CALL FOR REPUBLICAN COUNTY CONVENTIONS.

Notice is hereby given that a delegate convention of the Republicans of Sedgewick county, Kansas, will be held at Gardfield in the city of Wichita, Saturday, August 9, 1890, at the hour of 10 o'clock a. m. for the nomination of candidates for the office of the district court.

These will also be held at the same place, and immediately after the adjournment of the Republican county convention, a convention to nominate a candidate for representative for the first congressional district, and also a convention to nominate a candidate for representative of the eighth-second district, and also to nominate a candidate for commissioner of the first commission district.

Table listing various townships and delegates for the Republican State Convention, including names like W. H. Smith, J. H. Smith, etc.

The delegates will be selected at the primary to be held at the usual voting places, on Wednesday, August 7, 1890, between the hours of 2 and 4 p. m.

REPUBLICAN STATE CONVENTION.

A delegate convention of the Republicans of Kansas is to be held in the city of Topeka on Wednesday, the 31st day of September, 1890, at the hour of 10 o'clock a. m. for the nomination of candidates for the office of the supreme court.

Delegates to the convention mentioned above shall be elected by county convention, only called by the general county Republican committee, under such rules and regulations as may be adopted.

Large table listing delegates for the Republican State Convention, organized by counties and districts, including names like A. B. Campbell, J. H. Smith, etc.

The delegates to the county convention from the various representative districts shall constitute the whole of the convention, and the arrangement of the delegates shall be in the order of the counties.

STATE REPUBLICAN RE-SUBMISSION CONVENTION.

A delegate convention of the Republican Re-submission of Kansas will be held in the city of Wichita, on Tuesday, the 31st day of September, at the hour of 10 o'clock a. m. for the nomination of candidates for the office of the supreme court.

Delegates to the convention mentioned above shall be elected by county convention, only called by the general county Republican committee, under such rules and regulations as may be adopted.

Table listing delegates for the State Republican Re-submission Convention, organized by counties and districts, including names like A. B. Campbell, J. H. Smith, etc.

The chairman of each Republican Re-submission County Central Committee will be required to submit to the undersigned secretary at Topeka, Kansas, and credentials to be received by him before the 15th day of September, 1890.

It is said that snakes with legs have appeared in Iowa. For a prohibition state that is the worst characterization we have seen.

Louisiana ought to thank the Atlanta Constitution for its boycott proposition. It has distracted public attention from the lottery squabble.

The city council of Topeka has passed an ordinance fixing eight hours as a day's work for all city employees, directly, or those working on public improvements under contract from the city.

Newfoundland is the next to agitate annexation to the United States. Her premier says that if Great Britain does not do better by her she will come to the loving arms of Uncle Sam; that is to say, she will so dispose if our Uncle is so disposed.

PROHIBITION NOT A REPUBLICAN DOCTRINE.

The Capital makes a strong appeal to the Republicans of Topeka to rally for the principles of the Republican party, meaning prohibition. The attention of the esteemed is called to the fact that "prohibition" is not a tenet of the Republican party.

Salisbury bluffed Cleveland's administration, square out; but, ten to one, Jim Blaine won't be bluffed. Blaine understands England's European complications just as well as Salisbury, and the Canucks had better let up on their seal poaching in the Behring sea.

Will the EAGLE read its correction of the Capital over again and say where this correction comes in? Topeka Capital is hardly more than a quarter of the inflated estimates which have found currency in the free trade press.

The Financial Chronicle, a commercial paper of high authority and Democratic in politics, pronounces the new silver law "a far better one than we anticipated," and declares that "the new currency is in quality immeasurably superior to the old," because distinctly redeemable in gold and having behind it adequate provision for its redemption.

Blaine is too great a man to be president. A statesman whose every public utterance is coined into party policy excites too much jealousy among political manipulators to ever reach that eminence.

