ABOUT THE STATION: Frank Sutton was run in last night for being drunk. J. B. Marlett was an obstreperous drunk last night and threatened to tear the prison walls down. Bossie Chartain, known as "Flat Wheel," is locked up on a charge of loitering in public places. Charles A. Shannon, who was arrested for not supporting his family, entered a plea of not guilty and had his case continued until today. Captain Nipp of Winfield was at the station yesterday. "Deacon" Smith was taken to the hospital yesterday.

THE LITTLE MACHINE.

The West-Pullers and Sucker Manipulators Will Now Go Pumping for Pop. The Demo-Fuse strikers of this city are in a stew. They were never known to do anything mainly in a local political way. They never made a straight-out nomination nor a straight-out fight on principles in all the history of the town. Their campaigns begin with mud-throwing, and end in intrigue or some kind of slick fusion. The bosses are a set of heels and dirt eaters. They know it, and everybody else knows it. All they want is a chance to run the little machine, and to get the easy drippings from the public platter, with an occasional insignificant Republican one year, the labor unions another and the Populists another. Anything to keep themselves and pets in. And this spring will be no exception. Weeks before they had any idea of whom the Republicans might nominate their organ commenced to sling whole tubs of mud. They cried "rings," "old crowd" and "boogie gang," ignoring the fact that if any party was responsible for boodling and stealing it must have been their own, for the simple reason that the Republican party has not been in power, as such, for years in this city. But that makes no difference with this knotty lot who dream that they are politicians of parts, only because when honest men are attending to their own business this pestiferous gang, living off political scraps and ends, put in their time manipulating their little wits. Nothing different can be expected of them this spring. The Republicans in an honorable, open and above-board manner publicly called the primaries and convention through their regularly constituted committee. The meetings were held and the convention was not only full and harmonious but a ticket was unanimously nominated, and not only of unobjectionable men, but, for the most part, the very choice of first-class citizens. If anybody thinks that because of this encouraging fact that this Democratic clique of pup-suckers will make no low-down effort to beat it, they are simply mistaken. There is no danger of their trying to do it in a clean, honorable way by the calling of a convention of their own, for the purpose of nominating another ticket. Not much. Such a course would be manly and void of tricks and trades and wire pulling. Oh no; they will get down into the slum, to one they will, with the petition racket or something of the kind, and with either a fusionist or an independent, or with some Republican. But whoever it is, that crowd will own him and own all the tools rround with him. This county and city for years have been Republican. But has the Republican party run both as it was entitled to? No. One has been run almost exclusively and the other largely in the name of the Democratic party; not by the Democratic party, but by and in the interest of traders and fence-suckers who put up jobs against the Republican party, but in the name of the Democratic party. So long as this kind of work only reached city and county it did not seem to matter so much. But the state government has at last fallen into such control and the result everybody knows. People are not only tired of such rule but are alarmed over it. There is no reason why the Republican party should not elect its city ticket entire this spring, and we most heartily wish to see it done in spite of all the sneaking, independent tool-fusion jobs that may and will be sprung by the gang of clappers afore mentioned and whom everybody knows.

CARD OF THANKS.

We wish to extend our many thanks to members of Wichita Lodge No. 22, A. O. U. W., Degree of Honor, and our kind neighbors who were so kind during the illness of our son, George, who died last Sunday morning. MR. AND MRS. J. K. ALBERTS.

LOOK OUT FOR CHOLERA.

A Meeting to Discuss the Best Way to Clean the City. The belief is general that cholera will reach this country the present year, and it is no doubt that Wichita is not in a condition to battle with it successfully. While there are hundreds of cities far dirtier—ten times over—than Wichita, and while it is always spoken of as an extraordinarily clean city, it is not clean by any means, but with its excellent sewerage system, its favorable location and the free circulation of air that is always maintained, it can, with a very slight effort on the part of its citizens, be made one of the cleanest cities in the United States. It has the proper official organization, and by concerted action they can do much good in this direction, and with a meeting called for Thursday evening at 7:30 o'clock at the city building to be attended by the board of health, the police commissioners and the entire city council. While there are many matters of importance that will come before this meeting there is none, probably, worthy of closer consideration than the use of sewerage from shallow wells. While Wichita has a system of water works second to none in the west and while the water therefrom is absolutely pure, it is a fact that more than two-thirds of the inhabitants of the city use well water for cooking and drinking purposes, and the physicians are unanimous in condemning the practice. There are many shallow wells in the city and with the porous soil of this valley it is impossible to obtain pure water from them. Last fall a number of bottles of water were secured by the city physician from shallow wells in the north part of the city and the water was found to be contaminated with typhoid germs. Fourteen feet deep, respectively, and at each house was one or more cases of typhoid fever. RELIGION FOR RAILROADERS. "Miss Jessie Smith, the railroad evangelist, left yesterday for Wichita, Kan., says the Springfield News. "She is best laboring in this city about ten days, and her work has resulted in much good. Her chief mission here, as elsewhere, was to make an impression on the railroad men. "The evangelist began in this city by holding a meeting in the Gulf shops on the first day of her arrival. This meeting attracted much interest among the working men. Other lectures, or, more properly speaking, talks, were made at various churches in the city, and each time many converts to the faith were secured. "Miss Jennie," as she is familiarly known, accomplishes much by her personal conversation with the men. She does not deal in lengthy and stereotyped doctrinal sermons. She thinks life is too short for that sort of business. Her subjects are well chosen and her language is so plain and simple that she cannot be misunderstood. Once in a while she uses figurative language, but the point she wishes to make is never lost. She talks much of home life and draws pictures of happy homes and makes comparisons with unhappy ones. The evangelist never seems to grow tired of her work. She is not a fluent speaker, but she knows it. Her words are marked with wisdom and common sense. It is needed to add to their effect. Sunday afternoon a large crowd greeted her at the depot. Her work in Springfield was closed by a short talk to the Memphis shop men yesterday morning, just before she boarded the west-bound train. Numerous well-wishers accompanied her, wearing the railway temperance association buttons given out by "Miss Jennie."

