MATTERS AND THINGS AT THE NATIONAL CAPITAL.

Serious Rioting in St. Louis—Topics—Letter from Fred Grant—Foreign Affairs.

[SPECIAL DISPATCHES TO THE RECORD—USING.]

DOMESTIC NEWS.

The Hell Gate Explosion.

NEW YORK, October 9th.—The residents of Harlem and the annexed district adjacent to Hell Gate, near Hell Gate, are being troubled by the dwellers in flats and flimsily-built tenements, are disturbed by the prospect of 250,000 pounds of dynamite, and other explosive being used in the rock bed of the river, near their houses to narrow. The last similar explosion of less than 10,000 pounds jarr'd the rock foundation of many houses, and General Newton himself advises the people to get out of any big rooms in which there is any explosive. He says window panes are less apt to be broken if the sash is raised, and where big windows are fastened to the wall it will be a good idea to take them down. There is no danger to property from flying rocks or anything of that sort. He himself would stand within the explosion if it were not for the gas that will be developed. Troops have been ordered from Governor's Island to the city, and are expected to prevent the nearer approach of vessels or individuals than 1,000 yards. Three hundred police will keep back sight-seers within the city.

[SECOND DISPATCH.]

NEW YORK, October 9th.—The great explosion of nearly 300,000 pounds of dynamite which is expected to occur at Hell Gate, is set for to-morrow morning at 11 o'clock. The work is being done in the immediate neighborhood of the Hell Gate tunnel, and all that remains to be done is to clear out the main shaft and little tunnel. The shaft has been cleared out and fitted with shelves, holds the cells of the great battery which will cause the explosion. Thirty-six wires running to the detonators in the mine, are hanging on a brace, waiting the time when they will be cut. The battery will be the battery which will be the last work done on the rock. Since early morning today, the water has been running into the mine, and it is expected that the whole will be flooded by 6 A. M. to-morrow. It has been decided to locate the main battery and instrument on the island of Astoria steamboat dock, about 1,300 feet from the rock, and wires to complete the circuit will be run to the mine. The mine is now cordoned off by police will keep the crowds at a respectful and safe distance, and owners of buildings in the immediate neighborhood have been notified to vacate them. Steam launches from Government vessels will patrol the river, and prevent vessels from passing.

Letter from Fred Grant.

NEW YORK, October 9th.—A letter printed this morning from Fred Grant to the Record, dated October 23, says: "Your letter asking about the rumor that Ward has stolen the \$200,000 in the firm of Grant & Ward, and paid me \$25,000 in excess of what I deposited with or loaned him (Ward) has been received. As to father's account I have only \$25,000 in the firm of \$100,000 of his own money and deposited there \$20,000 of mother's (\$40,000) belonging to the firm. The balance of the \$100,000 of mother's (\$40,000) deposited to pay for the house on East Sixth street, \$25,000 obtained from the sale of Louie Branch outfit, built while father was President, \$10,000 from the sale of Anglo-American bank stock that mother had owned some years, and \$10,000 from the income and allowances that father had given her, and \$150,000 he obtained from Vanderbilt. My father's expenses were \$22,000. The balance of the \$100,000 that he allowed mother for maintaining the house, \$500 he gave her, and \$25,000 he kept for his own use, but gave most of that away in presents. Father's income and profits outside of the firm of Grant & Ward (after the \$25,000 fund was given to me) was \$100,000 the amount he spent. Father made no investments while in the firm except the \$25,000 left with the firm and the purchase of the securities." The letter then makes a similar statement concerning the writer's connection with the firm, closing as follows: "I have done nothing in the firm, except that I dealt with such men as Fish and Ward. There is nothing in the firm, but believe that father had deceived just as my father and brother were I had been one of the partners. I can truly say that I did not occupy the place my father had in the firm, for I believe the disease was brought on, and his death hastened by the treachery of these men."

Appointments by the President.

