BITTING BROS.

couldn't have a worthier theme for his highest flights of oratory than our new diagonal worsted suits in black blue and brown. During the next few weeks the spell-binder will have the flow and we'll have the flow, too, not only for a few weeks but for an indefinite time with our Fall and Winter Overcoats, which do not admit of any rivalry. The public are snapping up these bargains eagerly, because they look just what they are—the best offered this season. Our numerous customers in the city and adjacent towns and cities are all loud in their praise of the merits of our garments and fill our store constantly. Our boys and children's clothing are well made, stylish and cheap. Bargains this week.

THE NEW TROTTING RECORD ON A REGULATION TRACK.

Nancy Hanks Makes Another Wonderful Exhibition of Speed at Terre Haute, Ind.

The Usual Scenes of Excitement and Up-raise Following the Finish—A Remarkably Fast Quarter.

Monbars Lowers the Three-Year-Old Stallion Record Made by Axel over the Same Course Three Years Ago.

Events at the Graveland and Latonia Meetings—The Base Ball Scores for the Day—General Notes.

TERRE HAUTE, Ind., Sept. 28.—Thousands of people witnessed the record-breaking events of today's races. Nancy Hanks was driven to beat her regulation-track record of 2:07. At 4 o'clock she appeared, with Bud Doble up, accompanied by Frank Starr behind the runner Abe Lincoln. The

NANCY HANKS, 2:04.

track received but little more attention than for the other races, beyond one extra scrape and dragging. The day was fair, not hot, and a light breeze stirred. Frank Walker gave the word and the mare started at full speed. The first quarter was made in 31 seconds, the runner galloping furiously behind her. The half was as steady as a steam-driven piston. The half was reached in 1:02 1/2, the third quarter pole in 1:32 1/2 and the mile was trotted in 2:04, without a break or a show of uneasiness or overdriving.

The best quarter was 29 1/2 seconds. The last half was made in one minute and one 1/2 quarter seconds. At the close tremendous cheering broke out. The crowd poured onto the track and Doble was carried on their shoulders to the judges stand, happy and smiling, to bow his thanks. President Jams announced the time as 2:04 and the breaking of all kite and regulation track records, and Doble and the mare were cheered again.

Another important record fracture was the breaking by Members (2:45) Dan Leather's great 3-year-old, of the 3-year-old stallion record, held by Axel since 1883. Monbars is by Eagle Bird. He was driven by George Starr to lower his record, and he trotted the mile in beautiful style in 2:15 1/2, on the same track trotted over by Axel.

In the 2:30 class, pacing, Drigo won, with Blandicho second. Best time, 2:22. In the 2:25 class, trotting, Wheeland Onward won, with Ma a second. Best time, 2:17. In the 2:15 class, trotting, with Arline second. Best time, 2:14 1/2.

New York, Sept. 28.—Graveland winners: Chiswick, Convas, Dagonet, Stouell, Wood, Sport.

Cincinnati, Sept. 28.—Latonia winners: Emma Louise, Parametta, Sir Charles, Guido, Goulden, Lannie B.

KILLED BY LIGHTNING.

OTTAWA, Kan., Sept. 28.—The residence of Samuel Adkinson at Taloup was struck by lightning during a terrific storm last night, killing Mr. and Mrs. Adkinson and their two children—one 4 years old and the other 7 months old. The house was burned to the ground.

POSTMASTER OF SALINA.

WASHINGTON, Sept. 28.—The president has appointed William Johnson postmaster at Salina, Kan.

THE HAMBURG EPIDEMIC.

LONDON, Sept. 28.—The Times says the Hamburg calamity was painfully due to preventable causes. Notwithstanding the generally accepted belief that Hamburg's sanitary system is woefully deficient, and that cleanliness is not one of the cardinal virtues of the city, in some respects Hamburg has every reason to be proud of its sanitation. There is no poverty in the city and no overcrowding, while the cleanliness of even the lower classes is exemplary. An efficient system of drainage exists, and the site and soil and general arrangements of the cemeteries are exceptionally good.

