

ISLAND SUBSCRIBERS.—JOHN W. WOOD has been removed from this route in consequence of delinquencies.

CUBA.—"The Alamo" was the cry that called thousands to the field of battle, that reddened the plains of Texas with the blood of the Mexicans.

"The Castle of the Atares" is now the cry of vengeance, and will never be silenced until the standard of liberty shall float in triumph throughout the Island of Cuba.

Cruelty and cowardice are ever allied, and were never witnessed in more execrable ugliness than in the recent fiend-like acts of the Spanish authorities at Havana.

The lives of the fifty captives were not a necessary sacrifice; but if they were, why should all the forms of so solemn a rite as their execution be disregarded?

The President of the United States and most of his Cabinet are far away from the scenes of their duty. Perhaps it is as well; they best know, yet there are men in our nation who, if they held these offices, would be here, and would prove potential for good in this fearful crisis.

Our Consul at Havana was at his post; but we would that he too had been absent. A letter-writer in the New York Herald says of him: "The saddest portion of the history which I have to relate is the indifference of the American Consul to their sad fate."

After some conversation he concluded that he would write to the Captain-general, which he did, requesting only an interview. At two o'clock he had received no answer.

"Proclamation of the President," the Consul may allege "the want of power"; but where will the man hide himself when the fathers and mothers shall ask him tidings of their sons?

A man looking set of young men I never saw; the most not a single complaint, not a murmur, against the sentence, and I scarcely could have been shown to their dead bodies, in admiration for the heroism they displayed when brought out for execution.

MONEY NOT HONESTLY OBTAINED.—Two colored women were taken before Justice Crandell yesterday morning, their conduct being suspicious. On the person of one, calling herself Jane Johnson, was found a large sum of money, ingeniously secreted in various places.

It would be well for persons having lost money lately to call at Justice Crandell's, and examine that in his hands.

THE FLYING EXPERIMENT.—It appears that the account of M. D'Arville, which we have published, was a complete hoax.

THE FLYING EXPERIMENT.—It appears that the account of M. D'Arville, which we have published, was a complete hoax. Galligani's Messenger says: "Some of the journals have published a long and very detailed account of a flying-machine. We were convinced at the time that this was a hoax, and therefore did not give it."

The Cuban News

The melancholy news from the Island of Cuba we yesterday laid before our readers, in our telegraphic despatches, is confirmed and amplified in the papers of this morning, but no additional facts are given.

The following is a corrected list of the slaughtered:

- Col. W. S. Glavin, Capt. F. S. Sewer, Capt. Victor Kerr, Capt. T. B. Vasey, Lieut. James Brandt, Lieut. J. O. Brice, Lieut. Thos. C. James, Dr. John Fisher, Dr. A. E. Tourniquet, Sgt. J. Whittier, Sgt. A. C. Colchett, Lieut. H. H. Holmes, Privates Samuel Mills, Edw. Rutman, George A. Smith, W. J. Wreay, William J. Arnold, Anselmo Torres Hernandez, W. B. Little, Robert Cantley, John G. Sanks, James Haxton, Thomas Harriet, Patrick Dillon,

The New York papers of yesterday morning contain lengthy accounts of the Havana executions and the Lopez expedition. It appears that Lopez landed on the 12th near Cubanos, with about one thousand men.

An intense excitement prevails here in regard to the Cuban affair. Fears are entertained of a collision between the authorities and sympathizers. The military has been ordered to be in readiness in case of an outbreak.

WILL ANOTHER of our most talented and highly respectable citizens speak for HAMPTON'S VEGETABLE TINCTURE. BALTIMORE, July 18, 1851. Messrs. Mortimer & Mowbray—Gentlemen: My daughter having been afflicted for more than a year with the cholera, and having tried every medicine that was prescribed by some of our best physicians, without affording her any relief, I fortunately was advised by a friend to try your medicine, and I purchased a bottle of your Tincture, which relieved her of her pain in less than twenty-four hours. I am pleased to say that since she took it she has been free from pain, and is gradually gaining strength, and I attribute entirely to the restorative properties of this medicine. I believe if it were more extensively used, it would do more good in the removal of cholera than any other medicine that I know of. Very respectfully, your obedient servant, HENRY FORREST, Jr., Principal Western F. H. School.