The first and most positive effect St. John's stamping of Nebraska in favor of a prohibitory amendment to the state constitution was the action of the Republican state convention of Lincoln last week in tabling a resolution to endorse that proposition.

In the absence of any intelligent reason for the war now prevailing between two or three Central American states it is not uncharitable to say that they have fallen upon that plan as a means of advertising the country to the world.

THE SUB-TREASURY SCHEME.

Recently the Alliance of the Sixth congressional district of Georgia submitted to the representative in congress from that district several questions with respect that he answer them in order that they might determine what course to pursue in regard to withholding or according him their support in the pending campaign.

"Money is designed as a measure of the value of property of all kinds. It, therefore, must be stable to answer the purpose. To increase it, increases the nominal value of articles. To decrease it, decreases the nominal value."

The Emperor of Germany found no difficulty in riding his cabinet of Prince Bismarck, but he is finding it no small job to get rid of the prince's strictures. He has tried almost every other means, but he has failed.

The news from Buenos Ayres, the capital of the Argentine Republic, is more a matter of record than surprise. A condition of serious unrest has been known to exist there for some time owing to the arbitrary methods and acts of some of those who have been in high official positions.

INGALLS AS A LAWYER.

The Topeka Capital refers to Senator Ingalls as "an eminent lawyer." Where and when did the senator acquire eminence as a lawyer? I am unwilling to add another dollar to the burdens of the highest taxed people on earth.

Last Wednesday was the fifth anniversary of the death of General U. S. Grant, the nation's hero. Still New York neglects her duty and disregards her promise. No monument to his memory has been erected where he sleeps to deem of warfare no more.

MUST BE EXCUSED.

As an offset to some acrimonious and ill timed words addressed to Wichita, a prominent business man of Newton writes us a letter enclosing some suggestive business figures and facts together with some newspaper extracts and a comparative showing of the banking business, present and past, at Newton.

The Leavenworth Times denounces Rev. A. B. Campbell as a designing demagogue, as one who has been a leader and a tool in the hands of those who have been prohibitionists for revenue only.

The comparative meanness of this body, and the fact that its phases occur in about seven days, which is approximately the interval for the occurrence of storms, have made it one of the most popular influences for weather changes.

Guatemala has 100,000 muskets but no men to carry them. Ingenuity has gone very far, but it hasn't invented a patriotic musket, yet.

Between the roof and the fence a good many Kansas politicians are managing to keep off the ground just now. The ones who keep a firm footing on terra firma are the ones who will win in the end.

The census returns already made from Maine and Kansas, each a representative state of its section, indicates that the actual amount of mortgage indebtedness is hardly more than a quarter of the inflated estimates which have found currency in the free trade press.

According to Judge Brewer, if the house substitute for the original package bill becomes a law, it will not only practically end the original package business, but it will also prevent the dressed beef combine from shipping their goods into Kansas, the shipping of Texas cattle through the state if diseased, and the exclusion of Louisiana sugar.

Some nineteen years ago a gambler very rich in gold, horses and lands lived in Medicine Lodge. It seems he was a progressive sort of a gambler. To encourage immigration he offered a very choice bit of property near Medicine Lodge to the first child born in Barber county.

MAIZE, Kan., July 26, 1890. I see in the prints a resolution passed by the last meeting of the County Alliance in regard to the tariff. I am sorry to declare myself opposed to the members of the alliance who are in favor of it.

LAND MORTGAGE LAWS. Any law which permits the taking of several dollars worth of property to pay one dollar's debt and that without a remedy, only legalizes robbery, and the robbery is none the less worthy of condemnation because legalized by statutory enactments.

THE RECORD CLOSED. Even before Mr. Cleveland was inaugurated President he declared in an open letter in favor of the suspension of the coinage of two millions a month as then authorized by law.

LITERARY NOTES. Dr. Charles Waldstein, of the American school at Athens, will contribute to the next number of Harper's Weekly a paper describing the recent excavations and discoveries at Delphi.