WASHINGTON, October 9th.—The President this afternoon made the following appointments: Charles Jacobs, of Kentucky, to be Envoy Extraordinary and Minister Plenipotentiary to the Kingdom of Lombardy; Charles Foster, of Indiana, Consul General at Calcutta; D. J. Harrell, of the District of Columbia, to be Consul General at Genoa; William Henderson, of Arkansas, Associate Justice of the Supreme Court of the District of Columbia; and John M. McKim, United States Marshal for Dakota. Thomas Smith, of Virginia, United States Attorney for New Mexico.

The "No-Action" Letter System.

WASHINGTON, October 9th.—The reports received thus far, it appears that nearly all the Postmasters speak well of the merits of the special delivery system, and business is increasing. The local matter equals the outside matter in volume. The reports show that letters generally have been delivered with surprising promptness. Reading reports the average time required for delivery to be nine minutes, while letters first been received at the department building in this city in seven minutes from the time they were dropped in the post-office.

The Transcontinental Pool.

NEW YORK, October 9th.—Eastern Freight Agent Malcolm of the Adirondack, Tonopah and Santa Fe Road returned from Chicago this afternoon. He said to your correspondent: "I don't think there is any likelihood of our road having the Transcontinental pool. Our road has not served the notice of the other roads as reported, and, as far as I know, will not do so."

Do you believe the Denver and Rio Grande and the Burlington and Missouri main to stay out of the pool?

Well, they have thirty days to patch up in, and I believe Huntington is a man too level-headed to allow the pool to break up, but that rates are strengthening all around. The first knowledge I had of the withdrawal of the Chicago, Burlington and Quincy from the pool was when I reached Chicago. Nothing was known of it in Chicago."

FORMAL NOTICE OF WITHDRAWAL.

St. Louis, October 9th.—A formal notice of the withdrawal of the Burlington and Quincy from the Transcontinental Pool was received by President Oakes of the Transcontinental Pool, this evening. Nothing was known of it in Chicago."

The Street-car Strike at St. Louis.

St. Louis, October 9th.—The situation regarding the strike of street-car men yesterday, but there is a feeling of greater uncertainty and the expectation of further violence. All of the lines are running a few cars, and several of them are doing nearly full service.

LATER.—The quiet of the morning was not long continued, for about noon the strikers began to assemble in knots in various parts of the city and things presented an ominous appearance. The first riot occurred on the Clatsop, where a crowd and several cars were dumped into the gutter and the drivers and conductors were roughly handled. A riot broke out on Pacific Coast.

PAINTS AND OILS.

THE OMAHA IS WELL KNOWN.

It is well known, told of the building of a college through the efforts of ladies connected with the Indian Association, for the benefit of an educated young Indian, a man who has returned from the Hampton school to the reservation, and to have a little farm of their own. Prof. C. Palmer, of Washington, gave a narrative of his visit to the Indian school in California, in whose behalf Mrs. Helen Hunt Jackson labored so earnestly. Hon. Erastus Brooks, of the House, and the death of Helen Hunt Jackson. Tributes were paid to her memory and her work in behalf of the Indians, and the resolution was adopted.

Death of Cardinal McCloskey.

NEW YORK, October 10th.—A. M.—Cardinal McCloskey died at 12:50 o'clock this morning, and was buried in the cathedral by relatives and clergy of his church. [SECOND DISPATCH.]

NEW YORK, October 10th.—A. M.—Soon after 10 o'clock the red tide overtook the Omaha on the tracks of the Union line on O'Fallon street, near Tenth, one block south of the location of Cass avenue. In the row the cars were crowded with people, and the most excited excitement prevailed. There were two mobs in close proximity, and the crowd was so dense that the rioters were thumped very roughly, and the teams were turned loose on the streets.

In the row the cars were crowded with people, and the most excited excitement prevailed. There were two mobs in close proximity, and the crowd was so dense that the rioters were thumped very roughly, and the teams were turned loose on the streets.

NEW YORK, October 10th.—A. M.—Soon after 10 o'clock the red tide overtook the Omaha on the tracks of the Union line on O'Fallon street, near Tenth, one block south of the location of Cass avenue. In the row the cars were crowded with people, and the most excited excitement prevailed. There were two mobs in close proximity, and the crowd was so dense that the rioters were thumped very roughly, and the teams were turned loose on the streets.
