LOCAL INTELLIGENCE.

THE EQUINOX.

A High Barometer All Over the Coast—Fine Weather, Pleasant from each pole of the earth.

Sergeant Warwick of the Signal Service Station in this city, and who has control of the weather in this section of the State, was in high feather last evening when he handed in the following report for publication:

"The sun crossed the equator yesterday, and was therefore equidistant from each pole of the earth. That was the day of sunrise that breaks the monotonous and long winter night of the Arctic region near or at the North Pole, and the gladness to the brave men who out-posted General Greely's Arctic Expedition. The general, in his report, says the sun was first seen in March, and continued to rise higher and higher in the Arctic heavens until June 21st, the longest day in the latitude of California, after which time it began to gradually but slowly go down, down, down until the 21st of September, after which the sun again began to rise for Americans never give up. The sun during the Arctic summer appears as one large, blazing, brilliant ball of fire, never rising very high above the horizon.

"What a long and grand sunlit day that must be, except when interspersed with blizzards of rain, hail, sleet and snow. While on the other hand, what a gloomy surrounding, with the stillness of death, must be, it up only by the moon coming out, and the stars and brilliant borealis or northern light always, but not light enough to read instruments without artificial aid. While the sun is rising at the north pole, it is setting at the south, and the winter night coming on for that insubstantial region.

"How grand and awe-inspiring must such scenes be, to be witnessed by a civilized human being, and to see the sun convince an unbeliever, certainly, of the existence of some great and all-powerful power, who holds the reins of the world in his hand. Should we not all be thankful, charitable, good and pure, that our lives are cast amidst a present scene of almost perpetual spring, where flowers bloom, the birds sing, and all should be joyous, happy and free the whole year round?"

"The highest and lowest temperature yesterday was 65° and 48°, with fresh to gentle northerly wind, a high barometer, a cloudless sky, with most pleasant and agreeable weather, showing how quickly after heavy cyclonic demonstrations the climatic features of California reach their normal condition.

"Now presents what is called in meteorological parlance a 'normal day' or anti-cyclonic area over the Pacific slope, a continuation of which, we all hope, may be for weeks.

"Who Wants the Little One? A little nine-year-old girl, who gives the name of Mamie Alice Thomas, who has been deserted by her parents, called at the police station yesterday and asked to see Chief Lee. She handed the officer a note from Mrs. Kemp, a colored woman, which stated that the writer had been caring for the little one, but having secured employment out of the city she was too poor to take the little one with her. Chief Lee, who has the child adopted in some good family. She is described as being very bright, quite good looking, and no doubt there are many families who would be glad to take to their homes, care for and educate her. The little one returned to Mrs. Kemp's last night, but will be at the station-house today, where the Chief will be pleased to meet kindly disposed people and hope to secure for the little girl a good home.

"Clara Opera House. To-night Harry Kernell's new specialty company. It has played in San Francisco a remarkably successful engagement. The troupe includes in its membership Fred Hunter and Kitty Allyne, comedians and vocalists; the famous comedienne, Rosa; the only female ventriloquist; the Darrows, musical clowns; the Brazz brothers, all-around gymnasts; Travis, the champion ventriloquist; the Darrows, grotesque acrobats; Selbini, the female globe runner; Kernell, the character-acting comedian, whose specialties are the organization of high trapezes by the press. The Boston Herald pronounces the company the 'best vaudeville combination in the country,' and the Chicago Late Opener endorses the verdict. Stronger recommendation is not necessary.

"He Threw a Cobble-Stone. David Shaw, a well-known Oregon local, was put off the train at Antelope yesterday morning because he had no ticket. He afterward threw a cobble-stone at Conductor Caderwood. It missed the latter, but went through the open door of the car, fortunately not striking any of the passengers. Shaw was arrested and brought to this city, and will have an examination before Justice Devine today.

