

HORTICULTURE.

SECOND DAY OF THE FRUIT-GROWERS' CONVENTION.

Plan of Organization Adopted - Meeting of the State Horticultural Society.

[SPECIAL DISPATCH TO THE RECORD-UNION.]

SAN FRANCISCO, September 25th.—The second day of the State Convention of Fruit-growers, at San Francisco, was held in the Chamber of Commerce in this city to-day. The meeting was called to order at 10 a. m. by Hon. M. E. Esteo, one of the Vice-Presidents, and in the absence of Professor Hilgard, assumed the Chair. The minutes of the Convention for the preceding day were read by the Secretary, E. J. Wickson, and approved.

The Chair stated that the question before the Convention was the motion to change the amount of capital stock, under the corporation proposed by the committee, from \$100,000 to \$250,000. The motion to change was adopted.

A. T. Hatch, of Suisun, suggested that the Convention hear from those who have had experience in shipping fruit to the East. He asked of the Chair that those who had thus shipped fruit should rise. Nineteen arose.

None of the shippers volunteering remarks, Hon. Chancellor Harrison, of Napa, said he had been appointed to represent the fruit-growers of his section. He thought the action of the Convention was of great moment, as effecting a great and important industrial revolution in the history of the State. His confidence in the great experience and judgment of Mr. Livermore, of the committee which had formulated the plan for the adoption of the Convention, would of itself lead him to endorse the proposition. The system proposed was a representative one, and those who would not be personally interested, and the stockholders themselves, are all to be fruit-growers. Can it be said that these stockholders cannot select a competent director, and that they are not interested? He did not see, therefore, that the objection raised—that it would be centralizing power into a few hands, which might be used to the injury of the fruit-growers—was a valid one. The stockholders themselves create and elect the Board of Directors, and it is necessary to have the directors of the company, and not a single body, so that when cars are shipped from Sacramento, which is to be the principal or central point of the organization, it may not go to a city where the market has just been supplied. It would be the work of this Directors to keep fully informed of every consignment of fruit to the East, and to send a second consignment to a place already supplied. The speaker said he had no interest in this plan beyond to see that system adopted which shall be most successful and advantageous to the interests of all. A similar system to the one under consideration was now in most satisfactory and successful operation in Delaware, and he believed it wise to adopt it here.

A. Block, of Santa Clara, gave his experience and information as to the danger of getting the market points at the East, in the absence of knowledge as to what supply has already been sent forward by others. He thought the proposed plan a wise one, and that by due co-operation the fruit-growers could benefit themselves and the fruit interest.

W. H. Aiken, of Santa Cruz, and Chairman of the Committee upon Organization, said that Mrs. A. H. Dickinson, the other night, in a lecture in this city, had taken the bill by the horns; take it by the tail, and then you can let go of him whenever you are a mind to. In the matter of organization he thought some were desirous to take the bill by the horns, while others were very careful as to even taking hold of it by the tail. But the subject cannot be lightly handled. There is to-day an over-production of fruit in this State, but seemingly a lack in method to dispose of it; a lack of co-operation in the matter of shipping terms and rates. Those who are anxious to pay the minimum prices for it. Co-operation was what was necessary, in order to deal properly with the railroad company. The company is willing to meet the fruit-growers, but the fruit-growers, while not organized, are not in a position to benefit by it. He said he was one of the directors who went to the railroad company to get better terms and Mr. Towne told us at that time that they would reduce the price of transportation \$2.00 per car. "Don't take it," he said, "it will do you fruit-growers no good. You will not get the benefit. It will go into the pockets of the commission men. And it has proved true. Now, if we will organize, we can have the full benefit of reduced rates of freights, and the far greater benefits which may be derived from active co-operation in all matters connected with fruit interests of the State. It was for this reason that he was anxious to have all present join heartily in the organization proposed.

L. F. Moulton, of Chico, desired to have the vote upon the resolutions before the Convention be deferred until next January, and that by letting the editors of the State, especially the Record-Union, discuss the proposed plans, the milk in the cask, he thought, would be gotten out and its real value ascertained. He advised the Convention to go slow.

A. T. Hatch said he had not heard much from any experienced producing shippers upon this subject, and he was not entirely clear upon the subject. He did not believe the majority of the largest producers would enter into the arrangement, and he therefore feared the adoption of the plan would result simply in a division of the Eastern shipping.

R. J. Trumbull said the great difficulty had been heretofore in obtaining rates from the railroad company. Those who were asked for the same rate, but not those who wanted to ship; there was no co-operation, and only small and discovered lots were offered by the growers themselves, and the growers could say to the railroad company, "We will furnish fruit for so many cars a day, or for every other day." Under such a plan, he proposed, the Directors of the corporation could say with perfect assurance to the company, "We will furnish fifteen carloads every other day for shipment to the East, and we will do so much more soon." When this is done, the promise of the railroad officials is already obtained for a reduction to \$300 per car, the fruit to be shipped by special train on passenger-train time. This will be the first result of co-operation, and others as beneficial will follow.

