The cattle disease now prevails in every portion of England. A MATTER WORTHY IMMEDIATE ATTENTION.

The proclamation of the President of the United States has just been issued for the World's Industrial Exhibition to be held in New Orleans in the year 1884. Not long since we outlined the purpose and importance of this exposition, which promises to surpass any yet given on the continent. The city of New Orleans has secured a no less sum than \$2,000,000 for its promotion, and a guarantee of \$1,000,000 besides for exigencies and unforeseen expense. The Federal Government has not only given countenance to the affair, but will appoint Commissioners to aid in the management. The Government acts in the capacity of a committee of invitation, and will call upon all the civilized nations of the globe to be represented. The exposition, which will be a memorial of the Cotton Centennial, will open the first week in December, 1884, and continue until June, 1885. Last week we pointed out the vital importance to this people of California being represented at this great fair, and the necessity for immediate action with that in view. The Legislature does not meet prior to the opening of the exhibition. There is, therefore, no help to be looked for from the State. Whatever is done must be accomplished by private enterprise. So far as fresh fruit is concerned, the season at which the fair is to be held practically shuts out California exhibits in that line. There is, therefore, all the more reason for special exertions to be made in all other directions. There is but one more harvest season between the date of the fair and this time, and it behooves us, therefore, to improve it in gathering systematically, and with especial care, a full and superior lot of samples of the products of our soil. Now it will be readily seen that we have no time to lose. Action should be had at once. If a Commission is selected now, it cannot formulate plans and address the people intelligently on the subject before the last of January, 1884. The winter will be well consumed in getting the people awakened to the matter, and in arranging just how our exhibits shall be collected and exhibited, while the financial problem involved will require all the time available, since nothing can be done until the probable cost is ascertained and the means of raising the money devised. It will thus be seen that there is no time to lose. Illinois, Iowa, Ohio, Tennessee, South Carolina and several other States have already set the ball in motion, and none of them have a greater interest at stake than California. We need population; we must neglect no means to secure the desirable class; such an opportunity to present our claims to the world in a great exposition is not likely to occur again in this century. Our special relations with New Orleans, it being on a great highway between California and Europe, demand that we shall not neglect this opportunity to benefit ourselves. In due time the Governor will receive the President's official notification and invitation, but the Executive can do nothing more than to urge the people to organize and enter upon the work of preparation. Now it will be a comparatively easy task for every one of the fifty-two counties in

Boy Decapitated by a Car Wheel—The Road Rabbit's General Boy's and Girls' Aid Society—Kind in Golden Gate Park—Revival of shipwrecked Sailors—Etc.

[EXTRACTS FROM SAN FRANCISCO EXCHANGERS.]

BOY BEHEADED BY A CAR WHEEL. A frightful accident happened on Folsom street last 6 o'clock Monday evening, by which a little boy, Harry Murphy, lost his life. As car No. 1 of the Folsom-street line came along from Third street a number of boys suddenly rushed across its track, and the driver, being otherwise engaged and having his back turned, failed to see their danger. Suddenly Harry Murphy was struck by the horse and knocked under its feet, and a moment later the front wheel of the car passed over his body, the head being severed from the trunk and death being instantaneous. He was taken to the Morgue, Leroy Brandage, the driver, was placed under arrest by Officer Moore, who saw the accident, but was released by Captain Short on his own recognizance. Murphy was 6 years of age and lived with his parents, at the corner of Mary and Natoma streets.

FATAL BUSAWAY ACCIDENT IN GOLDEN GATE PARK. As Charles Hickey, a driver of the Pacific Carriage Co., was driving along the road from the Cliff House to Golden Gate Park late Monday afternoon, he met a horse attached to the forewheels of a wagon running from the Park at the top of its speed. He got off his vehicle and stopped the horse and took it in charge. On reaching the top of the first hill he saw two men lying on the ground unconscious. He hurriedly drove over to the spot and placed the men in his carriage, but soon after one of them expired. The body was taken to the morgue, where it was identified as that of Matthew Brady, formerly steward of the steamer Mexico. He was a native of Ireland, 50 years of age, and lived on Grove street, between Golden Gate and Franklin. His companion was Frank Wheeler, a shipwright, living at 298 Valencia street. It appears that Wheeler had lately purchased the horse and wagon and had taken Brady to take him. He could not tell, however, how the accident happened, everything being a blank to his mind.