"Police Court. In the Police Court yesterday the case of J. E. Smith, charged with battery, was continued until 10 a. m. today. The case of Steve Butler, charged with an attempt to murder M. Gallagher, was also continued. The case of J. C. Bannon, charged with obtaining a suit of clothes, was continued until 10 a. m. today. The charge of gaming against Al Lee was also dismissed.

"The Uniforms Here. The uniforms of the Sacramento Baseball Club arrived yesterday from Chicago. They are of the finest material used and are made by the Spalding Bros. The color is a light gray, with blue trimmings, cap, belt and stockings, and the full name 'Sacramento' is lettered on the wall. The suits present a very neat appearance.

"Auction Sale. W. H. Shearman, auctioneer, will sell at 10 a. m. today, at 323 K street, parlor suits, bedroom suits, tables, chairs, ironing mangles, bedsteads, carpets, pictures, glassware, crockery, etc.

"Art Reception. The ladies of Sacramento and vicinity are cordially invited to attend the art reception at Theo. W. Schuchman's, 342 J street, commencing tomorrow (Saturday) March 19th, and continuing to and including Saturday, March 25th. The exhibition will consist of a large and varied display of art needle work. All of this work has been brought from the East, and is the finest ever exhibited in this city.

"The Misses Brothers, leading milliners, announce their opening to-day and Saturday, March 22nd and 23rd, and cordially invite the ladies to call at their parlor, 611 J street, and see the display of patterns, hats, bonnets and novelties.

"GO WHERE YOU CAN select from the largest stock (by more than double) of pianos, organs, violins, guitars, accordions, banjos, guitars, sheet music, books. Finest stock in the market, at Cooper's.

"It does the widest range of work with the least number of machines. See the Domestic Sewing Machine, Ninth and J.

GONE SOUTH.

GOVERNOR WATERMAN LEAVES FOR HIS SOUTHERN HOME.

He Pockets the Glenn County and Thirty-one Other Bills—Bills Signed.

Yesterday morning Governor R. W. Waterman took the south-bound train for his home in San Bernardino county, and expressed himself as being glad to get away from the State Capitol and the perplexities with which his office for several days past has been surrounded.

At the close of office hours Wednesday evening he had in his possession fifty-one bills, among them the State appropriation bill and the one creating the county of Glenn. All of the bills upon which he had not acted were of more or less importance, and he was constantly besieged by parties asking his approval to their claims, they bringing forward all the arguments in their power to show him why he should append his signature. Wednesday evening he went home early and did not return to his office that night.

After his departure on the early train yesterday there was a rush for his office to get the bills signed. The other thirty-two had been smothered in his capacious pocket.

THE IONE RECEPTION.

Amador County's Representatives Honored by Their Constituents.

The citizens of Ione are wide awake, energetic and display more of a homelike than almost any place on the coast double its size. It is in the midst of a fertile valley, has unlimited coal fields and is a beautiful and well-built town at the terminus of the Amador Branch Railroad. On Monday they tendered a public reception to their representatives in the Legislature on their return from the session.

A correspondent, writing from Ione, says: "The day, though rainy, did not in the least dampen the enthusiasm that prevailed. Our State Senator, Gannett, and wife, Assemblyman Graves and wife, Assemblyman Brierly of Los Angeles, Secretary of State W. C. Hendricks, J. C. Straub and wife, William Beckman and sister, of Sacramento, were met at the depot by a committee of citizens and escorted in carriages, with a brass band, to the home of the Williamses. The entire townspeople and many from the country were waiting to receive them. Hon. U. S. Senator Gannett, on his return from the session, congratulated Amador county on its good fortune in obtaining the location of the State Normal School. The expenditure of \$100,000 in her midst seems to have a tangible effect on the nerves of the people and to his work in the legislature. All those instrumental in securing the location of the school, Senators Preston and Gannett, La Grave, Brierly and Hendricks, were complimented and banqueted at the hotel and the following day the great enthusiasm prevailed and resolutions proper on such occasions were passed. The Amador Branch Railroad was inaugurated on the 1st of the month, and the first train came over her the dawn of a people prosperous and happy.