G. M. Gray, of Chico, Superintendent of General Bidwell's orchards, referring to the necessity of a corporation to the end of securing better prices and less expense, said four car loads had been shipped this season from Chico to the East. The freight amounted to \$3,255.92 and the fruit sold for \$4,156.50 in Chicago. Out of this were the further expenses of \$32.20 for drayage, \$416.68 commission, \$270.86 for boxes, \$140 for packing, and \$72 for wrapping paper. This left the full receipts insufficient to pay the expenses by the fruit-growers, and the outgoing does not include the expenses of cultivation, picking and hauling up to the cars. Mr. Gray was earnestly in favor of an organization and co-operation, for if this or some other course was not taken fruit-growers must give up fruit-shipping.

A vote was then taken upon the report of the committee, in which a majority of the corporation of fruit-growers with \$250,000 capital stock and a Board of Directors to have charge of fruit shipments, etc., and it was unanimously adopted.

Mr. Kinney, of Los Angeles, read the following, which was adopted without debate:

Resolved: That it is the sense of this meeting that the matter of transportation matters should receive rates or privileges that will operate to force other individuals to ship or ship through any such favored organization or person. We believe that the rates on public shipments should be reasonable, public and equal to all.

Mr. Block moved that the report and resolutions thus adopted be referred back to the same committee that formulated them, and that said committee complete the details of the plan and report the same to a future meeting.

A. T. Hatch, of the committee, said that inasmuch as he was not only not in har-

FOOTHILLS FRUIT AND VEGETABLES APPRECIATED.

Senator Stanford at Stockton—Justifiable Homicide—Los Angeles Items—Oregon News.

[SPECIAL DISPATCH TO THE RECORD-UNION.]

CALIFORNIA.
Silver Medal for Foothills Fruit.
SAN FRANCISCO, September 25th.—The Mechanics Institute awarded a silver medal to the Foothills Fruit and Vegetable Association for their exhibit of fruit and vegetables.

Senator Stanford in Stockton.
STOCKTON, September 25th.—Senator Stanford arrived by a special train last night, and to-day attended the fair here, which was escorted around the city by a committee of citizens, whose object was to acquaint him with the condition of the fruit and vegetable interests of the town. His visit was most cordial. It had been the intention to tender him a grand banquet, but the preliminary steps were taken, but he signified his preference for a quiet evening of the people. He will receive information to-night at the parlors of the Yosemite Hotel.

Races at Stockton.
STOCKTON, September 25th.—The first event to-day was a pacing race for the 2,300 class, for a purse of \$600. The first heat was won by Ackerman, Pochontas second, and the second heat by Nevada, Ackerman second, Pochontas distanced.

Verdict of Justifiable Homicide.
CHICO, September 25th.—The preliminary examination of H. C. Burson, for the killing of Charles H. Nelson, at Chico, was concluded to-day. He was discharged, the evidence showing justifiable homicide. His wife wept tears of joy when the verdict was announced.

Verdict of a Coroner's Jury.
RENO, September 25th.—The Coroner's jury declared that James McElroy, who was found dead yesterday morning at Reno, was killed by a bullet which came to his death from the effects of a gunshot wound, inflicted by some person unknown.

Teachers' Institute—Leg Annotated.
SACRAMENTO, September 25th.—The Teachers' Institute closed its session this afternoon. It is declared to have been the most satisfactory ever held in the county. It endorsed Byron's method of supplemental teaching, and the use of the blackboard to wait on the Board of Supervisors and urge the establishment of a county reform school for the care of youthful criminals.

Bodies of Indians Unearthed—The Bigamy Case.
SANTA CRUZ, September 25th.—While the workmen were making excavations for the new Catholic Church this morning, they unearthed the bones of over fifty bodies, mostly Indians who were buried in the days of the mission, when the Indians were buried in blankets and without coffins. On some of the bodies were ribbons and pieces of clothing. The bones and shells of a peculiar shape. The bones were placed in coffins and buried in another portion of the old cemetery.

Plaintiff Nonsuited—Three Years for Arson.
SANTA LUIS OBISPO, September 25th.—The case of Gill against the Pacific Coast Railway, in which the plaintiff sought damages for the loss of his property by fire, was nonsuited by Judge Hatch, sitting for Judge Gregory, by granting the motion of defendant for a nonsuit. This was an action against the company for \$200,000 damages, and has been pending in the Court for the past year.

Los Angeles Items.
LOS ANGELES, September 25th.—Berruca Yarb was arrested to-day for horse-stealing. His gang has been doing a regular business between Los Angeles and Bakersfield.

San Francisco Stock Market.
SAN FRANCISCO, September 25th.—The stock market was quiet to-day. The market was generally steady, with a few fluctuations.
