DOM M. DICKINSON IN THE ROLE OF MARK TAPLEY.

The Democratic Brethren Congratulated on the Results of the Recent State Elections.

The Outcome of the Contests in Maine, Vermont and Arkansas Very Satisfactory to the Rainbow-Chasers.

Texas Republicans Conclude to Make Hogg's Defeat Certain by Indorsing Judge Clark-Grover to Crawford on the Chicago Free Trade Declaration in His Forthcoming Letter of Acceptance-Long's Campaign-Notes.

NEW YORK, Sept. 14.—The Democratic national committee today issued the following address from headquarters in this city:

"To the people of the United States: The Democratic national committee congratulates the country on the result of the recent state elections in Maine, Vermont and Arkansas.

"In Arkansas the combined opposition, after some very extravagant claims, fell short of 50,000 of the vote of the Democracy alone. This brought dismay to the combination in the south and to its manipulators in the north.

"In Maine and Vermont the contest was conducted distinctly on national issues. The Republican managers appealed for votes in these states on the ground that the size of the plurality would constitute a great moral statement in the campaign in other states, and that the poll would be practically our vote for president.

"Similar appeals were made in other states, and that the poll would be practically our vote for president. Similar appeals were made in other states, and that the poll would be practically our vote for president.

GROVER TO CRAWFISH.

NEW YORK, Sept. 14.—The Herald says that Mr. Cleveland, in his letter of acceptance, intends to depart from a strict interpretation of the tariff plank of the platform adopted at Chicago, and to appeal to the country on a carefully prepared modification of it.

What Mr. Cleveland is understood to particularly object to is this sentence in the platform: "We declare our fundamental principle of the Democratic party that the federal government has no constitutional power to impose and collect tariff duties except for the benefit of the people."

This utterance, says the Herald, was not satisfactory to Mr. Cleveland at the time of its adoption. It was part of the substitute inserted in the platform by the extreme opponents of the tariff and Mr. Cleveland's ill-wishers, who wanted to weight him down.

Mr. Cleveland, it is said, will meet it on the point of his own home, Madison Square garden, July 21, replying to the official notification of his nomination, in which he complained of the inequality and unfairness of the tariff laws.

TEXAS REPUBLICANS.

FOUR WORTH, Tex., Sept. 14.—The Republican state convention reconvened this morning and made the temporary organization permanent. This order simply emphasized Clark's advantage, which was evinced on the election of Hawley as temporary chairman yesterday.

An incident of this morning was a vote of 50 to 129 to nominate a state ticket, but to support the contesting Democratic candidate, George Clark, for governor.

LONG AT RICHFIELD.

RICHFIELD, Kan., Sept. 14.—(Special.)—Hon. Chester L. Long addressed a large and enthusiastic gathering at the court house in this city last evening. The court room was filled with people of all the different political parties, anxious to hear the brilliant young statesman when the ladies have decreed to represent the intellectual, energetic and patriotic people of the

THE OKLAHOMA RING. CHICAGO, Sept. 14.—General Miles' annual report of the condition of affairs in the department of the Missouri was forwarded to the War Department. One of the most important features of the report is a statement regarding the swindling operations of the ring of lawyers who are said to have netted \$67,000 from the Government in the sale of land in the Territory. They had settled certain Indian claims against the government. General Miles has steadfastly adhered to the belief that the ring was a robbery ring, and says so in vigorous language in his report.

A SMALL THING.

It was a small thing when an enraged cow charged at Mr. Gladstone the other day yet if help had not come, just as it did, the whole course of British history might have been altered. It is the little things in life that lead to the greatest results. So it seems a small thing when a slight cold settles on the lungs or fastens on the kidneys but if neglected it is likely to prostrate the individual and ultimately unless its course be checked, to lead to death.

When you take cold do not "take chances on it" but go at once and get a bottle of Reid's German Cough and Kidney Cure and take it freely. It contains no poison but it will cure the worst cold and any malady that comes from cold. As it contains no poison, there is no danger from an overdose. This makes it perfectly safe where there are children. Should the baby find the bottle and drink its entire contents no damage will ensue. In cases of croup you can give this remedy as often as the paroxysm comes on, every five minutes or even oftener if necessary, and no danger will result. This is the only cough remedy on the market of which this can be said. Get it of any dealer.