AMUSEMENTS.

THE BLACK FLAG. Eunice Goodrich with her own company opened a five nights engagement of the Crawford last night to a crowded house. Every seat was occupied before the curtain went up. The company produced the "Black Flag" with Miss Goodrich herself in the dual role of Topsy Carol, an ingenue, and Ned, the cabin boy. The plot of the play is good and affords an excellent opportunity for fine acting. Harry Glyden, the cost guard was an important character played by W. A. Moriarty. He is one of those fellows who is always kicked and buffeted around, while at the same time he exhibits a mighty generous heart. "Always ready to help somebody." The company will play "Black Flag" to-night in Mary Jane. "Buck Eye" is a very pretty play abounding with love and tribulations. It is full of those pathetic incidents that touch the human heart and again a vein of humor runs through it that sways the audience continually between tears and smiles. The prices are exceedingly low which insures another good house tonight. In fact, the indications are that the house will be crowded during the entire engagement of the company.

UNION STOCK YARDS NOTES.

Top hogs \$7.65. Miller Bros, of Garden Plains had in a mixed load. W. H. Donnell, of Haven, sold a mixed load. G. A. Lyon, of Otaville, was a shipper of hogs. M. R. Porter brought in a car of hogs up from Greensburg. J. W. Caldwell, of Raella, sold a mixed load. Coulson & Co., of Freeport, sold a car of hogs and cattle. John Kilby drove in forty head of good butcher cows from August. Homer & Kirk, of Kingman, sold a mixed load. M. Dobbins, of Viola, had a car of hogs. Ed Rittenberg, of Cunningham, had hogs and cattle on the market. C. W. Astle, of Haven, sold a car of cattle. Henry Tjlen brought in a car of hogs from Greensburg. WANTS A CORRECTED STATEMENT. GUTHRIE, O. E., Feb. 27, 1893. To the Editor of the Eagle: I see in Sunday's EAGLE an article concerning a meeting of the Santa Fe employees purporting to have been held at Wichita on Sunday morning, the 26th, and Building men were represented at that meeting. That is a mistake. No representatives were sent to any meeting of the Brotherhood of Locomotive and Building Men and if anyone pretended to represent them there they did so without authority. Please correct the statement and greatly oblige. W. T. NICHOLS, Grand Reporter.

THE KID MEN'S NEW HOME.

The Kid Men, in a few days, will have one of the finest society halls in the city. They have rented the entire back part of the Hamilton-Little block, consisting of three fine large rooms. These rooms are being plastered and papered now, and when completed will be the finest in the city.

BOARD OF TRADE.

At the regular meeting of the directors of the board of trade last evening much good and substantial work was done, all in the interest of the city. The subject of railroad legislation was fully discussed in the matter of the maximum freight rate bill now before the state legislature. This matter was referred to the committees on legislation and transportation, which committees have a meeting this morning at 10 o'clock at Mr. J. E. Howard's office in the City building. It is not unlikely that a representation of these committees will go to Topeka at once, to aid in getting some legislation looking to relief from railroad discrimination in freight rates.

LEWIS ACADEMY NOTES.

The monthly recital given by the pupils of Lewis academy was a credit to both pupils and their instructor, Mrs. J. E. Dunn. The program was well selected and every number was admirably adapted to each performer. Several appeared for the first time and did themselves credit. This institution is doing most excellent work in this department, as well as every other. Their recitals have proved so entertaining as well as instructive, that Mrs. Dunn the efficient director has been requested to give the next one as a benefit. The following pupils took part: Lulu Grosh, Clara Rule, Lizzie Roach, Harry Fisk, Gilbert Tucker, Mrs. E. A. Hall, Misses Zel Thompson, Ola Grosh, Helen Carpenter, Mamie Ella, Mamie McClung, Jessie Allen, Gail Caldwell, Gertrude Swain.

THE MARRIAGE.

