CIVIL SERVICE.

The Commissioners Say That Democrats Must be Given a Square Deal.

WASHINGTON, June 28th.—A communication recently received by the Civil Service Commission from P. M. Wright, Secretary of the local Board of Civil Service Examiners at Port Huron, Mich., asking the Board to be allowed to hold a competitive examination on the 11th of July for clerks and inspectors in the Custom House in place of that announced for the 13th of June, which was not held.

The Commission has directed a reply, allowing the examination to be held for clerks, but not for inspectors, on the ground that the Secretary of the Board furnished no statement of the number of names on the eligible list for appointment as inspectors.

Speaking of this action Commissioner Roosevelt, on behalf of the Commission, said: "We are especially reluctant to do this, but it is in consequence of an article which appeared in a Detroit paper purporting to be an interview with Mr. Geer, the Collector of Customs at Port Huron. As far as we know this article has not been republished. In it Geer is reported as strenuously condemning the civil service law and stating his belief that the proper thing to do is to adopt the management of the office that prevailed in the old days."

Geer being an appointive officer of the Custom-house, whose duty it is to administer the law which he thus condemns, his expressions render it especially incumbent upon the Commission to see no chance whatever is given for the evasion of the law.

"The Commission has, of course, no control over the expression of any public officer, but they intend to make it their particular duty to prevent any administration of law in accordance with the theories enunciated by Geer. They will tolerate no violation and no evasion of the statute. The examination will be open to all Democrats and Republicans alike."

Continuing, Mr. Roosevelt said: "This statement is to be considered as an authoritative statement of the position of the Commission. Statements of the kind attributed to Geer have the effect of keeping Democratic applicants from applying for competitive examination in the civil service. We wish to show them that the Commission will take good care to see that Geer's words remain words only, and do not crystallize into deeds."

GOOD CROUDES.

Irving M. Scott Will Not be Pressed on the Time Limit.

WASHINGTON, June 28th.—Secretary Tracy stated today to the California Associated Press reporter that the report that he had fixed the extension of time for the completion of the Charleston at six weeks was wrong. He had not fixed any time limit, and had no such intention. "I believe," he said, "that the Union Iron Works had good grounds for asking an extension, and I intend they shall have time enough to make the corrections caused by the defects in the plans and machinery. This may require six weeks, or it may take the entire length of time they can rest, and I think that if they use energy in making the corrections they will not be pressed on the time limit."

Pacific Coast Postmasters.

WASHINGTON, June 28th.—The following changes have been made in California, Oregon and Washington Postmasters: California—Horse Gasquet, appointed at Gasquet, Del Norte county, vice L. Bounaz, resigned; W. B. Ambrose, at Lockford, San Joaquin county, vice G. W. Wise, resigned; C. A. Gany, at San Leandro, Alameda county, vice D. L. Smith, resigned.

Oregon—W. L. Wilmut, at Springfield, Linn county, vice Stewart, removed.

Washington Territory—Mrs. M. A. Carr, at Richardson, San Juan county, vice J. L. Davis, resigned.

Minister to Hayti.

WASHINGTON, June 28th.—It is understood Fred Douglas will accept the mission. It is said the appointment will in no wise change the situation of the United States toward the contesting powers. The commission will accredit to him the republic of Hayti, and he will present his credentials to whomsoever at the time represented by the republic. The dealings of the present Minister, Thompson, have been with Legitime, and the situation will remain just the same as before Thompson's resignation, and the commission Hayti should in the meantime undergo a change.

Duty on Oil Paintings.

WASHINGTON, June 28th.—Assistant Secretary of the Treasury Tichenor has informed the Collector of Customs at New York that the application of Hon. Chandler M. Depew cannot be allowed for the entry of an oil portrait of Cornelius Vanderbilt, which was originally imported from Paris and subsequently returned to the artist for retouching. The collector's decision must pay duty, whether on the original or subsequent importations. The duty is 30 per cent ad valorem. No exception can be allowed.

Coast Defense Guns.

WASHINGTON, June 28th.—The Secretary of War has approved the recommendation of the Board of Ordnance and Fortifications, and has authorized the purchase of the disappearing gun carriage, built under the plans and specifications of the Pneumatic Gun Carriage and Power Company of the city, for coast defenses.

English Brick.

