

REPUTATED.

CAPTAIN STAPLETON'S INDIGNATION OVER THE TALK ABOUT FAKES.

He Declares that the Sacramento Ball Team Has Not Been Treated Fairly—President Mone.

Captain Stapleton, of the Sacramento baseball team, is indignant over the insinuations contained in a published communication, to the effect that the deal club intentionally lost the game at San Francisco last Saturday.

"I'm pretty confident," he said last evening to a Record-Union reporter, "that I can locate the writer of that communication, and he's not a merchant, either. But let's just look now at the truth of the matter. Last Saturday we were defeated badly by the Oakland, the score being 25 to 4.

That was the only time we have received this season, yet here's a great howl about our alleged indifferent playing.

The day before that game we played the Oakland on their own grounds, and beat them to the tune of 20 to 5. Did you hear any howl about that? Did anybody send communications to the papers about the Oakland's indifferent playing? No, not much. The Sunday preceding that game we beat the San Francisco team by a score of 17 to 3. Nobody accused them of throwing down the game—on the contrary, all sorts of apologies were made for them.

At the request of the reporter Mr. Stapleton gave some details of last Saturday's alleged "fake" at the bay.

"The opposing nine," said he, "began to play at 10 o'clock. I was called to play myself and was attending to the gate. At the end of the sixth inning I knew we were losing and was standing 12 to 1 in favor of Oakland—so I sent word to Harper to retire and let Reitz take his place. You see we had to play the game the next day and I wanted to pitch one of them, so I took him out of the box to save his strength. Well, Reitz went in and began putting the ball over the plate. The Oakland, however, had their base-bats with them, and banded Reitz delivery about as hard as they had Harper's. Some of the members of the League, came running up to me and demanded that I put Hoffman in the box in place of Reitz. I refused, because I wanted to save Hoffman for the next day as much as Harper. Manager Finn, of the San Francisco team, then came up and would run the gate-keepers with such playing, but when I reminded him of the style of baseball he and his nine had been practicing in Sacramento for the last three months, he shut up. Some came after me again, but when he saw I was losing my temper he walked away. I then called to my managers. One then ran to the reporters and tried to get them to 'burn me up,' and here is a sample of his success.

Stapleton handed the Record-Union man the following clipping from one of the Day papers:

Stapleton did right in putting in Hoffman Saturday after Harper had been banded out of the box. The only way to win the game that day and Hoffman was to pitch in the first one, and there was no use in putting him in to finish out a game that was already lost.

DIAMOND GOSSIP.

A Busy Week for the Sacramento—Work of the Players.

The Sacramento will play three games this week. On Friday and Saturday they will be pitted against the San Francisco in this city, and on Sunday they play the Oakland at the Haight-street grounds. It is thought that Bowman will be in condition to play his usual position behind the bat.

Daly is at present playing his position at short in better shape than ever before this season. Roberts is hitting the ball regularly, and if he is not at present among the best tenatters in the League, he soon will be if he keeps up his stick-work.

Shaw and McCarty, the newly-signed pitchers of the Day team, are earnestness and better base-watchers than any of the other twirlers in the League.

A San Francisco paper intimated that Goodenough shined two balls in a game at the Day several days ago. It is to be hoped that no member of the Sacramento Club has committed such a playing offense, as it would work all the more against us so far as has been conspicuous for the absence of this dangerous element, and no man in the club ought to lay the blame on another, seeing the dilemma which the young ladies were in, did his best to repair damages with a rope, and was so far successful as to enable one of the girls to get home a friend a few blocks away.

The Gallant Break-down at Fifteenth. There was a break-down at Fifteenth and N streets yesterday afternoon. Three stout, good-looking county girls were too heavy for their carriage, and it succumbed to their weight, the body collapsing on one side, thereby tilting the young ladies gently to the ground. The girls, however, escaped from a serious accident, however.

Sergeant Barwick drove up in his police outfit to lay the blame on the girls, seeing the dilemma which the young ladies were in, did his best to repair damages with a rope, and was so far successful as to enable one of the girls to get home a friend a few blocks away.

THE GAS WELL.

What an Analysis of the Water Therefrom Has Revealed.

John Eitel, the well-known chemist and metallurgist, has made analysis of the artesian water from the gas well at Fifth and R streets. He finds it charged with chlorides, carbonates and sulphates, associated with sodium, potassium, calcium magnesium, also silica and a trace of ammonia. The chlorides predominate as common constituents.

From the analysis thus far made, Mr. Eitel concludes that the water is not desirable for drinking or culinary purposes, although he regards it as of fair quality. A perfect gas analysis, he says, can only be carried out in large and well regulated chemical laboratories, but with the instruments at hand, and apparatus constructed, the tests made assured him that no combustible gas was present.