Ben Downing was elected a representative at large to the national encampment of the G. A. R., at the meeting held at Pittsburg last week. The Consolidated Electric Light and Electric Street Railway company will build a new power house on the site of the present street railway power house. Captain J. H. Shields of the EAGLE editorial staff went up to Hutchinson Monday evening as a delegate to the A. O. U. W. convention. He is expected home today. The Citizens' Electric Light company is extending its wires up North Lawrence, Topeka and Fourth avenues and putting in incandescent lights in many of the private houses. It was reported last night that Charley Nesley was appointed to a handsome paying position in one of the state charitable institutions as printer. It is probably the deaf and dumb asylum. The contract for furnishing coffins to the poor was let to H. W. Kendel, D. T. Dunbar and I. W. Gill, by the county commissioners, each one of the firms to furnish supplies for four months.

STILL IN THE RING.

Two able bodied young men named Rogers and Warren applied at the station for lodging last night. They ought to be at work. How humiliating it must be to a young man to have to seek for lodging at the city jail in such a country as this where everyone should have solution. J. J. Sutherland of Canadian, Texas, proprietor of the Hotel of that place, has been in the city two or three days. Mr. Sutherland is a Republican of the Republicans, and runs a good hotel. From present indications Mr. Frank Good's place as candidate for city council from the Fourth ward, on the Republican ticket will be filled by Mr. Newton Garst if that gentleman consents to run. Ben Witter left last night for his home in Blue Hill, Pa. He has been in poor health all winter and grows rest thinking he will be benefited by change of climate. He will return to Wichita as soon as he improves. Burnett, the man who shot at Evans, the Joplin hackman some time ago, was convicted in the district court yesterday of assault and battery, which is the only charge that could be proven against him. He has not been sentenced yet. A young man named Mason, who was registered from Woodward, E. T., got into a fight on South Fourth avenue last night in which he nearly lost an eye by being struck with a flying brick, aimed at him by a colored man named Mose Ingram. It was reported on the streets last night that a farmer who was returning home from town with a load of hay that he was unable to sell, was badly burned and perhaps fatally. It is said that he was riding on top of the load of hay and that a spark from his pipe set it on fire. No details could be ascertained nor could the origin of the report. The novelty has worn off the Columbia stamp and Miss Grace Jewett, stamp clerk at the postoffice, has to use all the persuasive charms of the fair sex to sell them, and even then there is some danger that the postmaster will have to establish a bargain counter for them before the end of the year.

THEIR'S CRITICAL CONDITION.

At 2 o'clock this morning it was reported that a man was bleeding to death at the St. Francis hospital. The man is Jack Tihen, of Wellington, and he was brought here last week for treatment. Dr. Fordyce is attending him and said that while the case is most serious one he did not think the man would die. About two months ago Tihen was struck on the head with a large dinner bell, the blow severing a large blood vessel from which blood has flowed freely ever since and it seems impossible to staunch it. A KICK WITHOUT CAUSE. A young lady, and a society young lady at that, made a kick to an EAGLE reporter yesterday on the postoffice. She wanted Judge Jewett "roasted," as she expressed it, and on account of a letter which had not reached him yet, although she claimed to have mailed it Sunday. Upon investigation it was learned that the young lady mailed the letter in the scavenger box at the corner of Main and First street. The poor girl felt very cheap when she found out her mistake, and has withdrawn the charge she made against the postoffice. The scavenger may be a very nice man, but as a mail carrier he is not in it with Uncle Sam.

SHAKESPEARE.

What Mr. Smith Thinks He Would Have Said About Hood's Sarsaparilla. "Had Shakespeare lived here and suffered as I have, I think he would have said, 'Throw away all medicine except Hood's Sarsaparilla. As an Englishman, coming to this climate, I have felt the heat very much. In the spring I felt as if I had all the care and anxiety of America on my mind. I got one bottle of Hood's Sarsaparilla and after I had taken it I felt as if I could do anything." The President's Duties. Last month I had a return of my fever; it seemed impossible to stand up or lie down without almost tearing myself to pieces. I then got one more bottle and it has not only cured the heat but I believe it put my blood in good condition. I advise all to take Hood's Sarsaparilla in the spring and fall. Hood's Pills cure Stomach, Headache, Indigestion, Biliousness. Sold by all druggists.

SHAKESPEARE.

What Mr. Smith Thinks He Would Have Said About Hood's Sarsaparilla. "Had Shakespeare lived here and suffered as I have, I think he would have said, 'Throw away all medicine except Hood's Sarsaparilla. As an Englishman, coming to this climate, I have felt the heat very much. In the spring I felt as if I had all the care and anxiety of America on my mind. I got one bottle of Hood's Sarsaparilla and after I had taken it I felt as if I could do anything." The President's Duties. Last month I had a return of my fever; it seemed impossible to stand up or lie down without almost tearing myself to pieces. I then got one more bottle and it has not only cured the heat but I believe it put my blood in good condition. I advise all to take Hood's Sarsaparilla in the spring and fall.
