

NOTES FROM GERMANY.

A Budget of Personal and Political Gossip from the Fatherland.

BREITEN, Nov. 8.—The relations between the Italian court and Austria have been further strained by advices from Count Magia, the Italian ambassador at Vienna, that Cardinal Gallimberti, the papal nuncio, has been summoned upon Emperor Francis Joseph, through the empress and archdukes, to break the connection with Italy.

The reforms of Rome, contrived to get hold of dispatches from Cardinal Gallimberti to the pope, reporting progress in the diplomacy tending to isolate the Italian government. The authenticity of the dispatches as published has not been denied.

Prime Minister Crispien has been for a long time urging that the emperor of Austria ought to visit King Humbert's visit. He now insists upon Austria's recognition of Rome as the capital of Italy, by the emperor going to the Quirinal. The emperor, he believed, the Chancellor von Caprivi started with authority to soothe Signor Crispien and King Humbert, by a promise that the emperor of Austria would go to Rome in the spring.

Communications from Count Kalnoky, the Austro-Hungarian prime minister, received before the chancellor left, it is understood, announced that Emperor Francis Joseph would submit in the event of Signor Crispien maintaining that his reception in Rome is necessary for a continuance of the triple alliance.

Chancellor von Caprivi's remarks indicate that the affair has been settled as Signor Crispien demanded. The autograph letter from Emperor William to King Humbert, of which the chancellor was the bearer, alluded to the chancellor's services in executing Germany's foreign policy, and said the emperor agreed with him.

The reports that the chancellor wanted combined reprisals against the United States because of the McKinley bill are unfounded. The Austrian papers are still banking after retaliation, although the negotiations here for a commercial coalition resulted in utter failure. Italy is the least affected by the bill of any European state. She would not risk offending America to satisfy a doubtful ally.

The chancellor will return by the way of St. Gothard in time to attend to the opening of the landtag on Wednesday. Several reforms that are certain to be proposed in the speech from the throne will be seriously opposed. A reduction of the tariff on wheat and rye, and reforms in the commercial laws, among them being the abolition of old feudal rights, will be fiercely contested by the old nobility. The emperor, according to the belief in the ministerial circle, is determined to make no concessions. If the lower house refuses to accept the reforms proposed, the government will dissolve it without delay.

The Heligoland bill for the landtag does not conceal the fact that the island is to be used for war purposes. It declares that the island is valuable as an outpost for attack and defense, and will be of special value in time of war. It must be strongly fortified against a hostile coup de main. The bill does not detail the extent of the proposed defensive work nor its cost.

The medical journals refer cautiously to Prof. Koch's cure for consumption. The professor begs his medical friends to refrain from discussing the subject until his investigation shall have given more reliable results. The Pharmazeutische Zeitung confirms the statement that the professor's method is inoculation with a weakened cultivation of tubercular bacilli. The Medizinische Wochenschrift declares that the therapeutics of consumption are on the eve of a new victorious scope. Prof. Koch declines to state when he will be able to present a report of his experiments. He says the results are still too limited for scientific certainty.

THE POPE APPEALED TO. LONDON, Nov. 8.—A dispatch from Rome states that the pope, from some states through Cardinal Rampola, in behalf of the British government, to prohibit Catholics in America from contributing to the funds of the Irish National league, on the ground that the funds are used for unlawful and immoral purposes.

Share cuts.—Preston's "Hed-Ake."

WEATHER BULLETIN.

SIGNAL OFFICE, WICHITA, Kan., Nov. 8.—The highest temperature was 68°, the lowest 35°, and the mean 46°, with light rains; 42 inches, ending at 3 p. m., followed by warmer, clear weather; lower pressure, fresh northeast to brisk southwest winds becoming light southeast at night.

Last year, on Nov. 8, the highest temperature was 46, the lowest 32°, and the mean 39° with 45 inches of rain, and two years ago the corresponding temperatures were 46, 31° and 32°, when the worst snow storm of the season.

FRED L. JOHNSON, Observer. WAR DEPARTMENT, WASHINGTON, D. C., Nov. 8, 8 p. m.—Forecast until 8 p. m. Sunday:

For Kansas—Fair, slightly warmer; variable winds.