A. B. Campbell doesn't seem to be so good a patron of the hotels as Jim Troutman.

The Fort Scott Monitor blames it all on Prohibition Campbell's ancestors. They are better fitted to bear it sure enough.

The Seventh district congressional convention takes place at Dodge City tomorrow. Most of the delegates have been instructed, or have it in their own minds to Halo-wover the man nominated.

Reverend Embree of Leavenworth got angry the other day and shot another man's dog. And, of course, it so happened that the man whose dog was shot didn't like Embree anyway, and he had him arrested.

The state officials will visit Genda Springs next week. Bill Higgins has slipped down a few days beforehand, and by the time the crowd arrives will be able to drink from all the seven springs in succession without gagging.

The Oklahoma City Times assures us that the Democrats of Oklahoma are on the rise. They are not only making the Democrats go right ahead making nominations.

An item from Downs says: "Everybody is waiting for the state." If it is the case why don't Downs decide and start up a little government of its own? "Everybody" can't get an office.

The union labor folks of the Fourth county met at Frisco Wednesday and nominated the following ticket: W. S. Rice for the county, W. A. Daniels, J. D. McKenney and J. W. Burk for the house.

Edmund is now a village with five trustees under Nebraska laws. The trustees are: W. S. Rice, J. D. McKenney and J. W. Burk for the house.

At Oklahoma City Saturday the Democratic county convention nominated Dr. J. S. Richardson and L. G. Pittman of Oklahoma City, and Dr. J. W. Howard, of Edmond, for the territorial council, and Messrs. J. H. Beatty, J. E. Jones, W. D. Henney, G. M. Burke and S. B. Back for the house of representatives. Judge Cass was defeated for the nomination as joint representative of Reno and Norman on the Democratic ticket.

Guthrie (Capital)—Oklahoma farmers have a valuable crop this year if they will only save it. Every claim has several acres, most claims have many acres, that will cut half a ton or more to the acre. Hay, this winter, will be in demand at five to twelve dollars per ton. That will make a considerable revenue for each farmer, and every mowing machine in the neighborhood should be kept busy until frost. Hay this year will pay, if the reservations part of us are opened this fall or winter, the price of hay will be almost fabulous.

The townsite commissioners of Guthrie are at last on deck. The board is organized and the application to enter the town site at the land office has already been made. The people of Guthrie are impatiently and at last the process of granting titles has begun, says the News. After one year and three months since the founding of Guthrie, the step was taken yesterday which is usually done on the first day of the existence of most towns. That step was to secure titles to the reality of the town. This step is usually completed by the latter part of the month.

The land office at Guthrie has been instructed to provide the officers at Oklahoma City with a complete list of all entries of record against which contest is pending in the Guthrie office, including an accurate transcript of all proceedings had therein and papers relating thereto, in cases where contests have been commenced, but notices have not been issued. The office will withdraw its notice until the land office is opened when they will transfer the case to Oklahoma, for appropriate action by the new officers. And where hearings have been ordered to be held before the Guthrie office on a day subsequent to the day fixed for opening the new office, involving entries or claims to land in the district, it will adjourn the trials indefinitely, with notice thereof to the parties, and forward the papers to the new office.

The Eagle is one of the most important papers in the west and is made the more conspicuous now as all eyes are directed towards it in its championing the cause of re-unionism and in fact is the only heavy Republican daily in the state that takes that position. Quite a number of our merchants and business men take the daily EAGLE as it reaches our place as early as any other daily. It gives full and reliable reports of all the daily news and is as ably edited as any paper in the state.

OKLAHOMA OUTLINES. A week from today, it decides a good deal. Mill Reynolds says prohibition will not go in Oklahoma. The First National bank of Oklahoma City has been organized. The present noise in Oklahoma would make the abolitionists ashamed of themselves. The Union Labor party of the Eight representative districts did not nominate a candidate. That history of Oklahoma better hold off.
