FORCED TO COME. Final Decision of the Osborn Harvester Company to Locate at Wichita.

Saturday last it was finally decided by the D. M. Osborn Harvester Machinery company to locate in this city, and at once with a branch and distributing house, such as William Deering and the Acme Harvester company have located here.

During all last week W. L. Olinger, the general southwestern agent, whose residence is in this city, was at Kansas City in consultation with members of the firm, and returned Sunday morning.

An Eagle reporter hearing that Mr. Olinger was in Kansas City connected with the proposition to locate here, interviewed him on the subject. "Yes," said he, "it has been finally decided to locate a general branch house here, on precisely the same footing that Deering has located here. It is a very hard matter for me to get a building, but of course I must and will have one, and our branch house will be in operation here in plenty of time for the harvest trade."

The fact is I knew some time ago that we must locate here and I'll tell you now that it must come to Wichita. It is not a matter of choice with them, but on the contrary it is a matter of necessity; they are forced to come. In conversation with the general agent of the McCormick company the other day, I told him he must have a branch house in Wichita, or be in the soup, and he replied that inasmuch as all the other were locating here, the Peerless Princess they must too. Mr. Olinger also is authority for the statement that Oliver Brothers, manufacturers and patentees of the chilled steel plows, of South Bend, Ind., the largest plow company in the United States, are coming here.

It was told this by the general agent manager of the company while in Kansas City. In fact the principal topic of discussion at Kansas City among implement men was the probability of Wichita becoming the agricultural implement center of the west. Of course the Kansas City houses don't like it but they thoroughly realize that Wichita is their most formidable rival at present. In fact four of them deny that Wichita is the coming farm machinery city.

The building up of an agricultural implement market here would progress with greater rapidity had it not been for a lack of storage room. Several plow, rake, cultivator, etc., firms are intending to locate branches here in the near future if they can get suitable buildings.

Speaking about building in connection with machinery, there are now a couple of gentlemen, residents of another state, who are contemplating a large implement transfer house here. In fact dirt is liable to begin to fly on it any day and it may be done possibly in time to accommodate the Osborn Harvester. The contemplated building will be 100 feet wide, about 140 feet long, three stories high, built of brick and stone and with two railway switches entering it from the track of one of the main lines.

Mr. Olinger says that the opening of Oklahoma and the probable opening of the Cherokee strip and the other Indian reservations is the real cause of the stampede of the implement houses to Wichita. He says that Kansas City was entirely too far away from the great harvest fields of the southwest and that no Kansas City houses can sell in Southern Kansas and Oklahoma in competition with Wichita and that for that reason they must come here or give up the trade.

When the house is up in a running order here which will be inside of forty days at the outside, the Osborn company will put five traveling men on the road to represent the Wichita house alone.

CARTER-KAUFMAN. A brilliant event in social circles in this city was the wedding of two well known and popular young Wichita people at the Germania M. E. church, on the corner of Emporia avenue and First street, last evening.

The interior of the church was a veritable flower garden. Evergreens, mistletoe, smylax, ferns and many beautiful and rare flowers artistically arranged formed the decorations, and this, with the brilliant lights, formed a scene of beauty that was soul inspiring. Over the altar was placed a magnificent floral nosegay.

At 7 o'clock Miss Ida Kaufman, sister of the bride, struck up the wedding march, and rendered it in a very excellent manner. The bride couple, Mr. Ed. N. Carter and Miss Anna Kaufman, were ushered into the church by Mr. J. H. Lynch, a brother-in-law of the bride. The happy pair marched to the altar where they took their places under the floral nosegay. Rev. Mr. Hether, the pastor of the church, performed the ceremony. The services were brief but impressive. The groom was in evening dress and the bride looked charming in a dove color silk crepe dress with lace trimming. She wore a bouquet of marionette roses. The church was crowded and many were compelled to stand during the ceremony, notwithstanding that only those holding invitations were accorded admittance. After the ceremonies the bridal party and immediate friends and relations of the couple assembled at the residence of Mr. Kaufman, 28 North Emporia avenue, for the wedding dinner. The presents were very numerous and elegant. Among the presents which the bride prizes particularly is the present of a year's instruction upon the piano from the elegant lady musician Mrs. Catherine Russell. Mr. and Mrs. Carter will give receptions on February 18th and 19th, in the Rheinland hotel. Both of the young people are well known in this city, having spent their early years in their lives, and are held in high esteem by all.

FORMALLY RESIGNED SATURDAY. Last Saturday, Rev. N. E. Harmon, county auditor, tendered his resignation to the County Commissioners and requested that it be accepted. Some five or six months ago Mr. Harmon wrote to Governor Hammon requesting him to get an opinion from the Attorney General as to whether or not it would be strictly legal for him to hold the office of county auditor under the law passed last winter, until his term of office expired November next. The Attorney General submitted an opinion through the Governor to Mr. Harmon stating that the purpose of the law did not reach him at all and that he could hold the office until his term would expire. Recently, however, a decision was rendered in one of the high courts of the state which seemed to be in direct conflict with the attorney general's opinion. Soon after this decision was made Mr. Harmon, in view of the fact that there was no accurate knowledge of what the population of the county is, practically went out of office last December, but did not formally resign till Saturday, when County Attorney Norris rendered an opinion on the matter at the request of Mr. Harmon made some time ago.

GOOD FOR THE STOCK YARDS. Commission men from the stock yards report an improvement in the business at the stock yards and say that the Wichita market is slowly but surely coming to the front. Yesterday's business was the largest in many months. The hog that the packing houses are now getting are of much better quality than were formerly shipped here. The top price of hogs at this market yesterday was \$4.15.