It is claimed that in wells where gas has been struck the flow of water which preceded it has been of the saline quality mentioned by Mr. Eitel, as coming from the well in this city. It is also claimed, therefore, it would seem that the promoters of the local enterprise have reason to feel encouraged in the prospect of the gas well in this city. Even though the water has been struck may possess strong mineral properties, there is no telling what may be the result of other veins tapped at greater depths, and there is reason to hope that, even though gas may not be found in sufficient quantity to make it valuable, a safe supply of pure artesian water may be developed.

ALLEGED ASSAULT.

Daniel Healy Arrested on Complaint of Frederick Haedrich.

Frederick Haedrich visited the District Attorney Monday evening and expressed a desire to have Daniel Healy, proprietor of the "bone-yard," arrested for assault with intent to commit murder. Haedrich went on to explain that on Wednesday last he went to the outskirts of town, in the vicinity of Geary's place, for the purpose of inspecting some land which he was negotiating for. He said he met Healy out there, and the latter wanted to know what he was doing there. Healy pulled a pocket-knife from his pocket and struck him over the head with it. Healy then struck him, striking him in the back.

The District Attorney drew up a complaint and Haedrich wrote to a warrant was issued by Justice of the Peace Henry and on yesterday Healy was brought to the City Jail on a \$500 and was released. The examination will take place next week.

QUARRELING WOMEN.

Their Personal Antipathies Result in Police Court Proceedings.

Mrs. George Parkes was on trial in the Police Court yesterday, the charge being that of disturbing the peace of Mrs. Emma Grant. The disturbance took place on Saturday night last, during the progress of the fire at Twelfth and K streets. Mrs. Grant and Mrs. Parkes, it appears, had both been members of a Good Templar Lodge, but some time ago charges were made against the latter by Mrs. Grant. Mrs. Grant and Mrs. Parkes were dismissed. On Saturday evening the two ladies met each other, and Mrs. Parkes uttered an insulting remark to Mrs. Grant, hence the arrest.

Judge Buckley found the defendant guilty and ordered her to appear for sentence on Thursday. A Mrs. Wallace and daughter had been summoned by the prosecution, and when they arrived at the police station the elder lady proceeded to give Mrs. Grant a horse kick, and the younger lady followed her example. Quite a commotion, though fortunately of short duration, was created in City Attorney Harb's office.

State Land Patents.

Land patents in favor of the following-named persons were yesterday signed by the Governor: Sixteenth and thirty-sixth sections—James Scott, Humboldt, 240 acres; Joseph Russ, Humboldt, 40 acres; Joseph D. Lynch, San Bernardino, 640 acres; James Moore et al., Fresno, 640 acres; C. H. Jones, Humboldt, 160 acres; Swap and overlaid land—C. J. E. Taylor, Tulare, 640 acres; F. H. Carpenter, Tulare, 251.40 acres; Jas. Jordan, Sacramento, 20 acres; T. F. Moore, Humboldt, 320 acres; Geo. Fairbanks, Humboldt, 283.83 acres; Francis Outing, Mariposa, 640 acres; Sidney M. Smith, Fresno, 160 acres; John Rothger, Sr., Calaveras, 20.75 acres.

Fire in the Hills.

It is rarely that a season passes without a destructive fire in the hills somewhere about Latrobe. Last fall a very large section of country was burned over and considerable loss entailed on the ranchmen thereabout. Day before yesterday a fire broke out in a stubble-field in that vicinity, and some 600 acres were burned over, including trees, fences, etc.

Some burned trees fell across the railroad track, and the fire, which had been burning several hours. The fire may have been started by some traveler throwing a lighted cigar-stump into the dry grass by the roadside.

The Abbott Case.

The case of James Abbott, charged by his wife with battery, was partly tried in the Police Court yesterday. The alleged battery occurred in a dance-hall on Second street, which is the headquarters of the police. The wife of Abbott was beaten and kicked her unmercifully, and while he went off on a spree he would detail a couple of would-be pugilists, who hang around the dance-hall, to assist him in his fight. He reported her conduct to him when he sobered up. He never objected though to take what money she earned in the beast of ways.

Notary Public.