WASHINGTON, June 28th.—Complaint has been made that the Government has contracted for the purchase of 500,000 enameled bricks made for use in the construction of the Congressional Library building. General Casey, Chief of Engineers, who has charge of the work, said he had bought the bricks because they were the cheapest and best. He said he had advertised extensively for bids for these bricks, and that not a single American manufacturer had put in proposals.

Presidential Appointments.

WASHINGTON, June 28th.—The President this afternoon appointed James G. Wright, of Illinois, to be agent for the Indians of the Rosebud Agency in Dakota; Frank Merideth, of Chicago, to be Chief of the Bureau of Engraving and Printing; Frederick Douglas, of the District of Columbia, Minister Resident and Consul-General of the United States to Hayti; Daniel M. Randall, of Indiana, to be United States Marshal for the District of Columbia.

List of Eligibles.

WASHINGTON, June 28th.—In pursuance of the plan of publishing a list of eligibles for appointment, the Civil Service Commission this afternoon issued an order directing that lists be placed on the bulletin in all Postoffices and Custom-houses where there are boards, and be conspicuously displayed in the offices of the Bureau and Departments where civil service rules govern.

Flathead Indian Trouble Over.

WASHINGTON, June 28th.—General Rugar advises the War Department that the Flathead Indians' trouble is about over, but the troops will remain a few days longer at the request of the Governor of Montana.

Pension Awards.

WASHINGTON, June 28th.—Pensions have been issued to citizens of California as follows: Original invalid—Joshua Fix. Increase—John W. Whitmore.

Almost Choked to Death.

On Thursday, as a man from Nevada City, giving the name of Horan, was waiting at a late dinner at the Woodland Restaurant, he suddenly began to struggle. The wait-

PRINCESS LOUISE BETROTHED.

Belgium Subscribes to the Building of the Congo Railway—Scotland Regatta—Etc.

[SPECIAL DISPATCHES TO THE RECORD-UNION.]

PRINCESS LOUISE.

Her Engagement to the Earl of Eife Formally Announced.

LONDON, June 28th.—There was but one topic of discussion in the clubs yesterday. It was the betrothal of Princess Louise Victoria Alexander Dagar of Wales, eldest daughter of the Prince and Princess of Wales, to Earl Eife. Rumor for a long time past has been busy in clubdom with the possibility of such a match. What gave particular strength to the possibility of such an alliance lay in the fact that the report was most credited by those about the Prince.

Thursday afternoon the Queen formally gave consent to the union. The Prince of Wales is the most popular gentleman of the United Kingdom, and the Princess alone vies with him in the affections of the people. When it became known that the Prince's eldest daughter was to be conferred upon one of the most popular peers in the United Kingdom, the Prince and Princess of Wales were simply and purely raised into a position of popular idolization. Princess Louise has in her short career won universal popularity.

Like all royal Princesses, she always has been troubled with shyness, but not more so than might be expected from young ladies not long out in the world. But those who have penetrated the veil of reserve which her shyness has put around her charming womanly nature find of intelligence and a good share of her mother's remarkably charming manner and interesting gentle nature.

She has a very pretty figure, is of about middle size, and has a face full of character. She was born in Marlborough House, between Fourth and Fifth streets, London, on the 18th of February, 1868.

Earl Eife, who is 49 years old, has been for many years a close friend of the Prince and Princess. Everybody knows him and knows what a high position a regular model of British aristocracy, is held by Earl Eife, but was a peer of the United Kingdom in 1885.

CONGO RAILWAY.

The Belgian Government is to Subscribe Ten Million Francs.

BRUSSELS, June 28th.—At the opening of yesterday's session of the Chamber of Representatives, M. Bernart, Minister of Finance, presented a bill authorizing the Government to subscribe by means of public subscriptions, in the construction of the Congo railway. The bill is in conformity with information concerning the Government's intention which has been made public in the European editions of the Herald.

It authorizes the Belgian Government to subscribe the amount of 10,000,000 francs to the capital of the company, represented by 20,000 preferred shares of 500 francs each, and yielding in actual interest at the rate of 3 1/2 per cent, to be redeemed within a space of ninety-nine years.

The report accompanying the bill sets forth that the present state of things in the Congo is such as to give every encouragement to capitalists to embark in the enterprise; that public peace is assured in the country; that its commerce is rapidly developing; and that the proposed railway will render the country flourishing. It is also added that the population has increased enormously, and that the railway has become an imperative necessity.

The bill contains a provision that at least 92 per cent of the rolling stock and material used in the construction, operation and maintenance of the road shall be purchased in Belgium. The debate on the bill will take place next week, and, according to all that can be gathered on the subject, the Chamber appears to be disposed to vote in favor of it.

