

DAILY RECORD-UNION

TUESDAY, JANUARY 7, 1890. ISSUED BY THE SACRAMENTO PUBLISHING COMPANY. Office, Third Street, between J and K.

THE DAILY RECORD-UNION, Published six days in each week, with Double Sheet on Saturdays, and THE SUNDAY UNION, Published every Sunday morning, making a splendid SEVEN-DAY PAPER.

THE WEEKLY UNION, The cheapest and most desirable Home, News and Literary Journal published on the Pacific Coast. THE SUNDAY UNION is sent to every subscriber to the WEEKLY UNION.

Weather Forecasts for To-day. California—Fair weather, with the exception of local rains on the coast in the northern portion; variable winds; nearly stationary temperature.

MEMORIAL ON FOREST PRESERVATION. The State Board of Forestry has sent up to Congress a long memorial upon the subject of the preservation of the timber lands of this State from further destruction.

BOARD OF EDUCATION. The New Board Comes In—Annual Financial Report. The City Board of Education held a special meeting last evening in the new office of Superintendent-elect Hart, in the Odd Fellows Temple.

THE STATE CITRUS FAIR. The State Citrus Fair opens at Oroville to-day. It ought to command more attention and have larger visitation than any that has been held in the State, for it

proves incontrovertibly the capacity of the region represented, which embraces more than two-thirds of the State; that the section contributing is so early with its products that it does not practically come into market conflict with any other; that though we have now the severest season ever known in the modern history of the State, it has not impaired our ability to produce semi-tropical fruits.

The fair will also serve to illustrate vividly the wonderful extent of the progress made in the cultivation of citrus fruits since the time—only a half dozen years ago—attention was given to the industry for commercial purposes.

There can be no question whatever that the people of the central and northern sections have not more than just entered upon the business of growing oranges, lemons, olives and figs; they are but upon the threshold of these important industries that it has been demonstrated can be engaged in all this region under better conditions than elsewhere in the State.

It is to be hoped that the people will go to Oroville in great numbers; that they will come down from the mountains to witness the first of the State Citrus Fair; that the towns and cities will send multitudes, and that all the strangers within our gates will be persuaded to attend one or more days while the fair is in progress.

COUNTY AFFAIRS.

The Supervisors Open the Monthly Session—Mr. Ross the New President. The Board of Supervisors met yesterday morning, with President Tebbets in the chair. Present—Supervisors Greer, Bates and Black.

A communication was received from Hale & Baughman, of Indian Diggins, El Dorado county, asking that the injunction placed by Sacramento county on their mine be raised. They claimed that they could carry on their mining without emptying the debris into the tributaries of streams running through the county, and would do so.

Supervisor Greer said he was not in favor of raising any of the injunctions placed on the different mines by Sacramento county. He would not like to set a precedent by doing so.

After some argument it was agreed to lay the matter before Messrs. Devlin and Decker, the attorneys for the county in the debris cases.

Supervisor Ross reported that he had ordered signs pointed and placed on the McCabe bridge over the Cosumnes river, and would see that similar ones be posted on the Michigan Bar bridge. The prohibition of fast driving over the structures was the object sought.

Communications were received from Joseph Heintz and N. Van Marrenburg, that they had accepted \$250,000, respectively, for damages and rights of way in the matter of a petition for a new road on District No. 3.

After considerable debate L. P. Gilman was allowed \$875 for an over-assessment on lot 5, in the district bounded by L and M, Fourth and Fifth streets.

Assessor Frost stated that the assessment on the property was altogether too high, and recommended that the Board reduce the overcharge.

J. D. Bigelow, who owns property in the vicinity of Brighton Junction, called on the Board that his land was assessed at \$100 per acre, while that of neighbors adjoining was assessed at \$50. He wanted to know the reason of the discrimination.

Supervisor Greer said that land should not be made of one and a half of another. The land in the neighborhood was about equal in value, and it was not right that Mr. Bigelow be made to pay 40 per cent. more for the same kind of land than his neighbors paid on theirs.

Deputy Assessor McManis tried to explain the situation in the matter of the property, but was not assessed at all last year. "You're getting off easy," remarked Chairman Tebbets to the Deputy Assessor.

"That explains it," said the Deputy Assessor. "We assessed him for two years ago, and that land is \$50 an acre." "You did," exclaimed Supervisor Greer, "and why didn't you double up on his neighbors, Mr. Davis, and the rest of them. They were not assessed last year, and you charged them \$50 for the two years, and Mr. Bigelow \$100. How does this come?"

NEW ADVERTISEMENTS.
