California's Democratic Leader. Hon. E. B. Pond, recently nominated for governor by the Democrats of California, secured the honor after an exciting contest, in which his chief contestants were W. D. English, of Alameda, and J. V. Coleman, of San Mateo.

By the electric methods of voting a question could be put to the house, each member in his seat would press the white or black button on his desk, and on a dial in front of the speaker's chair would appear not only the name of each member voting, with the nature of his vote, but the total number of yeas and nays, ascertained with infallible accuracy by the machine itself.

Mr. Pond is a native of New York state, and has been a resident of California since 1854, and of San Francisco since 1858. He is 57 years of age.