Notary Public were yesterday appointed by the Governor as follows: Calvin Dickney, Modesto; T. F. Moore, Humboldt; 240 acres; Joseph Russ, Humboldt, 40 acres; Joseph D. Lynch, San Bernardino, 640 acres; James Moore et al., Fresno, 640 acres; C. H. Jones, Humboldt, 160 acres; Swap and overlaid land—C. J. E. Taylor, Tulare, 640 acres; F. H. Carpenter, Tulare, 251.40 acres; Jas. Jordan, Sacramento, 20 acres; T. F. Moore, Humboldt, 320 acres; Geo. Fairbanks, Humboldt, 283.83 acres; Francis Outing, Mariposa, 640 acres; Sidney M. Smith, Fresno, 160 acres; John Rothger, Sr., Calaveras, 20.75 acres.

Prohibition Convention.

The Prohibitionists of this county will hold a Convention at Pythian Hall on Friday evening next to nominate a county ticket. It will be open to ladies and gentlemen.

Furniture Sale To-day.

Bell & Co. will hold a large auction sale of furniture at their salesrooms, 1009-11 J street, at 10 o'clock this morning. A large stock of furniture, crockery, glassware, etc., will be sold.

A BUSINESS PROPOSITION.

A City Lady Who Required Proof Before Believing. There recently appeared in the San Francisco Call, Chronic and Examiner, a proposition hitherto unheard of. It was an advertisement in which the Edwin W. Joy Company, in proof of the curative properties of Joy's Vegetable Sarsaparilla, offered to submit it to the terrific test of "no cure no pay." Many accepted, and their experiences are so convincing as to be almost beyond belief. Here is another, written under date January 6, 1890.

DEAR SIR: I accepted your offer to test the merits of your vegetable sarsaparilla in the form of a bottle and got it. I had been troubled for a long time, and had tried nearly everything with little or no effect; but Joy's Vegetable Sarsaparilla acted almost like magic. I feel better and relieved from all the worst cases of skin headache one ever had.

MICHAEL R. PRICE, 16 Prospect Place, San Francisco.

We will from time to time publish others of these letters. It is doubtful if any remedy was ever before submitted to such a severe ordeal.

A NICE TRICK FOR THE LADIES.—The ladies of Sacramento have an invitation to go swimming bath at Pacific Water Cure. A chance for all lovers of water. See advertisement in another column.

THE TOJETTI SALE.

Choice Paintings Going at Ridiculously Low Prices.

There was a large number of people present last evening at the opening of the sale of oil paintings by the celebrated painter, E. Tojetti, at Turner Hall, but there were few buyers among them, and the few that picked up courage enough to bid on the pictures offered secured wonderful bargains.

The audience was assured that any picture offered for sale, on which more than one bid was made, would be sold, regardless of the sacrifice at the prices at which they were started indicated plainly that it rested wholly with those present as to the figures at which the pictures would be sold. It was announced prior to the sale that frames for only about one-third the pictures had been received, but more were expected.

The first picture offered was "The Artist's Model," the studio price on which was given as \$125. It was the profile of a brunette showing a cascade of fast, peaches, neck and shoulder. It was started at \$25, and was knocked down to W. J. McCarty for \$20.

The next one placed on the easel was "Fruit-Fruit," which was started at \$20, and fell to C. T. James for the very modest sum of \$7.50.

"Cupid's Call," one of the choicest of the small canvases in the collection, and a beautiful piece of drawing and coloring, next went to R. C. Richards for \$15, a sum that would scarcely pay for the frame and canvas.

The fourth one placed before the audience, for sale, was "The Amateur Sculptor." Somebody got up pluck enough to bid \$25 on the most eloquent of the auctioneer could not procure another bid, and it was taken.

The same result followed when "Meditation," "The Shepherdess," "The Italian Peasant Girl" and "Cupid" were offered. There was but one bid on each, ranging from \$10 up.

E. Miller was the only other buyer. He secured "The Amateur Critic" for \$55. The other pictures will remain on exhibition to-day, and this evening there will be another sale.

The paintings speak for themselves, and connoisseurs are invited to call and examine them. There is no limit on them, and any picture will be sold on which more than one bid is offered. Among those remaining unsold are some of Tojetti's regards as the best of his work. He is about to leave for Europe, and declares that this is the only time he has ever offered his pictures at public sale. He has painted a number of pictures that now grace the residences of the aristocracy of California, and have won admiration in European art circles.

THE EL DORADO FAIR.

It Opened in Placerville Yesterday, and Promises Unusual Success.

A correspondent of the Record-Union at Placerville writes under date of yesterday: The El Dorado County Fair opened to-day. Every available foot of space is taken. The farmers and fruit men are here with their teams, loaded with vegetables, fruits and cereals, and there is every indication that the fair will be a grand success. There is a prevailing feeling of satisfaction that the success of the exhibits will depend on the merits of the products of the county, and not on horse-racing, which heretofore has been the chief attraction.

