

DAILY RECORD-UNION

The Record-Union is the only paper on the coast, outside of San Francisco, that receives the full Associated Press dispatches from all parts of the world.

San Francisco Agencies. The paper is for sale at the following places: L. Fisher, Room 21, Merchants' Exchange, who is also sole Advertising Agent for San Francisco and the Pacific Coast.

MORE ABOUT BRAZIL

On Saturday the RECORD-UNION indulged in an extended review of the history of the efforts made in Brazil for the abolition of slavery. The text for the review was the passage of the bill for emancipation. We then said that in the absence of details, it was safe to assume that the abolition is to be made under restrictions so as not to create any commercial distress, and probably would be found to be based upon a scheme of further gradual emancipation, after the order of that adopted in the Empire some years ago.

The dispatches now announce that the terms, while restrictive, are not so unfavorable to the slaves that they had looked for. All slaves are declared free, and the masters are to receive no compensation for them. But in all cases where slaves are working upon coffee plantations, they are to be continued at such labor for three years, on payment to them by the planters of small weekly wages, and on condition that they shall not be imprisoned, as heretofore, for slight offenses.

There is no other instance in the world's history of such vast emancipation, with so little friction, as in the achievement of Brazil. It has cost the Empire a great deal of treasure, but no blood, no wars, no serious political involvements, no social revolution. Dom Pedro, who has for forty years and more labored for that he now sees accomplished, is deathly ill and away from his people, and will very likely never recover or be able to return to his Empire; but he can do nothing to prevent the noble end which has influenced his entire reign has been attained. A great deal of credit is due to his daughter, the Princess Isabel. She has been as ardent an abolitionist as her father, and has labored side by side with him in the cause of freedom. She is now Regent, and must presently come to the throne. When she does, she will fill it with ability, having already proved her entire capacity for the high office. She is a woman of brain, foresight, courage and caution. Under her rule, with the stain of human bondage forever wiped out, the immediate future of Brazil will prove to be of great promise and importance.

The general knowledge of the nation and its people, its arts and its industries appears to be much limited, but hereafter, unless we greatly mistake the indications, Brazil will be one of the best known nations of the new world, first in its influence upon the South American continent, and second only to that of the United States upon the two greater Americas. In territory it is as large as the United States, if we exclude Alaska; it is peopled by the descendants of an industrious and spirited people; it produces nearly everything luxuriantly common to semi-tropical regions; it is rich in minerals and precious stones, and vasty so in woods; and it has many large navigable rivers. It is not, and never will be, agriculturally the equal of the United States, as its soil on the whole is not so fertile, though it is blessed with a milder climate; but it produces many things that can be grown only indifferently, or not at all, in the United States—such as rubber, coffee, mandiocca, etc. The foreign commerce of the country now exceeds \$200,000,000 a year, and is more than half in value of all the foreign commerce of the whole continent. Brazil looks to the United States for most of her machinery, research has not yet given her domestic coal; her roads are poor and few, and her resources not half developed; she is heavily in debt, and her territorial area cripples economic government; in the Argentine Republic she has a powerful competitor as a grain-producer and industrial rival; but all these obstacles will be overcome in the new era that has dawned. With Brazil our relations must become closer than now; at present Europe supplies us in the attention received, but the mutual relations of the Americas, the output of American trade, the good standing American manufactures now have in the empire, and the spirit of progress in Brazil, forbid that such shall continue to be the rule.

The Democratic party is engaged just now in resolving in enthusiastic Conventions that it has demonstrated its capacity to well administer the affairs of the nation. Wherein has it shown it? In the advocacy made in civil service reform?—half and more of the party pronounces against it, and the other half makes but a pretense of observance of the civil service regulations. In maintaining the dignity of the republic abroad?—where has the Government succeeded in doing so in any case in which a strong European power has opposed us? In giving us a navy?—what figure would the United States cut in a naval contest with France, Italy or Russia to-day? In paying the public debt?—the Administration had to be driven to application of the surplus to that purpose. In fostering internal improvement?—what has been done towards restoring the navigability of our injured rivers? In excluding offensive immigration?—the treaty with China was a farce until amended by a Republican Senate.

Butler says that the war scare in England is ridiculous. For once the General is correct in his expressed judgment. We do not believe that any cause exists for fear of England being involved in a serious European war or being invaded by any other State. She may have more trouble than is generally anticipated in Egypt, and she intends to do it undeniably. Who would want to invade England, and for what, and what hope of success could they entertain? The day has passed forever when any European power would even think of the conquest of England.

NEW ADVERTISEMENTS.

The Officers and members of the Sacramento Arch Chapter, No. 3, A. O. U. M., are requested to assemble at the hall of this Chapter, at 130 1/2 Street, at 7 o'clock, for the purpose of the funeral of our late companion, ABRAHAM HAINES, so to speak, on Thursday, the 23rd inst., at 10 o'clock. Members of sister Lodges are respectfully invited to attend. Order of W. M. DAVIS, Secretary.
