There are some people like some business that cannot live in hot competition and are obliged to seek refuge from the storm in some exclusive port.

Exclusiveness is no justification for high prices and no one man or one house ever attempts the exclusive role unless they have as their object that which they could not obtain in the open market of competition.

and when you see or hear of a business house advertising some exclusive agency or exclusive style rest assured they are after a price than they know they could not realize did close competition regulate the prices.

The exclusive house asks you 60c, the "Arcade" only 50c.
