Domestic News.

An Off Day for the Californians. New York, September 30th.—Betting was not allowed by the police from the park to-day, and the races were run without special excitement, except a few private wagers.

Gerontoni's Surrender.

WASHINGTON, September 30th.—General Miles' annual report, embodying the story of the surrender of Gerontoni, has been received by the Acting Secretary of War, General Miles. It is said, however, that he accepted the surrender of the savage chieftain, among the conditions, that he should not be surrendered to the civil authorities of Arizona for trial, and that he should be taken away from that vicinity.

The Races.

In the first race to-day, a handicap at seven furlongs, the California interests were represented by Rain and Union. The others started. Stonebeck was first away to a good start, with Hartford second and Herbert third. The race was a close one, but once took the track, and on disappearing behind the hill led a length, and Herbert second. When they reappeared these positions were unchanged, but Annet was on even terms with Hartford, and Herbert second. A desperate race followed, with Hartford second, a neck in front of Annet, Stonebeck and Herbert well up. A desperate race followed, with Hartford second, a neck in front of Annet, Stonebeck and Herbert well up.

Next after Parnell's manifesto Gladstone's letter on home rule in Wales alarmed the timid Britons. What one journal calls "the pretentious levity" of the liberal leader seems to others the rapid ripening in his mind of the doctrine of nationalities, and propounding a new and more exciting theory of the rights of nations.

The Rights of an Actual Settler Supreme. In the case of White vs. Douglas, the Supreme Court has affirmed the judgment of the lower Court in favor of the plaintiff.

The suit was in relation to a contest over the right to purchase parcel No. 10 of the 150,000 acres granted to the State for the use of an agricultural college. Douglas had applied for a tract of land on February 25, 1874. White made his application for the same tract on January 17, 1878. The Court holds that the defendant, being first in time, is naturally entitled to purchase parcel No. 10, and by any way defective or not accepted by the Board of Regents. Douglas had paid \$200 in part payment for the land in case the State should purchase it. Douglas was not notified of the defendant's application, and was not present at the hearing. The Court holds that the defendant is entitled to the land, and that he had no legal or equitable claim. The Supreme Court has affirmed the judgment of the lower Court in favor of the plaintiff.

Terrible Powder Explosion. NEW YORK, September 30th.—A telegram from Barrow, Alaska, dated September 29th, gives the following particulars of a terrible powder explosion that occurred about 10 o'clock this morning at the military camp at Barrow. The explosion was caused by a quantity of powder stored in a building, and it resulted in the death of four men employed in the factory. The explosion occurred in the packing-house, a one-story frame building, 20 by 30 feet, in the center of the grounds, and about 200 yards from the main factory, a large building near the water, where the bulk of giant powder and nitro-glycerine used for the expeditions was manufactured. The men were hard at work putting up and packing cartridges, when suddenly and without warning, the explosion occurred, shattering the building to splinters, and blowing the four men to fragments. The names of the men killed are as follows: Ernest Dralen, John Rusk, Max Shafstol, and Mr. Reinhardt. Nothing was left of them except fragments of their bodies. Their hands, legs, feet, arms and pieces of skulls, backbones and ribs were bits of flesh were scattered in every direction, from five hundred to six hundred feet from the packing-house. The explosion was caused by two men shooting into the building. After the explosion occurred, the Acting Secretary of War, General Miles, has been notified of the explosion, and he has ordered an investigation to be made. The explosion was a terrible one, and it is a warning to all who handle powder.