NO PLACE LIKE HOME.

Doubtless so Thought an Oakland Woman Yesterday.

An Oakland woman, who is said to be married, came to this city on Monday evening and staid overnight. She appears not to have been alone during the hours that followed before the sun rose yesterday, but she was when she awoke in the morning.

Her companion during that time is said to have been one Charles Goldsmith. Yesterday morning the latter's high collar covered that she had lost even more than her reputation, for she was minus jewelry to the value of about \$450.

All that accounts the police were trying to recover the more tangible portion of her loss.

FRUIT IN NEW YORK.

The Good Prices Received—E. L. Goodsell's Predictions.

E. L. Goodsell, the New York fruit importer and auctioneer, who has disposed of a large amount of California green fruit in the metropolis this week, writes as follows, under date of August 15th:

"It will probably be of some interest to you to know what we are doing with California fruits in New York and what we have done during this past week. It has been an important one for the reason that the largest lot of fruit that has ever been sold from the Pacific coast in one week was disposed of in the greater part, by me since Monday last. In all there were thirty-eight carloads disposed of, of which I had twenty-nine. The variety of the fruits was quite large. There were 2,000 boxes of peaches, 10,000 boxes of pears, 10,000 boxes of plums and prunes. Peaches opened Monday at \$2.00 per box, yesterday \$2.00 on Tuesday, declined to \$4.00 on Wednesday and to \$4.25 on Thursday, with \$3.50 the top on Friday. At the high prices first mentioned I sold about 2,000 boxes of Peaches have been very active all the week for all kinds and varieties in good condition. (Most prices were not over \$2.00 on Tuesday, declined to \$4.00 on Wednesday and to \$4.25 on Thursday, with \$3.50 the top on Friday. At the high prices first mentioned I sold about 2,000 boxes of Peaches have been very active all the week for all kinds and varieties in good condition.)

"It is significant of the growth of the California trade that we have been able to get such prices for fruit, in the face of such heavy supplies. It is significant that New York should be able to take so much fruit and pay such prices, and the prophecy that I made some time ago, that we would soon be the principal market of the United States, is likely to be fulfilled sooner than I expected. Grapes are likely to meet splendid market and at good prices. The black rot is reported to have seriously injured the near-by vineyards, but it is not so serious everywhere, and no other fruits being in market during the winter, there is no doubt that the other pictures will remain on exhibition to-day, and this evening there will be another sale.

"As having a special significance, I call your attention to my sales of grapes on Tuesday, August 19th. Rose de Peris sold at \$2.75 to \$4; Tokays at \$3.40; Muscats at \$2.75 to \$2.75, all for single crates containing about eighteen pounds each of fruit. Peaches ranged from \$1.75 to \$2.00; pears from \$2.75 for ripe to \$3.00 for green; grapes from \$2.00 to \$2.25; egg plums, \$1.75 to \$2.00.

"These prices were made in the face of this year's crop, which was very large. Monday and Tuesday to-day, with the Chicago market ruling very much lower than ours, and hence supplies coming from there. The prospect for grapes from this seems bright, and a good market ought to be made for them. The shippers of domestic fruits are beginning to take advantage of the auction-room to sell through. I sold at auction a special train of ten cars of watermelons at the top market price on Monday, and in ten minutes. I have had a car of New York State apples given me to sell on Thursday. There is no doubt but what the auction method suits the producers of America.

Fractured Rib Ribs.

Hon. Edward A. Durruth writes: "STATE OF NEW YORK. ASSEMBLY CHAMBER, ALBANY, April 16, 1884. "Some years ago I was thrown from a wagon and fractured two of my ribs. I was so badly hurt that I had to stop in a chair for four days and nights. The fourth day my mother placed two Allocock's Porous Plasters over my broken ribs. The next day my sufferings diminished and I was able to lie down. I continued to improve every day. Two weeks after the accident I got up and attended to business. I renewed the plasters twice, and found myself almost entirely well in a month, when I sailed for England.

"I am now subject to periodic pains in the back that give me rest neither day nor night, but in two hours after applying two Allocock's Plasters she experiences relief, and in two or three days she is well. She also finds them effective in neuralgia and rheumatism."

Beware of imitations, and do not be deceived by misrepresentation. Ask for Allocock's, and let no solicitation or explanation induce you to accept a substitute. Allocock's Corn and Bunton Shields effect quick and certain relief. Few children can be induced to take anything but a struggle, and no wonder, drugs, and especially Ayrer's Pills, on the contrary, being sugar-coated, are eagerly swallowed by the little ones, and are therefore the favorite family medicine.