GLADSTONE.

His Article on the Irish Union in the "Nineteenth Century."

LONDON, June 28th.—Gladstone has an article in the Nineteenth Century entitled "Plain Speaking on the Irish Union." In it he says: "I have read Mr. Gladstone's article in the Nineteenth Century, in examining William O'Brien before the Commission, implied that a grave charge was proved against certain Irishmen if it could be shown they regarded English power as alien. I should like to have asked Mr. O'Brien whether the Irish, so far as he knew, regarded the act of union as possessed of the same moral authority as the Government's intention which has been made public in the European editions of the Herald."

"I do not doubt that O'Brien would have answered that they regarded it as an act of force, to which Ireland was not a party, but a prudential obligation to conform. There may be immorality in miscalculated resistance even in moral laws, but such resistance is in itself not immoral. The question is whether the worship of an act of union is popery or superstition."

The Pope's Position.

LONDON, June 28th.—The Standard's Rome correspondent reaffirms the correctness of his communication announcing the Pope's condemnation of the Clan-na-Gael. The correspondent also says the Pope declines to interfere in the matter of the complaint of some of the Irish Bishops against the harsh treatment of the Land Leaguers in prison on the ground that it is their own fault, they having disobeyed the decree against boycotting.

After Boycotting.

WINNEPESKA (Mn.), June 28th.—Assistant State's Attorney Baker, of Chicago, arrived in this city today. He brought with him the certified evidence which secured Burke's indictment by the Chicago Grand Jury, as well as the regular extradition papers from Washington.

Valkyrie Victorious.

LONDON, June 28th.—At the Largo Scotland regatta today the Valkyrie made the first round in 1:51.42, Green in 2:34.7, Yavana in 1:54.42, and Marjor in 1:56:50.

STARTLING EVIDENCE.

Of the Cure of Skin Diseases when all other Methods Fail.

For ails of 5 years, covering face, head and entire body with white scabs, skin red, itching, and burning, and all other ailments. Spent hundreds of dollars. Pronounced incurable. Cured by CUTICURA Remedies.

My skin was covered with white scabs, and I could not see my face. I had lost my eyesight altogether. I spread all over my head, and my hair fell out, until I was entirely bald. I had lost my hair, and my arms and shoulders, until my arms were just one sore. I covered my entire body with my face, head and shoulders being the worst. The white scabs fell constantly from my head, shoulders and arms; the skin was itchy and red, and very itchy, and would crack and bleed if scratched. I had lost my hair, and my arms and shoulders, until my arms were just one sore. I covered my entire body with my face, head and shoulders being the worst. The white scabs fell constantly from my head, shoulders and arms; the skin was itchy and red, and very itchy, and would crack and bleed if scratched. I had lost my hair, and my arms and shoulders, until my arms were just one sore. I covered my entire body with my face, head and shoulders being the worst. The white scabs fell constantly from my head, shoulders and arms; the skin was itchy and red, and very itchy, and would crack and bleed if scratched. I had lost my hair, and my arms and shoulders, until my arms were just one sore. I covered my entire body with my face, head and shoulders being the worst. The white scabs fell constantly from my head, shoulders and arms; the skin was itchy and red, and very itchy, and would crack and bleed if scratched. I had lost my hair, and my arms and shoulders, until my arms were just one sore. I covered my entire body with my face, head and shoulders being the worst. The white scabs fell constantly from my head, shoulders and arms; the skin was itchy and red, and very itchy, and would crack and bleed if scratched. I had lost my hair, and my arms and shoulders, until my arms were just one sore. I covered my entire body with my face, head and shoulders being the worst. The white scabs fell constantly from my head, shoulders and arms; the skin was itchy and red, and very itchy, and would crack and bleed if scratched. I had lost my hair, and my arms and shoulders, until my arms were just one sore. I covered my entire body with my face, head and shoulders being the worst. The white scabs fell constantly from my head, shoulders and arms; the skin was itchy and red, and very itchy, and would crack and bleed if scratched. I had lost my hair, and my arms and shoulders, until my arms were just one sore. I covered my entire body with my face, head and shoulders being the worst. The white scabs fell constantly from my head, shoulders and arms; the skin was itchy and red, and very itchy, and would crack and bleed if scratched. I had lost my hair, and my arms and shoulders, until my arms were just one sore. I covered my entire body with my face, head and shoulders being the worst.