For Missouri—Rain followed fair in southern portion; warmer southerly winds.

OBITUARY.

COLUMBIA, Tenn., Nov. 8.—Hon. Barclay Martin, the oldest living ex-congressman in Tennessee, lies very ill at his residence near this city. There is no hope of his recovery.

NASHVILLE, Tenn., Nov. 8.—Ex-Governor Edward A. O'Neal died yesterday morning at his residence in Florence, Ala., after an illness of five weeks, from paralysis. Governor O'Neal served two terms as governor of Alabama.

SPRINGFIELD, Ill., Nov. 8.—Robert T. Lincoln, minister to England, has telegraphed the Lincoln Memorial association that he will arrive in Springfield, accompanying the bodies of the late Lincoln, Jr. The interment at the tomb will be without ceremony, in deference to Mr. Lincoln's desire.

WASHINGTON, Nov. 8.—Don Frederick Valery, chargé d'affaires of the Costa Rican Legation, and acting minister for some months, died suddenly this morning in his rooms at the Elsenore, in this city, of pneumonia, after an illness of five days.

Why suffer? Preston's "Hed-Ake" will cure you.

THE PACKERS TO MOVE.

CHICAGO, Nov. 8.—The Chicago packers of canned meats held an important meeting this afternoon. All the large packers were represented, the object being to take some action in view of the increased duties.

The meeting was also for the purpose of discussing the possibility of moving the stock yards and plants of the various packing houses. It was decided to advance canned meats 1/2 cents a pound, such advance being declared necessary to cover the additional cost of the tin under the new tariff schedule. After the meeting, P. D. Armour, in an interview, confirmed the report that the yards would be removed. It had been shown, he said, to be feasible to establish at a profit new and greatly improved yards and packing houses with better facilities.

Catarrh oftentimes leads to consumption. Take Hood's Sarsaparilla before it is too late.

WEEKLY BANK STATEMENT.

NEW YORK, Nov. 8.—The weekly bank statement shows the following changes:

Table with 2 columns: Item and Amount. Reserve: \$1,346,225 8/100. Loans: 936,200. Deposits: 1,908,900. Circulation: 7,381. The banks now hold \$2,744,430 less than the requirements of the 25 per cent rule.

Immediate, harmless—Preston's "Hed-Ake."

BIRCHALL.

WOODSTOCK, Ont., Nov. 8.—Birchall has received a card from the "colonel" dated as before, from Jackson, Michigan, in which he protests that he did the shooting and not Birchall. The card was submitted to an expert, who is familiar with Birchall's hand writing. He at once pronounced it to have been written by the prisoner. He had no doubt about it, and no hesitation in saying so.

JAY GOULD HAS HIS EYE ON TRINIDAD.

There is the best of authority for stating that Jay Gould is negotiating for the purchase of a number of thousands of acres of the coal lands about Trinidad, Colo., in the interest of the Missouri Pacific road, which only requires an extension from La Junta of fifty miles to reach that point. The coal freightage from Trinidad, which has reached already 8,000 tons per day, and is in its infancy, is attracting the attention of all railroads competing for business in the Rocky mountain country.

Salvation Oil, the great, pale annihilator, is the staple liniment. Price only 25 cents. The effect of Dr. Bull's Cough Syrup is most soothing. The price is only 25 cents.

THE PAN-AMERICANS.

NEW YORK, Nov. 8.—Mr. William H. Arno, chairman of the Pan-American congress, reports that the subcommittee entrusted with the duty of enlarging the committee to 200 members has completed its work. The general body will meet in the city of New York on December 6. Mr. Arno adds:

"The purpose for which the committee is organized is to hold a congress of delegates from all the republics of the world, and of eminent friends of popular government of all countries, who may be selected as delegates thereto, at some time during the period of the Columbian exposition, and at some point in the United States, to be subsequently determined, for the purpose of drawing the republics of the world into closer bonds of sympathy, and of discussing such legislation as shall be for their mutual benefit and the further progress and welfare of mankind."

