

The RECORD-UNION is the only paper on the coast, outside of San Francisco, that receives the full Associated Press dispatches from all parts of the world.

To all Who Seek Information About California and the Pacific States.

The Sacramento Daily Record-Union and the Sacramento Weekly Union (established in 1850) are pioneer journals which, from early years in the history of the coast, have maintained the very front rank in journalism.

The WEEKLY UNION has the largest circulation of any paper upon the coast. Its readers being found in every town and hamlet on the Pacific slope, together with a very numerous and constantly increasing list in the Eastern States and Europe.

NEWS OF THE MORNING.

FOREIGN.—Large meeting of Socialists at Brussels next Sunday. The Knights of Labor have been placed under the Papal ban.

EASTERN.—No fresh developments in the Cutting affair. The lawyers are still arguing in the Anarchist trial at Chicago.

PACIFIC COAST.—Wm. Crane was killed at San Francisco by a blow on the nose. A dairy barn and contents were destroyed by fire at Marysville.

SOME PLAIN WORDS. We have it, upon the authority of many of our recent guests, that Sacramento would have had fully two or three times the number present Wednesday and Thursday had it been clear to them that the excursion was to be such a grand affair.

When those who accepted our invitation came, however, to their astonishment they found here the broadest hospitality anywhere extended to them.

They found a city overflowing with unostentatious welcome, whose people took them to their homes and seated them on their domestic boards.

They found here greater breadth and heartiness of greeting, more personal attention and careful ministrations to their comforts, less formality and red tape, less marching and tramping, and less occasion for expenditure of money or energy than anywhere else.

They found a city overflowing with unostentatious welcome, whose people took them to their homes and seated them on their domestic boards.

referred to this subject except to point a lesson and put on record the fact that Sacramento was shabbily treated by San Francisco, and that our guests are witnesses to the fact.

The guests of the State, not of San Francisco alone, looked in vain in the press of that city for any statements above mere generalities that encouraged them to come here, and this fact, coupled with the private misrepresentations made to them, impressed them unfavorably regarding the trip.

When next San Francisco asks interior favor for her special benefit, it may be well to remember that she does not recognize the obligations of neighborly reciprocity. Certainly the committees at the Bay were free from blame.

They favored the excursion, that they bought a large block of tickets for it, and used their influence to conserve it. But they were very busy committees, and the positions they held to the guests made their solicitations take on a "matter of course" air.

THE CUTTING CASE.

The claim of the Mexicans in the Cutting case is that it is also enforcing Texas laws, that happen to be precisely the same as Mexican laws regarding lilel.

It should be enough for Mexico to administer her own laws. Cutting published his libel on American soil. It was an offense under the Texas Code. Had it been published on Mexican soil it would have been an offense against the Mexican Code.

MEXICAN ANNEXATION.

Some good will grow out of this Cutting affair. It will augment the knowledge of our people regarding the Mexicans and their methods, and confirm the belief that annexation chatter is folly.

Our neighbor, it is true, but as we understand republics it is incomplete, and is as distant in sentiment from us as if it were not next to us. The independence of the States surpasses that of our American States, and cripples the General Government.

The affairs of the nation are administered very differently from those of the United States. The constitution of the population of Mexico so widely differs from ours that American methods and systems would be wholly inapplicable.

The elective franchise is not the power in Mexico that it is with us. Elections are almost farcical in the manner of their manipulation, and genuine patriotic manifestation of regard for the republic is exceedingly rare.

The mass of the people are so little attached to republican institutions that on the slightest pretext they plunge into revolutions. There is some loyalty to republican principles, some sincere attachment to democratic forms and truths, but as a whole the republic is not anchored in the hearts of the people.

At this moment its greatest strength, its cohesion and its vigor is dependent upon the personality in the Executive chair, rather than in the convictions of the people regarding free government.

