LOCAL INTELLIGENCE

BOARD OF TRUSTEES.

A Lot of Lost Coupons—The Drainage Canal—Frosted Street Work.
The Board of City Trustees met in regular session at 10 A. M. yesterday.

The report of E. H. Williams, Chief Engineer of the Water Works, showed that during the past week the pumps were run 112 hours each, and that 28,682,000 gallons of water had been forced into the city main.

J. J. Warner, of the Hartford Steam Boiler Inspection and Insurance Company, reported having examined and tested the boilers of the city water works, and had found them in first-class condition.

J. C. Tubbs appeared before the Board on behalf of George S. Lopez, who had lost some coupons from bonds in the city, and asked that new bonds be issued in place of the old ones.

The Board considered the following report: In reference to the bond question submitted to the Board last week, Mayor Gregory said that he had taken advice upon the matter and made the following reply:

"The three bonds presented are dated respectively April 24th, April 26th, and May 6th, in the year 1874, and are payable on the last day of July, 1874, with interest coupons attached providing for semi-annual interest from the date of maturity to the maturity of the principal.

These bonds might have been presented for exchange for bonds under the Act of March 22, 1864, when the Finance Commission of the second session of the Act, would have been called on to determine whether the claims were legal and just. It is not known whether these bonds were presented, and when they could have been presented, and the representatives of the city then living. It is not known whether these bonds were presented, and when they could have been presented, and the representatives of the city then living.

Harbormaster Kidder notified the Board that hereafter the city's wharf would be kept clear for outside craft. The representatives of other transportation companies agreed not to obstruct the way in the future.

Mr. Hayden, a resident of the eastern portion of the city, appeared before the Board and complained of a winery and a brewery that were discharging their sewage into the Y-street sewer, and that the stench had become very offensive, and was the cause of much sickness.

PRO BONO PUBLICO.

Action Looking to Securing Immigration and Local Employment.

A joint meeting of the Executive Committee of the Improvement Association, the Sacramento Board of Trade and the Sacramento Immigration Association was held last evening at the Improvement Association rooms.

The Chairman stated the object of the meeting to be to take steps to procure from the Southern Pacific Company, if possible, the granting of stop-over privileges on the tickets held by immigrants passing through Sacramento from the East.

The desirability and advantage to this section of the State of the stop-over privilege extended to these people was the subject of a general and animated discussion.

At the conclusion of the meeting the Chairman was directed to appoint a committee on the subject, consisting of two from each of the organizations represented in the meeting.

Surprising If We Didn't.

It requires no special effort on our part to sell better shirts for the money than other dealers.

It would be surprising if we didn't.

We are much the largest buyers and sellers in this market. Everything hinges on that.

Moreover, it pays to lead. The superiority of our shirts over other brands brings more new customers than we could probably gain in any other way.

Take the Fifty-cent Unlaundried Shirt introduced last May. At times its sale has been so large that we have found it difficult to keep the supply up.

It was then, and is to-day, by all odds the best 50-cent shirt in the market.

Our standard goods in Laundried Shirts come at \$1 25, \$1 50 and \$1 75. These are all made especially to our order, and we carry them in sizes to fit all forms.

They combine the latest improvements in shirt-making, and in the finer grades are made of the best materials.

An attraction at present is an excellent White Shirt, with narrow plaits, at \$1 25.

A Specialty.—Heavy-weight, rough-faced, serviceable Overcoats for large men, 44 to 50 chest measure, \$10.

Boys' Blouse Suits, plaited back and fronts and of a neat dark brown, \$4 One of our best, for ages 4 to 10 years.

How to Get Good Whisky—Buy it in Sealed Demijohn over the Cork, sealed with our Trade-mark. We guarantee the age and quality of every Package of Whisky so sealed, and also guarantee it worth the established uniform price of \$4 a gallon, with cost of Demijohn (returnable) added.

If you buy Whisky by the Demijohn in this way, you can be sure of always getting the same Whisky, and cannot be imposed upon in price or quality. The grocer is able to sell at a small profit, as he is not compelled to carry a stock of it, but can take your order and buy for you, if necessary.
