Today's Weather Indications.

California—Fair in Southern California and light rain in Northern California; westerly winds and nearly stationary temperature in the southern portion, and slightly warmer in the northern portion.

Oregon and Washington—Light rains in Western Oregon and fair elsewhere; variable winds and slightly cooler.

THE EVOLUTION OF AN ARISTOCRACY.

When a child born under an aristocratic form of government begins to look out into the world and discerns that some of those under observation are high-born and bear titles, that others are low-born without titles; and when he further perceives that birth, family connection, aristocratic lineage, are inheritances of high social and political value, he naturally asks as to the origin of this state of things.

Uninfluenced by historical traditions, cowardly subservency, or other deflecting influences, the natural mind matures into a position of democracy—or to state this in another form, children are democrats. They become aristocrats through education in the artificialities of society.

The youth looking out upon the world in the tenth or twelfth Duke of Devonshire or Earl of Devonshire, and finding that the title was conferred on the first Duke or Earl for meritorious service, naturally revolts at the idea that a distinction which belonged to individual merit alone should have found hereditary perpetuation.

Merit may be perpetuated by hereditary transmission, but that reward for a right action should pass to posterity is absurdly grotesque.

The evolution of an aristocracy is not a difficult thing, and every concession made to historical lineage is a step in the direction of this evolution.

The great doctrine of equality of men is subverted and trampled under foot when merit is forgotten, and family connection or historical lineage is recognized.

A gossip concerning one of the leading Eastern papers during the incumbency of Robert T. Lincoln in the office of Secretary of War, writing from the Capital City, describing Mr. Lincoln's family, gushed forth as follows: "These children now playing before me have an assured future. They belong to an historical lineage. They are the grandchildren of Senator Harlan, of Iowa, and Abraham Lincoln, of Illinois."

In what respect the future of these children was assured was not, of course, defined, but the assurance must have had a social aspect to the writer. Truly translated, the correspondent may be rendered as saying: "The social position of these children will be established, because they are the grandchildren of two historical personages, and have, therefore, come into the possession of a sort of republican patent of nobility."

It is not contended that descent from noble men should work any political or social disability, but the great principles of republican institutions are violated when preference is given to any one who would not by reason of his own innate merit have deserved the distinction, aside from all considerations of lineage.

The present Administration has appointed two sons of distinguished fathers to first-class diplomatic positions. The appointments have the flavor of concession to a sentiment of aristocracy, and particularly to that sentiment in Europe. It may be said in all candor, and the friend Grant would not have been selected for the Austrian Mission if his father had not been distinguished. His selection, therefore, passed over the question of his personal merit to the distinction of his father.

A New York paper, commenting on the appointment of Mr. Lincoln, says, "Neither in point of ability nor public services is he the man that would be thought of for the highest and most important diplomatic mission in the gift of the Government, except for the fact that he is the son of Abraham Lincoln." If it is indeed true that Mr. Lincoln does not possess qualifications which would have suggested his name for the great distinction which has been conferred upon him, then in both the case of Grant and of Lincoln, the appointments are concessions to family pride, family distinction and historical lineage. And in so much as they are a concession to these elements of aristocracy, they constitute the impeding beginnings in the evolution of an American aristocracy.

They are precedents which the future will plead, and not in vain. If they are worthy of themselves, they are worthy in their exemplary consequences. If they are right in their motives, they are right in their precedents for future appointments. If Mr. Grant or Mr. Lincoln is deserving of great distinction, if such rewards are to come to them because their fathers rendered distinguished service to the country, then the sons of other distinguished fathers will have equal claim to distinction on the merits of their fathers alone. The precedent established by the existing Administration raises the question, "What does the Government or society owe to the families of men who have performed distinguished service for the country?" and the reverse outrages itself. "What does the Government and society owe to the sons of those who have been recent to the demands of patriotism?" If a first-class diplomatic mission is due to the son of General Grant, what is due to the sons of Robert E. Lee? If honor is due in the first instance, approbrium must follow as a logical sequence in the second. Thus hereditary distinction and the attainment of blood are established together. We have no disposition to find fault with President Harrison because of these appointments. They appear innocent enough on their face. All impeding beginnings of wrong appear innocent in their incipency. They do not prevent the appearance of menacing innovations until after they are established precedents; hence they wear the appearance of innocency until they become dangerous by growth and strength. There is nothing more innocent, beautiful or playful than a tiger's cub, and it wears this appearance throughout its cubhood. The exact point at which it ceases to be a cub and become