Forty-two per cent. of the population is of mixed and Indian blood, with no attachment, worthy the name, for the republic. Listlessness and shiftlessness prevail in the rural parts, and lawlessness and a revolutionary spirit upon the borders.

The powers of the Executive and of the so-called representative bodies more closely resemble monarchial authority than would be possible in our own country.

The nation as a whole is behind the age, ridden by old superstitions, and chained to a past that has no particle of sympathy with the progressive present. It is not such a country, or any part of it, we want for not over 7 per cent. of its citizens would make good Americans.

German search; but, we repeat, we do not see why German authorities should not be glad to have the fellows "go."

The defense of the Chicago Anarchists was as amusing as it was insulting. In effect these bomb-throwers who killed and wounded the officers of the law, defended on the ground that if the police had not interfered with the Anarchist demonstration, no harm would have resulted.

FOLSOM'S FIRE.

DISASTROUS INCENDIARY CONFLAGRATION AT FOLSOM.

More than Half the Business Section Destroyed—Loss Fully \$150,000—Partial Insurance.

Yesterday afternoon about 3 o'clock, in the town of Folsom, in this county, twenty-two miles from this city, on the Sacramento Valley Railroad, a fire broke out that proved greatly destructive, destroying half the business section of the place.

As soon as possible, an engine, with two water cars, was sent from this city by the railroad company. Warden McComb sent a force of guards from the State Prison, a mile away, who did excellent service in checking the fire.

The news of the heavy loss, estimated at \$150,000, was received in this city with universal expressions of regret and warm sympathy for the people of Folsom.

A reporter of the Record-Union, specially telegraphed these details: Folsom, August 14th—A. M.—At 3 P. M. yesterday a fire broke out in Chas. Weber's harness shop, on the east side of Sutter street, in the upper part of the business portion of town.

The flames spread to Miller's furniture and undertaking establishment, on the south, and on the same side of the street Muller's watchmaking establishment, the German Hotel, C. Zimmerman, proprietor; Schuttler, shoemaker; Adams' blacksmith shop and House's marble works. It then crossed Sutter street to the Central Hotel and the Natoma Company's drying establishment.

It crossed from the German Hotel to Miss Mills' millinery store, and next to Sperry's blacksmith shop, destroying it, Mrs. Foster's dwelling and livery stable, a barber shop, Judge Crossett's office, and L. T. Yager's saloon and restaurant. From there it spread to the railroad property, destroying the woodsheds and 200 or 300 cords of wood, burning the track in front of the sheds a distance of 250 feet; J. F. Klump's grocery, Brown & Yager's hardware store, Grace's hotel, Hockell's barber-shop, Mrs. Lewis' frame building, Ecklon & Gable's butcher-shop, L. Joergers' boot-maker shop, Louis Klump's saloon, and many other buildings of little value.

This conflagration is the most serious that has taken place in this town for many years, destroying nearly the entire business portion of the place. The town has no system of waterworks, and the fire was beyond control from the moment it started, leaping from building to building and across the streets with remarkable rapidity.

Men with buckets did what they could to check its progress, but once under headway the citizens could but look on and see their property consumed, powerless to check it. The railroad company sent a locomotive from Sacramento with two water tanks, and did excellent service, and to this assistance the saving of the balance of the town is due.

By their use there were saved 1,000 cords of wood, Foster's lumber yard and other property. The heaviest losers were the Natoma Water and Mining Company, which lost its winery and hotel, a valuable property, and their large new Alden fruit-dryer, which was recently erected at a cost of \$30,000.

