MILITARY NOTES.
The Challenge—The Uniforms in Sight—Attendance at Drills.

The General commanding the Fourth Brigade has announced that an agreement has been effected whereby Captain Eisenmenger will be allowed to drill and recruit Company A for the coming six months.

Another letter was received from Captain Huber of Company C, Second Artillery, this week stating that he had no objection on the condition that both parties use Springfield rifles (his own proposition).

No doubt Captain Huber is aware that the Springfield rifle possessed by the First Artillery Regiment are old, worn out, condemned guns, and unfit for target practice, and he evidently has the advantage of this fact.

THE NEW UNIFORMS.
Adjutant-General Orton returned Thursday evening from San Francisco, where he gave orders for the manufacture of cloth for the new uniform of the State militia.

It is estimated that each uniform will cost \$20. Enough cloth will be made to fit out 3,000 men. The uniforms will be complete in three months.

The city companies should be looked after in regard to their attendance at weekly drills. Since each company is required to use uniform, and a little urging by the officers of the companies would, no doubt, greatly increase the interest in military affairs.

A battalion drill will be held next Monday evening at Army Hall. The companies will appear in full dress.

Each company will have eight file front, double rank, with guides and file-closers. The field line will be marked with flags with the band and the signal corps, are ordered to be present.

REQUISITION FOR POWDER AND BALL.
Adjutant-General Drum, of the regular army, has notified Governor Waterman to make requisition on the Benicia arsenal for 90,000 rounds of ammunition for target practice for the National Guard.

Adjutant-General Drum in his report to the Secretary of War recommends that during the winter months schools be held for the instruction of the non-commissioned officers of the National Guard.

He advises that young army officers be detailed as instructors. It is believed that this proposition will be successfully carried out.

Captain Hall, who went security for the Cadet Company's uniform, and has advanced from his own pocket money for the same, has not been paid by the State the amount which ex-Adjutant-General Orton promised. It is sincerely hoped by the members of the company that the Captain will not be disappointed.

The medals and sharpshooters' badges won by members of the National Guard at the annual target shoot have not yet been received.

An order calling for an election for Captain of Company C, First Artillery Regiment, will be immediately issued by the Brigadier-General of the Fourth Brigade.

Change in Railroad Time-Table.

The local passenger train for Sacramento will arrive at 1:30 a. m. and leave for San Francisco at 1:45 a. m. Local passenger trains for San Francisco will depart from Sacramento at 4:20 a. m. This train will arrive in San Francisco at 10:30 a. m.

TEACHERS' INSTITUTE.

The Closing Hours of the Session—Resolutions Adopted—Etc.
Yesterday was the last day of the session of the Teachers' Institute, which, it is admitted on all sides, was the most interesting ever held in this country.

Professor Max Lipowitz presented the theory of numbers. Instructions were given in sections, as follows: Language, by Julia B. Holt; History of the United States, Professor E. Knowlton.

At the opening of the afternoon session Miss Little Crowell rendered a piano solo, which was followed by a number of select readings by Professor Knowlton, which he followed with a short and appropriate address.

ADDRESS BY PROFESSOR HOIT.
State Superintendent Hoyt said: "We, as teachers, do not magnify the importance of our office sufficiently. We would feel that we are daily and hourly stamping our morals and manners and characters upon the minds of the children of our pupils. We teach even more by example than by precept.

We should not, therefore, be satisfied with doing our work passably well. We expect our pupils to advance day by day, so should we as teachers be progressive. We come to our work with a better knowledge now than we were last year, and if we do not resolve to be better teachers next year we are not worth the name of teachers.

BOARD OF SUPERVISORS.

The City Physician's Explanation—Passage of Suggestive Resolutions.
The Board of Supervisors met in regular session yesterday, all the members present.

Head Overseer Tony Opley appeared before the Board, and gave an interesting statement regarding the condition of the roads and bridges in the vicinity of Elk Grove and McConnell's Station. The bridge at the latter place needs some repairing, and Mr. Opley was instructed to go ahead and make the necessary repairs.

Demands for road work amounting to \$415,936 were laid over, as the various road funds are exhausted. The demand of E. Barry, for \$400,000, was withheld, it not being properly itemized.

The agreement existing between the Board of Supervisors and W. J. Davis and W. E. Dorn, was by vote of the Board ordered to be discontinued after December 1st.

Mr. McMullin offered the following resolution, which was adopted:
WHEREAS, The Grand Jury has just closed its session, and called attention to the fact that several of the members of the Grand Jury have not complied with the law, and whereas, it is the duty of the Board to see that the law is properly enforced, and to believe the names submitted both for trial and grand jury, and to believe it is hereby

Resolved, That the Supervisors, in making out jury lists in the future, have the names spread upon our minutes.

Some base rumors having been afloat for several weeks past, reflecting on the official acts of Dr. Parkinson, the City Physician, and which had crept into the public mind, taken up and discussed, Dr. Parkinson made a plain statement of facts, which were like a bolt of lightning, striking the White and Huntington, showing the office of the City Dispensary was properly managed, and all the acts of the City Physician in strict accordance with the intent of the ordinance. The wants of the poor were all properly attended to, and there was no ground for the rumors that had been circulated. The Board was fully convinced of the truth of the statements made, and the doctor was fully and completely vindicated. Lack of space forbids the testimony of the medical gentlemen, which tends to show how the City Dispensary and the Howard Society are daily improving.

The Committee on Roads and Bridges will examine the report of the Board of Supervisors, and will order such a reading as in their judgment is necessary. No further business coming before the Board an adjournment for the term was taken.

Young Men in Council.
The pleasant reading-room of the Young Men's Christian Association was well filled last night with young men, the occasion being the regular monthly business session of the Association. Vice-President Bassett was in the chair. The General Secretary in his report compared the work done in October, 1886, with that done last month, and it was seen that the Association is growing materially. The Finance Committee, headed by the Treasurer, E. A. Mayfield, made a satisfactory report. Committees on the Sick, D. D. Stryker; Gymnasium, E. E. Avery; Invitations, C. C. Cooley; and Membership, E. A. Mayfield. Nineteen young men were elected members of the Association. The resignation of John Gilmore as Organist was accepted, and D. D. Stryker elected in his place.

President G. M. Campbell read a list of appointments to the committee on the employment department permanent in the city. The committee on the employment department permanent in the city, and was found for three young men, and two of a temporary nature. Change was made either to employ or employ, but good references are required on both sides. The Secretary said business had not indorsed this part of the party sending to him for help. Brief addresses were then made by Mr. Edwards, Stryker, C. A. Mayfield, Campbell and W. S. Bassett. After singing and prayer, the company adjourned to the lower hall where refreshments were served by the young ladies of the Flower Committee, and an hour spent socially. In the symposium there was fine singing, ring-swinging. A class for athletic instruction has been formed which will meet on Tuesday evening at 7 o'clock. Mr. McNeely has been appointed instructor.
