PENSION BUREAU.

Commissioner Baum Makes a Report to
Secretary Noble.

WASHINGTON, April 6th.—His report
to Secretary Noble Pension Commissioner
Baum says he will be able by the last of
this month to submit an examination of every
claim pending in the office except the
claims of January last and have every claim
allowed that is completed, and calls for the
examination of those claims.

This result has been secured largely by
means of the order issued in the latter part
of December, requesting the clerks to
prepare pending and that all claims which
appeared complete be placed on the
"completed files" to be adjudicated
and directed to spend five days of each
week in examining claims on these files
and one day exclusively to making call for
admission of new claims.

On the 11th of every bit of work done
the result of the examination, 50,875 claims
were put on the "completed list."

The order directing the clerks to be
placed on file upon application, accom-
panied by a statement of facts showing the
claim to be complete, has, up to date,
added 20,350 cases to those already on the
"completed files." During the past three
months 52,229 of these cases have been
examined and 43,000 have been placed
remaining on the files. Applications at the
rate of 450 a day are being received, and
it is estimated that within ninety days
the files will be taken up and acted upon
within one week.

The record for the past month shows
that 1,000 claims were allowed, and the
original, the issue being the largest number
ever issued in one month by the Pension
Bureau.

MANY PEOPLE DROWNED.
Destruction of Live Stock—Great Loss of
Property.

VICKSBURG (Miss.), April 6th.—Nineteen
negroes, the survivors of a large party of
refugees which attempted to escape from
the overflow down the bayou of Delaga on
April 4th, arrived on the steamer today. They
report that twelve women and children
were drowned.

The steamer is growing daily more seri-
ous in Steele Bayou county. Earl Miller,
a prominent planter, arrived from there
by the steamer Evergreen with his family
and stock. Miller's plantation, though very
high, has gone under. The Evergreen re-
ports the water along the bayous as rising
daily, and that the water is now so high
that the people at a song. Much more stock
must yet be brought out or allowed to
drown.

The steamer Osceola from the bends re-
ports the overflow beginning to empty into
the Mississippi through Eagle Lake, and
predicts a decrease in the pressure all
along the Louisiana front from that point
southward for the next two weeks.

There is an unmistakable distress
along Steele Bayou and it would be
cruelly to deny it. Three steamers leave
for the Bayou today. The Government
engineers have left for that point
and will endeavor to close it.

One of the Best Winter Tracks in the

Lodi, April 6th.—The Lodi races closed
yesterday, the last of a two-days' contest,

was a match between C. H. Carson's Sleepy

Sleepy Tom won in three straight heats.

To the astonishment of the sports the
short end away with the proceeds of the
pool-bet, the same thing occurring the
day previous.

It is the purpose of the management to
have races each month, one now being
scheduled for the 25th inst., with three
trials—Donkey's Eva D., Peirano's Fred,
and Smith's Ross S.