The winery had an insurance upon it, but the other property was uninsured. A large quantity of wine vinegar and hay was destroyed. Brown & Yager, hardware merchants, had a large stock and in a brick building; loss, \$15,000; partially insured. L. T. Yager, \$5,000; insurance, \$3,500. C. Zimmerman, loss \$6,000; insured one-half. J. Miller, loss \$10,000; partially insured. J. F. Klump, \$3,000; \$1,000 insurance. Mrs. Foster, \$4,000; about one-half insured. M. Perry, \$1,500; Judge Crossett, \$2,000, no insurance; Ecklon & Gable, \$2,000; Ike Fiel, \$3,000, insurance \$1,500; John Grace, \$1,000; L. Lyons, \$2,000; Mrs. Lewis, \$1,000; J. C. O. Mueller, \$5,000, no insurance; F. M. Odum, \$2,000, no insurance; C. Weber, \$5,000, partial insurance; L. Joergers, \$500; Louis T. Klump, \$2,500; Miss Mills, \$500; railroad company, \$3,500; C. Jolly, \$1,000. Total loss to the town about \$150,000, but which may perhaps figure up to be greater.

The insurance will not foot up to more than \$35,000. A man by the name of John L. Houx had his head badly hurt by a falling bucket. Six brick buildings were destroyed. The fire was checked by Burnham's brick building on one side of the street, and Smith on the other. The only business houses that escaped in the block were those of Jolly, Borges, Ely, Fiel, Burnham, Levy and Newman. The Folsom Hotel, in the same block escaped the flames. The saloons were all free, barrels of whisky were rolled in the street, and the exhausted men drank freely. Four or five roughs started a row about half past 5, and continued it until half past 8. During the melee a young man named Emil Miller undertook to separate Frank Myers and a man by the name of Colabaker. He was in the act of taking a beer mallet out of Myers' hands, when it is said that William Farmer, a blacksmith, stabbed him. The knife entered his left breast directly over the heart, and produced a serious if not fatal wound. Farmer's friends say he did not do the stabbing, but it is understood that Miller accuses him of it. Miller is a quiet, sober young man, and the unfortunate occurrence is regretted by all.

At this writing (1 A. M.) the town is quiet and in smoldering ruins. The fire, it is claimed, was set by a man by the name of Henry Weber, a drunken, god-for-nothing individual, who, it is reported, has threatened to burn the town to-night. He is sleeping off a drunk beneath the trees near the railroad station, everyone refusing to have anything to do with him. It is a wonder he was not hanged by the infuriated people. It is thought he set fire to his room after having a row with his father.

That Tired Feeling. The warm weather has a debilitating effect, especially upon those who are within doors most of the time. The peculiar, yet common, complaint known as "that tired feeling" is the result. This feeling can be easily overcome by taking Hood's Sarsaparilla, which gives new life and strength to all the functions of the body.

Hood's Sarsaparilla. Sold by all druggists. \$1; six for \$5. Made only by C. I. HOOD & CO., Lowell, Mass. 100 Doses One Dollar.

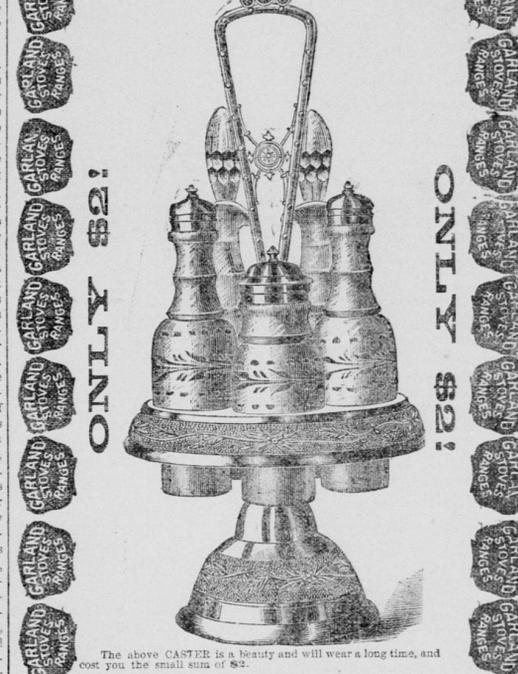

L. L. LEWIS & CO.