But all this is outweighed by the monstrous evils which have been crying shame for many years. Hamburg is encompassed by a dirty river on one side and a dirty, stagnant lake on the other. A network of filthy canals connects both the river and the lake. The canals are utterly abominable; the water is black and motionless, covered with a foul scum which bubbles burst, throwing forth a terrible stench. Lousy buildings, arising sheer from the polluted beds, surround these canals and effectively impede the action of the air. The water runs low in August, and the putrid slime was left to swell in the broiling sun.

The Times goes on to say that the population has not consented to live on a city soaked with liquid nastiness and breathing air charged with poisonous emanations. In addition, their water supply is drawn from the Elbe, into which the sewage is discharged. This water, with sewage, without a pretense of purification, is returned to the house and reconsumed. Its passage through the water works merely serves to make the nauseous abomination filthier and more noxious than before. The water works are filthy, with ponds of muddy water filled with slimy weeds and offensive greenish black deposit. These ponds contain shoals of foul feeding fishes. The dirt of years clings to the pipes and settles, sticks, lumps, crabs, snails and worms make their homes.

It may be added here, however, that since the outbreak of cholera the Hamburg authorities have made arrangements by which the city will be supplied with pure water and that the Elbe water is used for drinking purposes it is thoroughly boiled. Some of the large breweries have enormous quantities of water which they give away while the city authorities have regular depots for the distribution of boiled water.

THE INDIAN BUREAU.

WASHINGTON, Sept. 28.—Indian Commissioner Morgan has submitted to Secretary Noble his annual report. The government has a well defined policy of dealing with the Indians, says Commissioner Morgan, the essential part of which is suggested by the one phrase, "American citizenship." Citizenship accompanied by the allotment of lands necessarily looks toward the entire destruction of the tribal relation and the dealing with the Indians as individuals. It will destroy the whole agency system and eventually do away with the necessity of any Indian bureau. Citizenship is to be conferred upon the Indian when he has acquired sufficient education to warrant the change.

The subject of Indian education is covered fully, its difficulties are pointed out, a general survey of the field is presented and the best means for carrying out the different kinds of schools in operation, their capacity and attendance. There are now in operation, or soon to be opened, twenty large training schools, the largest of which are in the hands of the Indian reserve agencies. Three years ago there were eight such institutions. When completed their total capacity will be about 5,000 pupils.

The total enrollment of pupils in all these schools and government and contracted for the year ending June 30, 1892, nearly 30,000, an increase of more than 4,000 within three years, or more than 20 per cent. Four years more at this rate of progress will see practically all Indian children gathered into schools.

The plan of detailing army officers to take charge of Indian agencies is fully discussed and approved.

EXCURSION RATES.

CHICAGO, Sept. 28.—All roads interested in passenger traffic between Chicago and Buffalo have made a round-trip rate of \$5 on account of the national convention of real estate dealers to be held at Buffalo, N. Y., Oct. 1-4. This rate is made because the Nickel Plate refused to withdraw its rate of \$7.50.

KANSAS CITY, Sept. 28.—The following reduced rates have been authorized by the Transcontinent Passenger association: Emporia, Kan., October 5. Anniversary meeting and picnic, A. O. U. W.—Open rate of one and one-third fare from points in Kansas within 100 miles, on excursion tickets to Emporia, to be sold October 5, limited to October 6. The Missouri Pacific will make the same rate on the certificate plan.

Fort Scott, Kan., October 10-14. Annual meeting of Grand Lodge, I. O. O. F. and Patriotic Militant and state convention Daughters of Rebekah—Open rate of one fare from all points in Kansas and St. Joseph and Kansas City, Mo., on excursion tickets to Fort Scott, to be sold October 10, limited to October 11.

Topeka, Kan., Oct. 7. Democratic state convention and mass meeting—Open rate of one and one-third fare from all points in Kansas and St. Joseph and Kansas City, Mo., on excursion tickets to Topeka, to be sold Oct. 6 and 7, limited to Oct. 9.

BURNED TO THE WATER.

BOSTON, Sept. 28.—The steamer Water-son, Captain Alley, which left here today for Lynn, took fire near Shirley and burned to the water. Mrs. Mary Carter, wife of the steward, jumped from the vessel. She struck her head on the propeller and was killed instantly. Her body was recovered. Captain Alley was seriously burned. No other persons injured. The value of the vessel cannot be determined.