"The meeting is to be held under the auspices of the government of the United States, secured by such legislation as shall be deemed essential therefor. The plan and scope of the congress is to be more fully formulated by a subcommittee to be chosen at the meeting of the general committee, of which notice is above given."

Among the New Yorkers who are members of the committee, are: Grover Cleveland, General Sherman, David Dudley Field, General Stewart L. Goddard, William Waldorf Astor, John Russell Young, Henry Randall Waite, C. M. Depew and General Wagner Wayne.

Preston's "Hed-Ake" is a specific for headache.

THE ALASKA CENSUS.

WASHINGTON, Nov. 8.—A bulletin from the census office upon the census of Alaska is composed entirely of a brief introductory statement from Superintendent Porter, and a letter from special agent Petroff, describing his experience in organizing a force of enumerators for his district. There are no statistics of any kind. Superintendent Porter says: "The general and special schedules used in this investigation, cover the following subjects: First, white and civilized population; second, native population; third, churches; fourth, schools, cafeterias and fishing; sixth, trade and commerce; seventh, gold and silver mining; eighth, coal mining."

"The enumeration of Alaska is nearly completed, but the returns have been received only in part, and those from several interior districts cannot be obtained until next spring. The accompanying letter is issued in order to show the obstacles in the way of pursuing this branch of investigation."

Mr. Petroff's journey in Alaska foots up about 12,000 miles, and the distances which had to be traveled by his assistants would probably be four or five times greater. The superficial area of the territory is estimated at 570,000 square miles. Mr. Petroff's letter is more like an entertaining story of an adventurous explorer in a new country than an official report of a man bent upon statistics of population, manufactures and farm mortgages. He was often obliged to depend upon the waters and the woods for his food, and for shelter upon his own devices.

Immediate relief by using Preston's Hed-Ake.

Children Cry for Pitcher's Castoria.

SPECIAL ANNOUNCEMENT TO THE CITIZENS OF WICHITA AND SURROUNDING COUNTRY

Dry : Goods : House! Has Decided to Continue Business in this City

Sounds queer, but nevertheless a positive fact. We are here to stay, our reasons are good. Our Mr. M. B. Cohn in the past three weeks covered over 5000 miles of railway, spending over five hundred dollars looking and seeing if another city could be found where business was not overdone, where money was plenty, where lots of mechanics could be found working, where times were good, where there is no cry of dull or hard times, where crops are always good.

Mr. M. B. C. returned a few days ago and took down the sign, "Closing Out at Cost." We have seen, we are back, we claim that the Peerless Princess of the Plains, Great Wichita, is not only the best city we have been in but has the brightest future of any city in the United States. We have been in the biggest and best booming cities in the south, where on paper you would imagine they are the only places on God's Green Earth; where money can be made, times there are as they are everywhere. A stagnation is now all over the commercial world. Wichita, Sedgwick county, Kansas, is the city for us; where we are going to lift our flag and fight it out all along the line. The crops everywhere are short this season, in all the southern states; we like the west, we like the people, we want to live in the west, our business must be here, takes time to know or learn all, we are glad we have spent a few dollars to find out what we know, we can work with more vim; we have the confidence now, we are perfectly satisfied, we spent our time amongst the business houses, we know whereof we speak, you go and spend your money and you will come back as we did.

During the past few months we have been closing out our stock, we have undoubtedly done a very large business, we have learned that selling goods at a very low price creates volumes of business, more of them sold profits at the end will be larger than big profits and small sales. Our motto in the future: "Mark our goods in plain figures; one-price to all." Mark them low at the start, insure the public that you are selling low, success will follow, that is our future. Handling only desirable goods, lower than elsewhere, keep all new novelties, handle all classes and kinds, make our store one for the poor, intermediate and the rich. We now thank the generous public for their liberal patronage and insure them we will try to merit same in the future. Yours, most respectfully, GLOBE, Dry Goods House.

Mr. M. B. Cohn on his trip purchased a new line of fall and winter goods now arriving daily.

Tuesday, Nov. 11th. Mr. M. B. C. purchased 600 pieces of ribbon from a certain concern at 33 per cent below their value. They will be placed on sale this week, commencing Tuesday.