BOYS' AND GIRLS' AID SOCIETY. The ninth annual report of the Boys' and Girls' Aid Society has been issued in pamphlet form. The report shows that 282 boys and 66 girls were received and disposed of during the year. One hundred and eight of the total number were taken from Courts and prisons, and 173 were provided with suitable homes, the balance having been cared for in different other ways. The records of the Financial Treasurer show a balance on hand of \$1,302.74.

SHIPBUILDING AT NORTH BEACH. Shipbuilding at the North Beach shows signs of revival. In addition to the ferry-boat for the Danabue road now under construction, there are building a steam launch for a laundry company and a steam schooner to replace the lost Mary Winkler. Work on the last named has just been commenced. She is to be about 150 tons burden and to carry 200,000 feet of lumber. White is the builder and Captain Olson and others the owners.

THE SHARON CASE IN COURT. The case of William Sharon, who was arrested last Saturday on a charge of adultery on complaint of W. M. Neilson, came up in Department Two of the Police Court Tuesday morning. W. H. L. Barnes appeared for the defense, and Geo. W. Tyler for the plaintiff. Mr. Barnes stated that Mr. Sharon had gone to Boston, and asked for a continuance of the case for five weeks. The request was granted, and the case set positively for 11 o'clock on Tuesday, October 16th. It is understood that William T. Wallace has also been secured for the defense.

THE MONEY MARKET. A good inquiry is noted for money. Lenders find no difficulty in placing money at 7 per cent. on wheat and other collateral. Notes are discounted at 7 to 8 per cent. There is a good supply of coin in the city, though some of the banks are carrying comparatively light amounts. There has been a good array of grain bills offering this month, which helps out very much. The local savings banks are loaning on city property at 6 per cent. Domestic exchange is quoted at 66 premium for sight drafts on New York and 12 1/2 for telegrams. Bank bills on London are drawn at 49 1/2 for 60 days; commercial bills on London, 50 1/2. Refined silver is in light supply at 44 to 15 per cent. discount; Mexican dollars are in good supply at about 88c for new coined.

THE WRECK OF THE WINDERMERE. The schooner Reliance, which arrived in this port on Friday night from the northern coast, brought down on the second and third officers, boatswain and twelve seamen of the crew of the stranded bark Windermere. All hands were taken to the Sailors' Home. The first officer and a number of the crew remained at Timber Cove to watch over the wreck. When the Reliance left the scene of the disaster, the Windermere was lying with her stern under water.

FUNERAL OF DR. WEISS. The funeral of Dr. Weiss, rabbi of the Shaaray Zedek Synagogue, took place from the synagogue on Sunday afternoon. The Modin Lodge, B'nai B'rith, of which the deceased rabbi was a member, turned out in a body. Rev. Dr. Chan and Dr. A. Telheim delivered the funeral orations. Dr. Weiss was interred at the new Hebrew cemetery, Beth Israel Lodge, several members of the Modin Lodge making remarks over the grave. The pallbearers were Messrs. Mollick, Seligman, Levy and Cohn, of the congregation and Messrs. Ahnsberg, Davis, Brown and Allinberg, of Modin Lodge.

THE WOODRUFF CASE. On the opening of the United States Circuit Court, Tuesday morning, Judge Sawyer stated that the debt case of Edward Woodruff vs. The Northern Bloomfield Mining Company had been set down for trial on Monday, the 24th instant. The case will be heard by Judges Sawyer and Deady sitting in bank.

MISCELLANEOUS. The yacht Nellie won the first prize at the Petaluma Yacht Club regatta Monday. John Hoesch, formerly Secretary of the Board of Health, has been appointed to succeed Thomas K. Griffin, Assistant Secretary of the Merchants' Exchange.

In accordance with the request of District Attorney Sullivan, Judge Wilson has been detailed to assist Judges Toomey and Ferral in the clearing of the criminal calendar.

Fifty-one drunkards arrested on Saturday and Sunday were discharged by Judge Webb Monday, while twenty-five others forfeited \$5 bail. It being a legal holiday, no other business was transacted.

Mrs. Mary Claday, living at 722 Lombard street, died suddenly Monday afternoon. She was a married woman, but lived apart from her husband. She was 40 years of age, and a native of Ireland.

An extension of time has been granted by the State Board of Equalization to prepare more at length the reasons why the assessment roll of this city should not be raised.

Ex-Mayor Kallach has left the city for New York, to be absent several months. He has been invited by the City Council of Ottawa, Kansas, to deliver a lecture at the reunion of old settlers of Franklin county, Kansas, and has accepted the invitation.