a tiger is not easily distinguished. It should be enough, however, for the wise to know that it is a tiger's cub, and it is to both the business and the nature of a cub to become a tiger; and so of customs, which, if carried too far, would be dangerous innovations upon a democratic form of government. If they would become vicious by repetition, they are vicious in their incipency. If neither Mr. Grant nor Mr. Lincoln would have been thought of for the high positions to which they have been appointed except for the fame of their fathers, their appointment is a reproach to the republican institutions. When questions of heredity guide the President in the appointment of Ministers to aristocratic governments, the concession to the sentiment of aristocracy becomes unmistakably pronounced. We prefer the time-honored practices and maxims of the fathers to the flabby degeneration of republicanism which these modern instances show forth. We prefer the great doctrine that each man should be his own ancestor; that distinction should be the reward of merit; that each man shall be judged by the record of his own life, and the high advantage of this doctrine is that it holds out the highest rewards to the sons of those whose lives may be blackened by the mistakes of patriotism. It gives the right of every man to be himself, to stand or fall upon the record of his own meritorious actions and the exemplary character of his own life. "To be great because his fathers were" is a very contemptible principle. Its logical sequence is to be infamous because of the infamy of a father, and this is repugnant to every enlightened sense of justice. Our Government is founded upon the great idea of individual manhood, of perfect equality before the law, and the possession of personal inalienable rights, and these great doctrines forbid all recognition of heredity whether in the direction of honor or esteem, and Republican liberty will accompany them to extinction.

LOCAL BREVITIES.

The temperature of the water in the river yesterday was 66°.

The trading boat Robert's Island came down from the upper Sacramento yesterday noon.

The steamer San Joaquin No. 4 is having her boilers and furnaces repaired. No. 2 is doing her work.

The little steamer of the Canvasback Gun Club is at the city front undergoing repairs to her machinery.

Senator George Hearst's stable of racers was so East via the Central Pacific road some time during next week.

The Young Men's Institute will give a social dance at their Seventh-street hall, on Wednesday evening, May 1st.

The Pioneer mill is shut down owing to necessary repairs to machinery. It will probably be in running order in a few days.

The State Printer is working on the State Agricultural Society's report. The book will contain about one thousand pages.

A band of gypsies have established headquarters at Twenty-seventh and Q streets, and the trade in peddling is having a boom.

To-morrow evening the young people of the First Baptist Church, will give a social and literary entertainment, to conclude with refreshments.

A lot of decomposed granite is being hauled to this city from Folsom, to be used in filling in the yards in the repair department of the railroad shops.

The evidence brought out in Justice Devine's Court on the examination of C. H. Farnum, charged with perjury, was not sufficient to hold him for trial.

It is understood that Miss Rosa Coates, a teacher in the Thirteenth and G streets Grammar School, will resign in a few weeks, and that her resignation is being done so as to give her a liberal notice.

The plunger owned by State Printer Young, J. J. Keegan, O. B. Turner, W. A. Anderson and C. H. Holmes, which has been recently overhauled at a considerable expense to the gentlemen, is now ready for use. She is said to be a traveler in a breeze.

A couple of women made a show of themselves last evening by dashing through the principal streets in a buggy and nominating their exploits on J street, near Second, by colliding with another buggy and being landed in the street between their vehicle. They seemed to have been pretty severely injured, the only wonder being that they were not killed.

PEARL'S SOAP secures a beautiful complexion.

NEW ADVERTISEMENTS.

Society Notices, Wants, Lost, Found, etc., will be found in third column of First Page.

A NIGHT WITH THE HUMORIST.

THE YOUNG PEOPLE OF THE FIRST BAPTIST CHURCH will give a social and literary entertainment.

Friday Evening, April 5th. Admission, 25 cents, including refreshments.

SOCIAL DANCE.

TO BE GIVEN BY Y. M. I. No. 27, AT TURNER HALL, WEDNESDAY EVENING, (MAY 1) 1889.

CARD OF THANKS.

WE WISH TO EXTEND OUR SINCERE and hearty thanks to the many friends who so kindly assisted during the illness of our dear and beloved mother, also for the beautiful floral tributes.

MARTIN and GEORGE EMBERT, MRS. J. S. HOYT.

(B. C.) MRS. A. L. WILF.

Argonaut Herd of Polled Angus Cattle.

THE LARGEST and FINEST HERD of Angus Cattle on the Pacific Coast. A number of thoroughbred and high-grade BULLS and HEIFERS for sale at reasonable prices. Call on or address the owner and breeder, DR. G. M. DIXON, 709 J street, Sacramento, Cal.

BRAND, CAMPBELL & CO., REAL ESTATE, 402 J Street.

40 ACRES—TWO AND A HALF MILES from Loomis, Placer county; it is the best of land; water accessible; all under ditches; and ready for planting; this place joins J. P. Hill's splendid orchard, will be sold at the low figure of \$50 per acre, including for city property.