SENATOR QUAY.

WASHINGTON, Sept. 28.—Senator Quay returned today from Florida, where he has been hunting and fishing. He says that he is much improved in health and will enter the campaign shortly.

HOME AND FOREIGN.

RUSSIA AND GREAT BRITAIN ON THE VERGE OF A ROW.

John Bull Angered by the Recent Seizures of Canadian Sealing Vessels.

The German Catholic Congress Expresses the Opinion That Columbus Should be Canonized by Rome.

A Description of the Cholera Breeding Surroundings of Hamburg—The Plague Apparently Eradicated at New York—Commissioner Morgan Reports on the Progress of Indian Education—General Notes.

OTTAWA, Oct. 28.—Notwithstanding the denial from London that a British man-of-war had been sent to the Siberian coast to secure the release of the Canadian steamers now supposed to be held prisoners there by the Russians, Hon. C. H. Tupper, Canadian minister of marine, says that a man-of-war is now on the way there.

It is reported here that the captain of one of the British Columbia sealing vessels seized by the Russians is passing on here for the purpose of furnishing the government with affidavits of his seizure, and information as to others. He also makes the statement that having been in the Baltic he understands the Russian language, and while a prisoner on board a Russian gunboat he secured such rights in Bering sea as would materially assist the United States in the approaching arbitration. He says that he may cablegrams regarding the seizure of the Canadian steamer to the British and Canadian governments, and the sending of the British gunboat Tolosene is regarded as a violation of the treaty of 1853 between Russia and Great Britain, and as a casus belli, with the United States assisting Russia, the possible consequences to Canada are very serious.

A dispatch received here from Lord Ripon, colonial secretary, London, England, respecting the Bering sea matter, says: "With regard to a renewal of the Russian vessel, it is the intention of the convention under which it was arranged that in the event of the arbitrators deciding against the claims of the United States the British vessel should be returned to the United States as undamaged to compensate the British sealers for abstaining from exercising their rights pending arbitration."

THE NEWARK CONGRESS. NEWARK, N. J., Sept. 28.—The German Catholic congress continued its session today. The speech made last night by Dr. Schroeder regarding the temporal power of the pope has caused a sensation among the great number of German Catholics who are now in the city. Dr. Schroeder is severely criticized by some, who say that the remarks made by him will cause division in the German ranks. The Irish Catholics especially object to the remarks made by the speaker. The resolutions, which will be presented at a secret session this afternoon, are said to be of the same purport. Dr. Schroeder, in speaking on the subject of the pope's temporal power, demanded its restoration, and said that there is no compromise to be made with the so-called liberal element and Catholicism.

The closing meeting of the convention was held tonight. Over 900 people were present, among them being many of other denominations, who expected that the resolutions to be adopted would be sensational.

The resolutions demand the establishment of parochial schools and protest emphatically against any attempt on the part of the state of Illinois to interfere by law upon the right of education, and call upon Catholics to give their votes only to candidates who take a correct stand on the school question, and pledge a renunciation of all secret societies forbidden by the church, with delight the approaching Irish anniversary of the consecration of Pope Leo XIII. demand the full freedom and independence of the holy see by the restoration of the temporal sovereignty of the pope, and state that, as free American citizens, they will not tolerate interference with a free expression of their views on that extremely important church matter.

The resolutions also endorse the pope's proclamation ordering a proper celebration of the anniversary of the discovery of America by Columbus, who was a true Catholic, full of confidence in his holy faith, and expressing the hope that he may be canonized as a saint.

A BLACK RECORD.

SAN FRANCISCO, Sept. 28.—The detective force of this city is making an earnest search for Dr. Harry Gable, alias Harve, arrested a month ago on the charge of having caused the death of Mary Carroll by means of a criminal operation. He was afterwards released on a cash bail of \$1,000, and a few days afterward disappeared. As no trace of him was found the bail was declared forfeited. The police are particularly desirous of capturing him, not only on account of his alleged murder of Mary Carroll, but also on account of more recent operations, which seem to show that the man has been engaged in a long series of crimes. The most important of these is to the effect that he has been engaged in the wholesale murder of infants born in a lying-in hospital of which he was the proprietor.
