

The Rev. Theobald Mathew. This gentleman, so highly distinguished by his services in the cause of temperance, has closed his career in our country, and returned to his native land.

This is a grave charge, and it is with surprise we have heard it proclaimed. Our reason for not aiding to lionize him was simply that we knew several Americans who had preceded him in laboring in the temperance cause, who had proved as able, as faithful, and as devoted as he, and who were yet without honor.

We have before us an article on this subject, the publication of which we must withhold until assured of the truth of its statements. We do not know that they are true; and until convinced of this, we cannot give place to them, in connexion with the severe strictures of the writer.

1. That no knowledge exists in this country or in Europe of any individual indebtedness of Mr. Mathew.

2. That he is a friar, and therefore, under his vow of poverty, cannot retain any money given him, but must bestow all he receives from any source upon the "Propaganda fide," or use it under the direction of this authority.

3. That if he ever did contract a debt of any considerable amount, it was for the construction of a magnificent Cathedral at Cork in 1843.

4. That by the sale of the medal he had stamped, by an annuity of £300 a year from the queen, and by other contributions and means of assistance, he has always received sums of money more ample than are believed to be possibly requisite for his needs in the prosecution of his temperance efforts.

5. That while all the temperance societies and agents in this country make clear exhibits of all their receipts and disbursements, and the funds gathered by him are unknown, and the uses to which they are applied are unrevealed.

6. That Mr. Clay was deceived by some person traveling in the suite of Mr. Mathew, into the belief that the latter gentleman was burdened with an oppressive debt of \$30,000, and that while Mr. M. was a guest at his house he wrote a statement to that effect to Mr. Grinnell.

7. That in pursuance of this statement, and Mr. Clay's recommendations in view of the facts assigned, a subscription was taken up and the proceeds given to Mr. M., who did not contradict this report.

8. That nevertheless Mr. Mathew had himself positively declared, a few months before, that he owed no such debt, that he was fully out of debt, and free from all the anxieties of a debtor!

We repeat, that whether these charges are true or false we do not know, and that we publish them for the purpose of eliciting the truth. If they are true, a miserable, disgraceful, villainous, and infamous scheme of imposture has been practised. If they are false, a mild, kind, benevolent, charitable and estimable gentleman and religious minister has been most vilely and shamefully slandered.

The Fusion of Parties. "Let the dead bury their dead; it is a poor business to galvanize corpses." We take this quotation from an eloquent and patriotic editorial in the Baltimore American of this morning, in which the writer reviews the political position of Georgia.

He says that Georgia is "a State that is destined to hold—if it does not hold it already—a controlling influence over opinion and policy at the South. She deserves to hold such influence; for she is no dealer in abstractions, like her eccentric neighbor, South Carolina, that never knew what she would be at, but was always for making a fuss generally.

Messrs. Downs and Souls, of Louisiana, have had a protracted political and personal controversy—each contending for the leadership of the Democratic party, or at least desiring to be the leader of a section of it. We infer, however, from the remarks of the New Orleans papers, that the party will glide from them both and unite under more harmonious leaders.

A pleasant sun to-day—when seen.

The Hon. Thomas Hart Benton. A few days since our readers were informed that this veteran legislator was about to leave this city for Missouri, and that it was his intention to address the people in every county of that State in relation to the political topics of the day.

We have often heard Colonel Benton on the theatre of his fame—the Senate of the United States. His talents, learning and powers of research are conceded by all. His speeches on "Coarse Blankets," "Alum Salt," and "Hard Money" are to the people as familiar as household words.

Hon. H. J. Thornton. We perceive in a number of our exchanges a paragraph to the effect that this gentleman, one of the California land commissioners, is still lying dangerously ill, and his life endangered, caused by the amputation first of his left hand and subsequently of his left arm.

THE MORMONS.—Freedom of conscience is a precious boon, and must ever be defended by all true republicans; yet are they not called upon to credit the religious professions of a band of blasphemers, robbers, murderers and traitors—and such the society of Mormons have been throughout their entire existence.

