Amicable Settlement of the Strike on the Panama Railroad.

PANAMA, September 14th.—Monday, the 1st inst., witnessed the beginning of a general strike among the Panama Railroad employes of all classes.

Colon was the headquarters of the strike necessarily, but the employes at Panama and along the line were in perfect accord with their brethren in Colon.

By the efforts of the Prefect active hostilities were discontinued, but the strikers so harassed the workers during the noon effort to continue the work had to be abandoned.

An appeal was made to the Government for military aid, and a detachment of fifty soldiers and officers was dispatched to Colon from this side.

On this side some men were induced to attempt to work, but were likewise driven off by the strikers.

The telegraph to Colon was cut and several attempts made to tear up the track. These, however, were discovered in time, and no serious results ensued.

RECIPROCITY.

Representative McKinley Expresses His Views on the Subject.

WASHINGTON, September 14th.—Mr. McKinley said today in the Philadelphia Press that his views on the subject of reciprocity were the same now as when he delivered his first tariff speech in this Congress.

When, in referring to a speech made by Mr. Charlton, a member of the Canadian Parliament, in which that gentleman showed how Canada had benefited under reciprocity with the United States, Mr. McKinley said:

"The same condition has been true as to every agreement of reciprocity we have ever had with any nation of the world. We have been beaten in every instance from 1850 to 1880."

When the services were concluded the body was deposited in a hearse and a procession formed, in which were representatives of the King, the Crown Prince and Governor, the American Ministers to Sweden and Denmark, the officers of the warship Baltimore and municipal officers.

It is estimated that over 10,000 persons viewed the procession.

In an immense crowd assembled, and when the coffin was placed upon the bier dozens of wreaths and other floral emblems were heaped up around it.

The services were very simple, consisting of the singing of Swedish hymns and the recital of a poem.

COAST BLAZES. A Warehouse Filled With Wheat Destroyed at Fresno—Fire at Vacaville.

FRESNO, September 14th.—A fire started about 1 o'clock this morning in a small dwelling-house adjoining the warehouse of the Fresno Milling Company, almost in the heart of the dwelling portion of the city.

The flames soon leaped to the warehouse. The fire department was unable to stop the fire and within an hour almost the entire warehouse building was burned to the ground.

It was valued at \$8,000; insurance, \$4,500. The value of the wheat in the warehouse was about \$20,000; insurance, \$6,000. The wheat was mostly consumed.

The fire is supposed to have been started by a pipe or cigar stump that had been laid aside when the three men were in the dwelling-house to bed. One of the men, Frank Rosenzanz, was severely burned and will probably die.

VACAVILLE, September 14th.—A fire started last night about midnight in a store occupied by Strong & Co. of Sacramento as a fruit-packing business, on the north side of Main street, and burned east and west, destroying Snyder's wagon, hardware, various stores, Hill's restaurant, Beam's saloon and Hacke's hardware store. Loss, \$10,000; insurance about \$3,000. It is supposed to have been of incendiary origin.

PACKING HOUSE BURNED. COLFAX (Wash.), September 14th.—The Colfax packing house was destroyed by fire last night. Loss, \$25,000; insurance, \$14,000. The fire was caused by the explosion of a lamp. The company's plant was burned several times and has only been rebuilt a short time.

THE SOUTHERN PACIFIC. A Conference to Wages of Employees.

SAN FRANCISCO, September 14th.—At the meeting of the Brotherhood of Railway Brakemen last night, the strike of the switchmen was denounced on the ground that the switchmen had not received sufficient provocation for striking.

The day crews were all at their posts yesterday morning and by hard work the night crews of the crowded yard was pretty well strained out yesterday.

The night crews also went to work at 6 o'clock last evening.

S. E. Wilkinson of Galesburg, Illinois, Grand Master of the B. R. M., has arrived in San Francisco for the purpose of adjusting the grievances between the brakemen and the Southern Pacific Company.

The brakemen demand an increase of wages, and it is expected that the matter will be settled to-morrow, when they will confer with A. N. Towne of the Southern Pacific.

The union is in a prosperous condition, all the members are employed, and unduly cautious for membership were received last night.

General Superintendent Fillmore, Assistant General Superintendent Pratt and the division superintendents of the Pacific system of the Southern Pacific road spent another day yesterday in consultation over the schedules of wages to be presented to the representatives of the employes.

The schedules for the different divisions vary owing to the different conditions existing, but they are made more uniform than heretofore. They differ in many details from the schedules demanded by the employes, but in their general average they practically concede all that was asked.

They give substantial increases in wages, and will increase the total wages paid the trainmen by at least \$4,000 a month. On some divisions a little less than what was asked is given, and in others it is more as given in order to make all as near equal as possible, and equal to the wages paid on other Western lines. The schedules being prepared by the officials and unduly cautious for membership were received last night.

THE SYMPTOMS OF LIVER COMPLAINT. A bitter or bad taste in the mouth, pain in the back, sides or joints, often mistaken for rheumatism; sour stomach, loss of appetite, bowels irregularly constipated and lax, headache; loss of memory, with a painful sensation of having failed to do something which ought to have been done; debility, low spirits, a thick yellow appearance of the skin and eyes; a dry cough often mistaken for consumption.

Some of these symptoms attend the disease, at others very few; but the Liver, the largest organ in the body, is generally the seat of the disease, and if not regulated in time great suffering, irascibility and death will ensue.
