third volume of a work which has already attracted much attention. The letters in this issue are from 1856 to 1870.

A charming novel for boys, with more of the same kind of material. It is a fine treat for boys, and one that young readers will fully appreciate.

The "Sanitarian" (N. Y.) for November, presents a very interesting and useful article on the "Widow's Magazine" for Young People.

From the same publisher, we have the "British Quarterly Review" for October, with three able articles on the "Services of the British Empire," "The British Empire," and "The British Empire."

AGRICULTURAL

METTER PREPARED SPECIALLY FOR THE "RECORD-UNION" An Important Convention—The State Viticultural Meeting and Grape-Vine Pests—The North Winds—Etc.

The State Horticultural Commission has ordered its President, C. H. Dwinelle, to call a State Convention of fruit-growers, shippers, packers, nurserymen and others interested in horticulture in California.

The Barbed Wire Monopoly. It seems that the Washburn & Moen Manufacturing Company have not altogether a clear field in their endeavors to secure a monopoly in their favor on the claim of a monopoly of all valuable styles of wire fence.

Prospects of a Late Seeding Season. The continued dry weather and north winds are shortening the seeding time for wheat.

Blue grass improves on the same ground for year after year. It is estimated that not more than one acre of land in a farm in Vermont is planted to corn.

The State Viticultural Meeting and Grape-Vine Pests. It is planned that a large area of land will be planted to grape vines in the State this season than ever before.

A Peculiar Case of Somnambulism. A case of somnambulism which, according to the statements furnished to the Herald, would appear to be worthy of extended investigation.

The North Winds and the Dry. These north winds only dry up the grasses, but they dry up the soil, even when the cows are well fed with good milk-producing food.

When six young ladies sit down to talk about a new dress pattern a small boy with a tin horn is a refuge for the weary.

"QUARTIER LATIN."

ONE OF THE ORIGINAL SIGNS OF PARIS—THE BULLIET. Home of the Bohemian—Romances and Tragedies of the Quartier Latin—Who Live in the Quartier.

Paris would not be Paris without its Quartier Latin, in spite of progress and changes still retains landmarks familiar to grey-haired men, who never pass along its streets or read the names of cafes and brasseries without a heart-throb of emotion and a sigh of regret.

A CHARACTERISTIC FORCE. For each one contributes elements not yet born in the child and almost extinct in the man, and when this force is once aroused it presents the terror of the rabble combined with the moral energy of intelligence.

FACTS FOR FARMERS. Blue grass improves on the same ground for year after year. It is estimated that not more than one acre of land in a farm in Vermont is planted to corn.

The American wheat acreage is spreading in advance of the rate of increase in population, hence larger quantities will be available year by year for export.

The potato is more productive than any other crop, and it is the only one that yields from an equal quantity of ground at thirty pounds of potatoes to one pound of wheat.

THE BULLIET. In fact, it is one of the original signs of the French capital, and all men visit it from inclination, whereas women out of times find their way there through curiosity.

THE USE OF DISINFECTANTS. In the use of a disinfectant a double object should be secured. First, the removal of all odors; secondly, the chemical change of the fetid mass from a state of decomposition and production of noxious gases, rendering it harmless.

THE GENERAL HERD. Who move the soil after the most unscientific methods, and who, after their titles are paid, have little, if anything, to sustain them.

MORMONDOM.

THE HUMBUNG OF THE BLOSSOMING OF THE UTAH VALLEY. The Utah Valley is the scene wherein the District Attorney brought suit to set aside the naturalization papers of Geo. Q. Cannon, the Mormon delegate to Congress.

CANNON'S PAPERS. Cannon secured his papers at a time when they were still in the hands of the Utah Territory. One of the attacks of the Court, presumably the Clerk or his deputy, filled out blank certificates of naturalization and any one with \$30 could buy one, and no questions asked.

SCIENTIFIC SOUPERS. A MECHANICAL COTTON PICKER.—A combination cotton-picker with fingers of iron, which, it is claimed, will make a reduction in the price of harvesting of two cents per pound.

ELECTRIC RAILWAY.—The first electric railway in Upper Silesia has been erected in the town of Katowice.

RAIL TESTS IN GERMANY.—For steel rails the German Railway Union have agreed upon the tests to be made at the works.

PAPER BLANKETS.—A Manchester firm have invented a process for manufacturing paper blankets.

MATERS FROM ELECTRIC WIRES.—The position of the matter from the insurance companies, but, as would appear, without reasoning.

SMALL-POX REVIVALERS IN CHICAGO.—Of 1,339 cases of small-pox here since January 1st, 40 per cent. have proved fatal.

THE POLYGMISTS AND THE GOVERNMENT. The statement that President Arthur will carry out Garfield's idea of stamping out polygamy does not disturb the Mormons.

THE PRINCESS OF BAGDAD.

"Gray Hair" is a beautiful novel, the occasion, at the sonvenir of which he kindles the fire of his youth, but as lambugo and rheumatic pains have become his companions he is found at night, so that "La Princesse de Bagdad" is a story of a young man who remains away a shorter time abroad.