We are informed by one of the judicial officers, who recently left the Great Salt Lake city, of the occurrences that caused the government officers to leave that country. He says the officers sent there were not only treated with coldness and disrespect, but that the government of the United States, on all occasions, festive or religious, was denounced in the most disrespectful terms.

The writer adds, that being deputed to get a block of marble from the people of Utah for the Washington Monument, he addressed a meeting; and that at the close of his speech the governor arose, and denounced him and the government in the most brutal and unmeasured terms.

The Hon. RICHARD BRODHEAD, a Senator from the State of Pennsylvania; the Hon. JOHN H. SAVAGE, a Representative from the State of Tennessee; and the Hon. EDSON B. OLDS, a Representative from the State of Ohio, arrived in this city last evening, and took lodgings at the National Hotel.—Union.

The New Era for Alexandria.—The Gazette of yesterday states that four railroad passenger cars were brought to that place on Monday, on board the brig Judge Whitman and schooner Francis, from Boston—two for the Orange and Alexandria railroad, and two for the Manassas Gap railroad.

STATE IMPOST DUTIES.—It appears that the Governor of Alabama has made a recommendation in his message to the Legislature that an impost duty on goods, wares and merchandise coming into Alabama from certain States be imposed. It is thought the Legislature will keep his excellency straight.

New United States Senators. Jones, of Tennessee, and Toombs, of Georgia, will be very acceptable to us Washingtonians. We are anxious to learn the names of Mississippi's new brace of Senators.

Flunkeyism! Conversing some years since with a distinguished American, Lord Brougham asked him why it was that his countrymen abroad were so un-American—why it was that they abjured so entirely that political freedom which at home they were accustomed so much to boast—and why they there everywhere appeared as the toadies of foreign men and foreign institutions.

NEW ORLEANS, Nov. 17.—We have dates from the capital of Mexico to the 6th instant, which report that Gov. Letcher had assured the Mexican authorities that the American Government would not sustain the provisions of the Tehuantepec company. It was also reported that the company were negotiating with the government of Mexico to surrender their claims on certain stipulated terms.

PRICE OF A MAN'S EYES.—Milton Clark has been convicted, in Wayne county, Mississippi, of cutting out the eyes of a man named Dodd, seventeen years ago. He was fined \$1,000, and sentenced to stand in the pillory for three days. We do not like this pillory business. It is almost as barbarous as the crime for which the fellow is punished. We would add a thousand dollars in lieu of each day's punishment, and then board the fellow gratis for a time.

Anatomy.—For thirty years past, there has been going on in this city a curious process by which the bones of skeletons are dissected, purified, scraped and washed, when they are again replaced by means of wires, tines, &c., and arranged in all their primitive strength, beauty, and levelness, braving the mon-day sun of the summer solstice, or the pattering rain or hail of more inclement seasons.

TRUTH SPREADING.—The Philadelphia Sun says of the Christian Statesman, published at Washington city, and edited by the Rev. R. R. Gurley and Daniel E. Goodloe, that it deserves the patronage of every friend of humanity. So think we.

Where is Turner, the American vocalist? We want to hear him in this city. At the present moment we can give him his choice of our great public halls.

Jenny Lind is to sing in Boston on Saturday and Tuesday nights.

Henry Clay left Ashland on Saturday last, and a letter received from him by a friend in this city states that he will be here on the 23d instant—Sunday next. He is well in health, we are gratified to learn.

Ladies and children should wear woollen garments in winter. They effectually preclude all possibility of accidents by fire.—Phila. Sun. And keep off the cold a little too.

The consequences of this derangement are first Dyspepsia, known sometimes by indigestion, flatulency, and sometimes by diarrhoea or looseness of the bowels, headache, nervous feelings, cold feet, wakefulness, and variable appetite, &c.