ON THE DEATH OF MRS. HINMAN. For the Eagle.

A mother has gone to that land of rest. Leaving her sorrows for the home of the blest; At home they will miss her now evermore. For her home is beyond, on that blissful shore. The father will mourn, and children so dear, For the mother-companion has always been near. Her example before them has been of the best, Now her home is away with the Saviour at rest. She has mingled in life with Christians each year. The trials now broken, yet he of good cheer, For the heaving hands call for her higher; Then to be like her should be our desire. The mother, an angel, has joined the glad throng. She can minister no more, in word or in song. To her loved ones on earth, forever no more. Yet she will greet you on that happy shore. Thus long in our memory shall thou ever appear. And friends will think of thee, then drop a tear. Weeping will follow when the Saviour shall call. Be ye also ready when, we know not at all. But death has paid her once fair face, And stilled her form to rest; Her weary head is pillowed now Upon her Saviour's breast.

CONCENTRATED LYE. Some Men Put it in the Drinking Water on a Missouri Pacific Train.

Sunday Dr. Shultz was called to see a man whose name he did not remember, yesterday, whose mouth and throat were in a terrible condition, and who was reported to be injured fatally. The doctor went hastily to the patient's home and found he was the victim of lye poisoning. He rendered him timely professional services and the man is now supposed to be well. The man in question was in a Missouri Pacific caboose, and was drinking from the water tank and dipped the drinking vessel into it. It came in contact with some hard substance in the water, and, thinking it was a piece of ice, he paid no attention to it. When he drank the water it burned his mouth severely, and for that reason he only swallowed a very small portion of the drink. He looked into the tank and there saw the lye can. Medical attendance was immediately secured as stated, and everything possible done to relieve the intense pain he suffered in the mouth and throat from the lye. It could not be learned how the lye got into the drinking water tank.

MATERS OF INTEREST TO THE POLICY HOLDERS. The report of the investigation of the New York Life Insurance company found elsewhere in this paper will doubtless prove a pleasant surprise to the friends and patrons and a source of annoyance to the enemies of this company. About six months ago an attack was made by the New York Times upon this officers and especially the president of the organization, charging them with reckless expenditure of the company's money also with making injudicious investments, at the same time adding that the company itself was beyond question in a perfectly healthy financial condition. The officers at once demanded that the insurance commissioner of New York make an examination of their affairs.

This investigation which has been going on for the past six months has just been completed, and the report shows a surplus of \$14,708,675 after deducting all bad accounts and loans and reducing values on real estate and other investments to a present cash basis, while the management especially the president, had reported a surplus of \$14,908,450 in their last report. The assets given in the official report of Jan. 1, 1891, were \$13,947,800, while the result of the examination is to place them at \$13,710,600. A gain of nearly \$5,000,000. These results are certainly very complimentary to the management, and the best possible refutation of the charges mentioned.

EXPRESSION OF SYMPATHY. At the stated meeting of Wichita lodge No. 22, A. O. U. W., held last night, Jan. 25, the committee appointed at the last previous meeting to prepare a paper expressive of the feelings of the lodge upon the death of the late W. W. Reynolds and of sympathy for his family, submitted the following which was adopted:

Ye in this mysterious dispensation of providence we know he has acted for the best for all concerned, and reverently accept it as a dispensation of divine mercy and wisdom to stand by the decision of the loved ones who mourn the death of Brother W. W. Reynolds as only a devoted companion and loving, trustful children can understand and all we have to do is to keep and guide the Great Master of the Universe, praying that His protection may He ever keep us to the end.

Mrs. Connor, the woman who was reported adjudged insane in the probate court of this county Saturday, is still in jail. She was not declared insane in this county for the reason that she was a resident of Guthrie, Oklahoma, but it is probable that she is now there, and the necessary steps within a few days to have her conveyed to the government insane asylum at Columbus, Ohio; if not she will be returned to Logan county, Oklahoma.

HYPATIA. Some bright lights from the Bright Woman of this Popular Society.

From Sunday morning's EAGLE many fine addresses and other interesting matter had to be cut out of the proceedings of the Hypatia banquet at the Carey, given in honor of the sixth anniversary of that splendid organization. The address of Mrs. Julia K. Bennett was fine in every respect and reflects credit on the bright author. It would if printed in full make a fine reading treat but unfortunately such a thing is impracticable at this time. The following extract from it however will be found interesting.

As a club we have today reached another milestone on our journey, and we can enroll this year our first over our past. We find that we have made an united effort to do good, substantial work, and make our club efficient and helpful to all. We have welcomed new members, we have regularly hidden aid to others whose duty called them from us to homes in other cities. In the prosecution of our intellectual pursuits we have delved into the German literature and were transported back to the days when the Minnesinger turned his harp to the ear of his lady love. Pushing our investigations into the realm of the past we have spent pleasant hours with Tolstol, Stepanik and Prince Krapovink. We have traveled hand in hand with George Keats, looking over our past, we find that we have made an united effort to do good, substantial work, and make our club efficient and helpful to all. We have welcomed new members, we have regularly hidden aid to others whose duty called them from us to homes in other cities. In the prosecution of our intellectual pursuits we have delved into the German literature and were transported back to the days when the Minnesinger turned his harp to the ear of his lady love. Pushing our investigations into the realm of the past we have spent pleasant hours with Tolstol, Stepanik and Prince Krapovink. We have traveled hand in hand with George Keats, looking over our past, we find that we have made an united effort to do good, substantial work, and make our club efficient and helpful to all.
